

Construction e-Learning Centre

INDUSTRY-DEVELOPED, INDUSTRY-APPROVED TRAINING INNOVATIONS

Course description

Construction Project Management

SUMMARY

The information presented in this course will help you to understand what you can do to successfully administer projects and will provide you with the necessary tools to help manage a project.

DESCRIPTION

This training program will provide you with the knowledge and skills to help you plan and administer projects from start to finish.

OBJECTIVES

After completing this course, you will:

- Understand the construction business and your role in it as a construction project manager.
- Know how to effectively communicate through listening, writing, and verbal communication.
- Know how to manage and maintain worksite relationships.
- Understand what happens at the project procurement stage.
- Know your roles and responsibilities at each of the following stages:
 - Pre-Construction
 - Construction
 - Close-Out

AUDIENCE

This course is intended for everyone working in construction in any part of the country, in any sector (residential, institutional and commercial, heavy industrial and engineering).

COURSE LENGTH

The course duration is approximately 4 hours.

AVAILABLE FORMATS

This course is available online in English and French.

CREDITS/CERTIFICATES

This course has been accredited by the Canadian Construction Association (CCA) to three (3) credits toward Gold Seal Certification upon successful completion of this course. A final mark of 100% is required in order to receive a certificate of completion.

HOW TO ENROLL

You will require a PIN # prior to registering for this course. Please contact your local distributor to obtain your PIN # and cost information. Distributors can be located on the Construction e-Learning Centre website at <https://elearning.buildforce.ca>.
