Global Community

Members in over 40 countries!

Education

MESA's **Global Education Program (GEP)** provides the most modern education available covering topics across Smart Manufacturing, including MES/MOM and more! Choose from online courses, onsite certificate programs or host an in-house program with your employees or supply chain. All GEP options are an easy method to get your team understanding the same baseline knowledge.

Online Library

Over 1000+ downloads of relevant content to help you build and conquer your IT strategies. Choose from peer-reviewed **white papers, case studies, webinars** and more!

Peer Forums

Participate in MESA's **Working Groups** to learn, help create new content, and tackle some of industry's toughest problems. Engage locally with MESA's regionally based **Special Interest Groups** with their focus on networking and hot topics.

Expert Networks

Ask MESA subject matter experts your questions online publicly or anonymously.

Events

MESA hosts live events all over the world including **regional meetings, forums, workshops** and more. Also check out our online events like **webinars** and our **Smart Manufacturing Community Group** meetings.

JOIN THE CONVERSATION. JOIN MESA.

Don't go it alone. Whatever questions you have about IT in manufacturing, we're here to help.
