

## BEAUTY SALON – BARBERSHOPS – NAIL SALONS

Follow all guidelines recommended for **ALL BUSINESSES** and **additionally**:

- **Temperature checks:** Salons should consider use of a touchless infrared thermometer to check the temperature of employees each day and of each client who enters the salon/shop.
- **Screening questions:** Ask each client entering the shop the following questions: Have you had a cough? Have you had a fever? Have you been around anyone exhibiting these symptoms within the last 14 days? Are you living with anyone who is sick or quarantined?
- **Limit people in shops/salons:** Salons/shops should consider seeing clients by appointment only. Salons/shops should consider telephonic or online scheduling. Limit the number of people in the waiting area of the salon/shop.
- **Maintain social distancing:** Spacing between people in the salon should be at least 6 feet at all times. Salons/shops should consider additional spacing between booths, divider shields, and/or alternate work schedules.
- **Use of Personal Protective Equipment and best practices:** Salon/shop employees will be required to wear masks at all times. Salons may want to consider providing masks to clients.
- **Disinfection:** All salons/shops should be thoroughly cleaned and disinfected prior to reopening. Disinfect all surfaces, tools and linens, even if they were cleaned before the salon/shop was closed. Salons/shops should maintain regular disinfection of all tools, shampoo bowls, pedicure bowls, workstations, treatment rooms and restrooms. Additionally, salons/shops should remove all unnecessary items (magazines, newspapers, service menus and any other unnecessary paper products/decor).
- **Administration:** Employees who are sick will be expected to stay home.
- **Follow appropriate industry standard guidelines.**
