

# Join us in Houston, TX for Alpha Omega Epsilon's Convention 2022!

## About Alpha Omega Epsilon

Alpha Omega Epsilon is a professional and social sorority for engineering and technical science majors that promotes friendship, leadership, and professionalism within our organization, community, and professions. We were founded in 1983 making our organization the largest and oldest sorority pursuing careers in engineering and sciences internationally. Currently Alpha Omega Epsilon boasts a 77% retention rate of women in engineering and technical sciences during their undergraduate careers.

Alpha Omega Epsilon prides itself on developing well-rounded successful members with strong leadership skills and core values through opportunity and education. The opportunities for leadership at the collegiate level are abundant and with these skills, many of our members become leaders in Alpha Omega Epsilon, other student organizations and within the community. Members also have the ability to develop and refine their social skills through these opportunities, resulting in better networking and team collaboration skills. Alpha Omega Epsilon is developing the next leaders in the engineering and technical science communities!

ABOUT  
ALPHA OMEGA  
EPSILON'S  
CONVENTION  
**2022**

**Alpha Omega Epsilon** holds a convention for its members biennially and we are excited about the networking opportunities it will offer throughout the weekend. The main networking event, held on the first day, will kick off the convention and allow an evening of interaction with our distinguished speakers, alumni, collegiate members, and sponsors. Our annual convention will draw over 125 members internationally and we invite you to participate. We hope you join us in Houston!

## Register to Sponsor Alpha Omega Epsilon's Convention

If you have any questions please contact our Convention Corporate Sponsorship Committee at [corporate@alphaomegaepsilon.org](mailto:corporate@alphaomegaepsilon.org).
