

# It's time to review your 401(k) plan

## What is a Multiple Employer Aggregation Program?

A Multiple Employer Aggregation Program (MEAP) is a qualified retirement plan adopted by multiple employers through their association with the sponsoring organization, which acts as the lead sponsor. The MEAP is designed to gather the plan's important administrative, recordkeeping and fiduciary services to be overseen by a third party, which allows the plan sponsors who participate to outsource many responsibilities that come with running a retirement plan, and often, helps reduce costs.

## Why consider joining a MEAP?

Because every business owner tells us the same thing: They want a retirement plan solution that...

<p>1</p>  <p>Is easy</p>	<p>2</p>  <p>Protects them</p>	<p>3</p>  <p>Is cost competitive</p>
--	---	--

**Situation:**

They want to focus on their business – they don't want to be a 401(k) expert.

**Solution:**

The MEAP can become their 401(k) department, performing most of the administrative tasks for their plan, including handling their regular contribution files.

**Situation:**

They don't want to be at risk of paying fines or penalties.

**Solution:**

By joining a MEAP, employers can avoid much of the compliance concerns that come with offering their own plan. While their role as plan fiduciary still exists, many specific tasks transition to the Program. The employer's ongoing role is to oversee the various parties dedicated to the plan to ensure it operates as expected.

**Situation:**

They don't want to overpay.

**Solution:**

The MEAP delivers more value and services – potentially at similar or less cost than they are already paying. And, as plans grow, they're reviewed regularly for price reductions.

Find out how much easier it can be to sponsor a 401(k) plan when you join a Multiple Employer Aggregation Program (MEAP).

A group variable annuity is a long-term investment product designed particularly for retirement purposes. Group annuities contain both investment and insurance components and have fees and expenses, including administrative and advisory fees. Optional features may be available for an additional charge. The annuity's value fluctuates with the market value of the underlying investment options, and all assets accumulate tax-deferred. Withdrawals may carry tax consequences, including possible tax penalties.
