2024

THE GUIDE TO THE BRITISH ADHESIVES & SEALANTS INDUSTRY

Proud to be a leading innovation service provider of specialty chemicals for the adhesives and sealants industry.

Together, let's create innovative and sustainable formulations.

Azelis has a broad range of raw materials for adhesives and sealants. Whether it's epoxy, PU or acrylic resins, flame retardants, rheology modifiers or additives, when you're ready to discover the exciting opportunities of a partnership built on innovation through formulation, we'd love to talk.

Welcome

Welcome to the 2024 edition of the BASA Member's Handbook, where we aim to provide members and other parties with information about the adhesives and sealants industry in the UK and Ireland.

With over 90 member companies, BASA is the business association for the adhesive and sealants industry in the UK and Ireland.

In this Handbook you will find information about each member company and an overview of the work of the association. A comprehensive 'where to buy' Directory for adhesives, sealants, raw materials and ancillary products, the industry's Trade Names, Technical Standards, plus useful guidance documents and further valuable information, can be found on our website at www.basa.uk.com

Together, this handbook and website offers specifiers, users and members of the association virtually everything they need to know about the industry and its products.

In 2023 we posted over 1,400 documents to the members area of the BASA website.

The Secretariat, Consultants and Technical Working Groups responded to over **700 issues**;

- EU initiated (7%)
- UK/BASA (45%)
- CPA/Construction (25%)
- FEICA (14%)
- BSI/other (9%)

Who are BASA

BASA is an unincorporated Trade Association formed in 1983 from the marriage of two long established associations, the British Adhesives Manufacturers Association and the Sealant Manufacturers Conference.

Set up to act as the voice for the industry, BASA supports its members by representing and promoting the industry, offering guidance on technical and compliance issues, organising networking opportunities for members, and providing members with support services.

The Association is managed and run on a day-to-day basis by a Secretariat, who work under contract by a voluntary Council of senior industry representatives appointed from current member Companies under the rules of the BASA Constitution.

BASA is an independent National trade body dedicated solely to the interests of the adhesives and sealants industry and we liaise with Government regarding legislation to keep members abreast of UK, EU and International proposals and initiatives.

In addition to promoting the interest of industry, BASA's aim is to raise technical standards to assist members and customers in the

selection of products appropriate for specific applications. To this end BASA works very closely with the British Standards Institute (BSI) to set and monitor high standards.

Undeniability BASA's main strength lies in its technical working parties which evaluate product performance, set industry guidelines, and formulate codes of practice. Information gathered by working groups often provides useful materials for leaflets or papers given to conference.

BASA supports the vision of FEICA, the Association of the European Adhesive & Sealant Industry, that the adhesive and sealant industry is committed to enabling a growing population to live a better life and to use the planet's resources responsibly and efficiently.

In light of the transition to a circular economy, BASA supports efforts

to improve product efficiency and circularity to help create a more sustainable society, promoting the concepts of energy saving, material efficiency, reparability, durability and recycling.

We will encourage members to continue developing solutions for energy efficiency, to enable the efficient use of raw materials and to continue to safeguard the environment and people's health.

Events in 2024

See events page on BASA website www.basa.uk.com for more details and booking info.

June 19th

BASA Sports Day, Hawkstone Park and West Midlands Shooting Ground

June 25th–27th

InstallerSHOW 2023, NEC, Birmingham

September 11th – 13th

FEICA European Adhesive & Sealant Conference and EXPO, Noordwijkerhout, the Netherlands

November 7th

BASA Open Industry Forum, Sketchley Grange Hotel, Hinckley

November 22nd

BASA Awards, East Midlands Conference Centre, Nottingham

Past Chairs

Since the creation of BASA, there have been 20 Chairs of the Association.

Year	Name	Company
1983–1984	George Hutson	National Adhesives & Resins
1985–1986	Max Kochmann	Pafra Ltd
1987–1988	Colin Hall	Ralli Bondite
1989–1990	Harry Werrell	Swift Adhesives
1991–1992	Paul Jones	Industrial Adhesives
1993–1994	Neil MacDonald	Evode Ltd
1995–1996	Mike Ozier	National Starch & Chemical Ltd

Member Benefits

Events and Networking

We run events for members throughout the year including; the AGM, Business Forum & Industry Lunch, Sports Day & a new BASA Awards Night. We also hold free Technical Forums online.

Online Support

Every Friday we run a 30-minute virtual drop-in session to present important regulatory and business information and general guidance for members. These sessions are open for members to ask any questions on any topic.

