

Kentucky EAS plan

1. National Primary Entry Point stations: WLW Cincinnati & WSM Nashville
2. State Primary Sources:
 - a) KET: Monitors KyEOC & WLW/WSM
 - b) Regional NPR affiliates: Monitors KET and NPR Squawk Channel
3. Kentucky Emergency Management. KET has a direct microwave link to the KyEOC facility in Frankfort. Alerts issued by the state government and the Kentucky State Patrol are cleared through the Frankfort operations center and distributed through the KET network.
4. Local emergency management agencies are encouraged to enter into agreements with local stations to be the originators of local alerts. Those agreements, once submitted, will become part of this statewide plan.
5. Local stations who are able are also advised to monitor WLW and/or WSM to enhance reliability. This is not mandatory and does not count towards a monitoring assignment.
6. It is highly recommended that stations monitor their assigned KET channel off the air. Monitoring through the cable TV system or streaming is not advisable.
