---------------------------	---

Enhanced Listing Directions

Congratulations on the purchase of an Enhanced Listing! We encourage you to take advantage of the ability to upgrade your listing on our online business directory to catch the visitor's eyes in the search results and increase click-throughs to your information page.

To help you set up your enhanced listing:

- A step-by-step video. This video starts with how to set up your membership profile. Enhanced listing information starts at 4:15: <https://www.screencast.com/t/8HHFR9un8>
- Printed directions below.

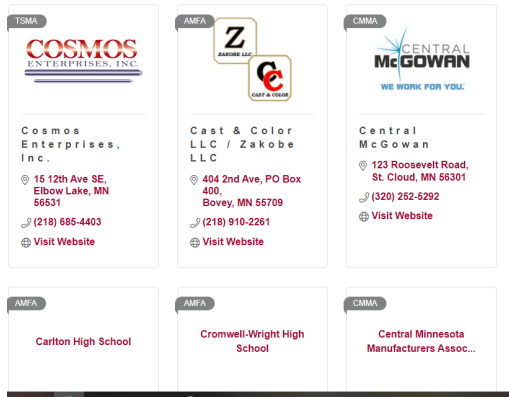

Printed directions

You will need to set up an account on our website if you have not already done so. You will also need to look through and fill in all the information in your company profile if you haven't done so already.

To take advantage of enhanced listing capabilities:

1. **Log in** to your membership account. You will be inside the Member Information Center (or MIC).
2. Click on the **Company** tab on the left menu bar. There are 4 tabs on the menu that are for Enhanced Listing items.
3. Click on **Logos** - it includes the member page header, member logo and search results Icon.
 - a. **The Member Page Header** - A logo and photo can be uploaded as an extra graphic that will appear on the top of your membership page. This header is an optional feature that can give your membership page a look that coordinates with your business website.
 - b. **Member Logo** - All members should upload their company logo to be displayed on your membership page, other key locations in the member center and on the public website.

- c. **Search Results Icon** - This is typically the same logo (but in a smaller size) as the photo uploaded in the Member Logo section. This logo/image will appear when other members or public visitors search for your organization in the directory.

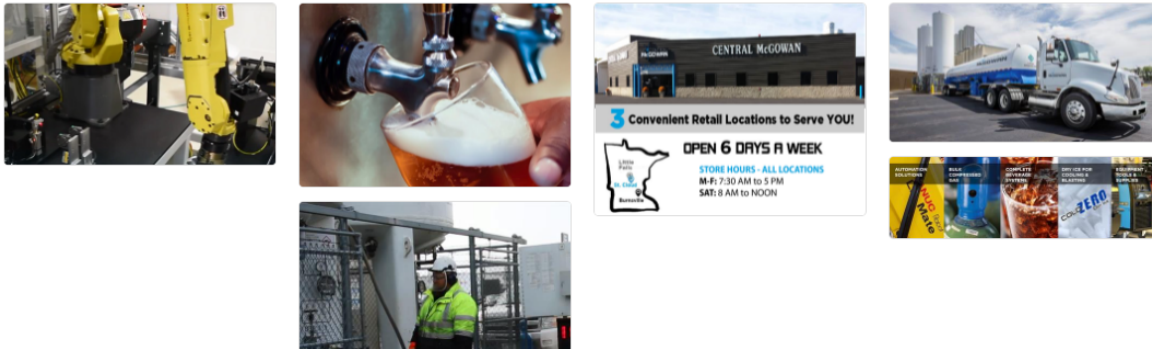

Example above: The top section is an example of how Enhanced Listings look on the website when a company is searched. The bottom section is an example of how organization names will appear without utilizing the Enhanced Listing features.

4. **Photos** tab – The Enhanced Listing feature allows for the option for photos to be uploaded by an organization that will appear in their membership page gallery and can be viewed by all who search for your organization.

Example of photos:

Images

5. **Video** tab - You can upload a video to be displayed on your membership page- by uploading that video to You Tube, copying the Share link, and pasting it in the appropriate spot in this tab.
6. **Map Pin** tab - At the top of this tab, you may upload an image that will appear on the map, or the google maps image will be used.
- A pin will always be displayed for your organization unless you uncheck the “show your organization directory” box.
 - If your pin is not in the right location, you may drag it to the appropriate location in this tab. You may also manually set your GPS coordinates if you know them.

As you can see, using the Enhance Listing option enhances the visual quality of your membership page, and allows for those that visit your page to view photos, videos, and other content, not available to those without this sponsorship option.

If you have further questions - Please contact Becky@MidwestManufacturers.com for assistance.