Affinity Partners

Our affiliation with other associations and companies offers our members access to; CPA guidance notes/ research and the FEICA extranet. We also work closely with BSI, ACA, BCF, ASA, TWI, SAA & TTA.

Member Offers

Offers from OAMPS Hazardous Industries, 4Ward Testing Services, Equals Money Currency Exchange Services & Wallace Hind Recruitment. Discount on ReachReady Gold Membership, FEICA conferences and key market reports with free attendance at selected FEICA seminars.

Trade Association Directory

Membership profile in the BASA Handbook, distributed at CHEMUK and promoted on our socials, as well as an online directory on the BASA website. Online bulletin where you can publish your company news.

HR, Legal, Health & Safety, Tax & Vat

Access to five business advice lines and over 750 free downloadable business documents from our partner Quest included in your membership fee. Plus a free, no obligation, One 2 One review with a Quest Business Manager for every member.

Technical Overview

Jim Palmer,
BASA Technical Officer

The anticipated regulatory challenges we face this year are still not as transparent as we all would like. The combined confusion created by the delayed UK REACH legislation, the remaking of the UK version of the Construction Products Regulation, following the Building Safety Bill receiving Royal assent, and the Retained EU Legislation Bill, enacted on 29th June 2023, which removed a number of the European Regulations from our statute books at the end of 2023. Plus, the new procedures within the HSE to deal with the GB Classification Labelling and Packaging rules and the updating of the GB Mandatory Classification List, all make our lives difficult. Meantime the EU machine rolls on and we are beginning to see divergence, between our legislation and Europe. BASA will, of course, aim to provide the appropriate guidance and timely advice to assist members in weaving their way through this maize, via a variety of routes.

On the BASA website, we have issued and kept updated many guidance documents to help members navigate the pitfalls whether they are supplying single or multiple markets in GB, UK, EU or worldwide. These guides have been collated on our website into a BASA Issues Map: www.basa.uk.com/WorkingGroups/

[ArticleDetails?articleId=1835](#), which is the leaping off point to find the guidance to assist members with their specific issues.

During the pandemic, which is thankfully behind us, we all engaged in new ways of working with virtual online meetings becoming the norm as the software platforms developed. One BASA initiative during this time was the instigation of weekly half hour 'clinic' sessions each Friday morning. These sessions will continue throughout 2024 and for the foreseeable future. They are open to all members to join, and the BASA consultants are available to answer any questions (or to undertake to seek the answers) for everyone's benefit. Some sessions are open for any topic, and some are themed, though there is always an opportunity to raise any relevant issue each week.

We have also invited a number of industry and government experts as guest presenters on a variety of matters and will continue to do this to add value to the membership. All the sessions are recorded and are available for review on the website: www.basa.uk.com/WorkingGroups/Group/16, where you will also find the list of upcoming sessions.

Environmental and Sustainability issues are a focus both in the UK and EU and BASA has a dedicated working group covering this very broad subject area. In this working group, and all the other working groups, for that matter, we continue to monitor and contribute to the relevant EU

developments in the FEICA groups as well as focusing on the UK changes. Of particular relevance in the UK E&S area are the Extended Producer Responsibility (EPR) proposals, following on from the recently introduced Plastics Packaging Tax, and the initiatives to reduce carbon dependency also known as Net – Zero.

We are very fortunate to have a wealth of experience and expertise within the technical community of BASA working hard to interpret the implications for our industry of the various scenarios as they develop, often in advance of their implementation, and to communicate them both to members and back to our government.

Taking part in the BASA working groups is an excellent way to keep up with the latest developments and I would encourage anyone to think about volunteering. As these meetings are all virtual the time commitment is a matter of personal choice, and can be minimal, but those who participate more fully find it a great contribution to their own personal development, as well as keeping up to date with and influencing the development of each topic. Please do explore the members area of the BASA website to see what appeals. Of course, face to face meetings are vitally necessary to develop the working relationships between us and we plan to hold at least one Open Industry Forum meeting each year to enable the working group members to engage in person.

In addition we have the following virtual project task groups;

BASA PU Platform – dealing with the diisocyanate restriction.

Poison Centres Task Group – dealing with the European Poison Centres requirements.

Polymers Task Force – dealing with Polymers under EU and UK REACH.

CPR Task Force – dealing with the construction products legislation in the UK and EU.

Product Packaging Task Force – a new TF to look at the future of packaging of adhesives and sealants in the context of EPR and the plastics tax regimes in the UK and EU.

★ All members listed as registered on the BASA website on 1st May 2024.

