#### **Additional Instructions:**

#### Section I: New Rehire Report Form

Employers are required to report the following employees:

New employees: Employers must report all employees who reside or work in the State of Kansas to whom the employer anticipates paying earnings. Employees should be reported even if they work only one day and are terminated (prior to the employer fulfilling the new hire reporting requirement).

Re-hires or re-called employees: Employers must report re-hires, or employees who return to work after being laid off, furloughed, separated, granted a leave without pay or terminated from employment within 20 days of re-hire. Termination of employment does not include temporary separations from employment, such as an unpaid medical leave, an unpaid leave of absence, a temporary lay-off of less than 60 days in length or an absence for disability or maternity. Employers must report within 20 days of a new employee's hire or re-hire date. Our furloughed and temporary layoff employees will need to fill this out when they come back.

#### Section I: W-4: Federal Tax Withholding Form

The IRS updated the Form W-4 with significant revisions designed to make accurate income-tax withholding easier for employees in 2020. For your convenience, we have attached the new Form W-4. Additionally, to help employers navigate this change, we have compiled a list of the top five (5) changes employers should know about the new 2020 Form W-4:

- 1. Current employees do not need to submit a new Form W-4 to their employers due to the redesign.
- 2. All new employees hired as of January 1, 2020 must complete the new Form W-4.
- 3. Current employees who would like to adjust their withholdings must use the new Form W-4.

- 4. Employees may need more time to complete the new Form W-4 than they did to complete the previous versions. Employers should allow employees to take the new Form W-4 home rather than complete it on their first day. Employees can use the IRS Tax Withholding Estimator, a tool found on the IRS website, to help them complete the new Form W-4.
- 5. Since Employers are not required to have existing employees complete the new Form W-4, Employers will need to program their payroll system to accommodate the existing withholding calculation, as well as the new method.
