

The Zero Park I LLC Project is gaining momentum and they are looking for you.

New Fortress Energy is focused on developing clean hydrogen infrastructure hubs in strategic locations throughout the United States where it will use renewable energy to produce clean hydrogen.

They are looking to develop an energy hub at the south end of the old Dupont Beaumont Works, on and around the site of the old BRAD CLUB.

They would very much like to use local vendors and contractors.

How to pre-qualify as a contractor

Be a part of one of the largest green hydrogen projects in North America!