European Model Environmental Product Declarations (Model EPDs)

European Model EPDs demonstrate the environmental credentials of adhesives and sealants in construction

Sustainable development is of great significance in the construction industry. Increasingly, architects and green procurement bodies are demanding products that meet international sustainability standards. FEICA's position on the Construction Products Regulation can be read on the FEICA and BASA website. The review of the Construction Products Regulation (EU) No. 305/2011) included the requirement for sustainability, and Belgium and France have national legislation requiring Environmental Product Declarations (EPDs) for construction products with an environmental claim.

From 2016 to 2022, FEICA offered Model Environmental Product Declarations (Model EPDs), which could be used by construction products manufacturers to prove the environmental impact of their products. Therefore, the choice of adhesive and sealant products available to architects and green procurement bodies was significantly increased.

The expansion of the range of

products with Model EPDs gives SMEs improved access to a market that is otherwise available only to some and leads to significant cost and time savings for companies.

As Model EPDs are valid only for a maximum of 6 years, the 2016 versions were updated in 2022. FEICA, Industrieverband Klebstoffe (IVK), the European Federation for Construction Chemicals (EFCC) and Deutsche Bauchemie e.V. (DBC) undertook a joint project to revise and extend the Model EPDs, as well as to extend the scope for additional substances and formulations.

The European Model EPDs are available to FEICA Direct Company Members (DCMs), Affiliate Company Members (ACMs) and FEICA National Association Members (NAMs). They are valid across the whole of Europe (not limited to the EU). Turkey, is not included.

Published EPDs:

- Products based on POLYURETHANE (PU) or SILANE-modified polymer, group 1 to 4 (4 EPDs)
- Products based on POLYURETHANE, group 5 to 6 (2 EPDs)
- Dispersion-based products, group 1 to 4 (4 EPDs)
- SILICONE based products - group 1 to 3 (3 EPDs)
- Products based on EPOXY-resin, group 1 to 5 (5 EPDs)
- Modified mineral MORTARS, group 1 to 3 (3 EPDs)

[Download the Model EPDs on the FEICA website.](#)

BASA

MEMBER BENEFIT

The core EPD may be used by BASA members provided it has been proven that the respective product can be represented by this particular EPD.

FEICA has a guideline and a excel based calculation sheet available for BASA Members. This guideline, together with a template for a declaration of compliance, is available by clicking on the '[Request guideline](#)' link on their website.

Only authorised FEICA member companies (and members of FEICA National Associations like BASA) may use the guideline and the substance list to check the formulation and select an appropriate Model EPD.

Alliance of Chemical Associations

Lorna Williams, BASA CEO is the Secretary of the ACA. ACA consists of trade associations representing companies operating in many sectors of the chemical industry supply chain, from the manufacture and the distribution of chemicals to their use for products such as plastics, paint and cosmetics.

Other UK Association Partners

The other UK associations that BASA work with include:

THE TILE ASSOCIATION
EXCELLENCE IN TILING

International Associations

The other associations within the industry across the globe include:

Membership is available for:

Adhesives and Sealants Manufacturing and Supplier Membership

Companies actively engaged in the formulation and manufacture or distribution of adhesives and/or sealants for sale in the UK and Ireland.

Raw Material Manufacturing and Supplier Membership

Companies supplying raw materials to the British adhesives and/or sealants industry.

Associate Membership

Associate membership is available for members whose business is not directly related to the supply of raw materials or adhesives and sealants.

Consultancy Membership

Consultants can apply for membership if their business is relevant for the sector.

Visit the BASA website for more information: www.basa.uk.com/home/membership

BRITISH ADHESIVES & SEALANTS ASSOCIATION

4ward Testing Ltd

Address: 5 Hampers Common
Industrial Estate, Petworth,
West Sussex, GU28 9NR
Telephone: 01798 342240

4Ward Testing is a UKAS Accredited Testing Laboratory No 0307, operating to ISO 17025:2017 Quality System. We are a Approved Body Laboratory (System 3) No: 2538 for testing to BS EN 15651 Parts 1–4 (latest edition) Sealants for non-structural joints in Buildings and Pedestrian walkways.

We test to National and International Standards, including: BS, ASTM, SS, DIN, ISO, EN, MIL, IEC and other bespoke product specific methods. 4Ward Testing offers a range of testing services including destructive and non-destructive material testing, as well as environmental ageing.

We specialise in testing Construction (Sealants, Adhesives, Waterproof Membranes and Rubber etc.) Automotive, Aerospace, Marine products and materials.

