## Set Preference Details Screen

### Tower Construction Notification

FCC > WTR > Tower Construction Notification

Logged In: (Log Out) Section 105

#### Tower Construction Notification Set Preference Details

[User Options](#)

Select one of the following:

#### Set Preference Details

In order to assist you in review, you may add language specifying your preferences and procedures. This language will be sent automatically to all applicants whose notifications are referred to you. Many Tribes and WICs have chosen language specifying that if they do not respond to a TCNS notification within 30 days, they have no interest in participating in pre-construction review for the site. You may choose to use this standard language, or you may enter a description of your own procedures and preferences. [Examples of possible types of language.](#)

#### Select 30-Day Preferences

- Add the following language to be sent to applicants. [More Information.](#)

If the applicant/tower builder receives no response from the Thlopthlocco Tribal Town within 30 days after notification through TCNS, the Thlopthlocco Tribal Town has no interest in participating in pre-construction review for the proposed site. The Applicant/tower builder, however, must immediately notify the Thlopthlocco Tribal Town in the event archaeological properties or human remains are discovered during construction, consistent with Section IX of the Nationwide Programmatic Agreement and applicable law.

- ~~Do not add details language.~~ **Do not add 30-Day details language.**

#### Additional Details

You may also provide additional details relating to your review of tower notifications. For example, if you do not need to review towers going up along highway rights-of-way built after a certain date, you may specify this information in the text field below. You may also specify, for example, additional information that you wish to receive from applicants.