Ace Adhesives Limited

Address: Shenstone Drive,
Northgate, Aldridge, Walsall,
West Midlands, WS9 8T

Telephone: 01922 459393

With three UK sites – and customers from Cornwall to Inverness – Ace Adhesives is a well established and well respected industrial glue supplier to UK industry. Ace became part of the Gluecom Group in 2005. With sites in Belgium, France, Poland and the UK Gluecom manufactures PVA dispersions, Hotmelt Adhesives, Starch Adhesives and Jelly Glues.

Ace Adhesives specialises in industrial adhesives for all paper, board and timber applications including: books, brochures & magazines; cardboard cores & tissue paper; corrugated cases; paper bags; folding cartons & trays; litho laminated cartons & cases; lever arch files & ring binders; presentation boxes; worktops; panels, doors; beds & sofas.

Our aim is to build upon the excellent reputation we have as a adhesive manufacturer and supplier , without ever losing sight of what has made us so successful, which is our commitment to provide our clients with quality industrial adhesive products, excellent service and support. For further information please feel free to contact us and an experienced member of staff will be happy to help you.

Action Adhesives

Address: Corkeeran, Ballybay,
Co Monaghan, A75 W862, IE
Telephone: +353871 446783

Action Adhesives is a leading distributor supplier of Industrial adhesives, glues, sealants and tapes within Ireland & the UK.

Action Adhesives was established in 1997. Over the past 20 years the business has grown and developed. Today the group includes Hot Melt Equipment Ireland and McConnells Coatings, whose office is in Kilteran in Dublin. Action Adhesives has been at the forefront of the industrial adhesives technology. Our comprehensive product range covers a variety of bonding applications. From locking and sealing to advanced structural bonding technology.

Our technical service is flexible and dedicated, producing original concepts. We have over 20 years experience in bonding. Our strength is in the quality of our products and service. We understand that the customer comes first.

AdCo (UK) Ltd

Address: 43-45 Passfield
Business Centre,
Lynchborough Road, Passfield,
Liphook, Hampshire, GU30 7SB
Telephone: 01428 751755

AdCo (UK) Limited is a specialist adhesive company supplying a range of highly technical based adhesives, allied products and application equipment to a wide variety of markets including:

- Packaging · Furniture & Joinery · Printing & Bookbinding · Education · Arts & Crafts
- Building & Construction · Product Assembly · Electronics.

AdCo has its own range of products and also offer the full range of speciality adhesives and sealants from international manufacturers, all of which have a comprehensive range that compliment each other. AdCo are official UK distributors for the full range of adhesives from AkzoNobel of Sweden, for veneering, laminating and structural timber bonding. With these product ranges behind us AdCo are able to offer a range of adhesives and allied products that are the envy of many adhesive companies. With our knowledge of adhesives and application techniques we offer a 'find & supply' service to all, thus ensuring that any bonding problem can be solved.

In 2017 AdCo acquired the manufacturing, sales and distribution rights to the full range of speciality binding and printing adhesives, including Rioflex fan-a-part padding adhesive for NCR papers, previously manufactured by Howarine Calvert Ltd.

AdCo – The Professional's Choice.

Adshead Ratcliffe & Co Ltd

Address: Derby Road, Belper,
Derbyshire, DE56 1WJ

Telephone: 01773 826661

Adshead Ratcliffe & Co Ltd (ARBO Sealants) is a major UK manufacturer whose ARBO brand sealants and adhesives are widely specified in the construction, glazing, engineering, automotive, fire protection industries and many others. With our own manufacturing, laboratories and technical services department, we are able to offer a full architectural sealant specification and technical back-up which includes our unique Arbomaster Warranty Scheme. If you require own label product manufacturing to your own formulation or to develop a product for your end application, we are here to help. Our Arbo Facades Solutions Division is able to offer facade system designers and installers a range of EPDM Membrane, VOC free adhesives and other ancillary items to meet the challenging requirements of current building regulations.

ARBO® – part of CARLISLE® CM Europe.

In 2017, Adshead Ratcliffe & Co Ltd became part of CARLISLE® CM Europe following the acquisition by the US Group CARLISLE® Companies Incorporated. The CARLISLE® CM Europe group is Europe's leading waterproofing and sealing solutions provider for roofs, facades and buildings. The umbrella brand CARLISLE® CM Europe unites the trusted brands.

Advanced Adhesives Ltd

Address: Architectural House,
Plummer Street, Newcastle,
Tyne & Wear, NE4 7AB
Telephone: 01912 722982

Advanced Adhesives was founded in 1996. From a humble start up, it has grown into a thriving company which has grown 20% year on year for the last 8 years. This has allowed the business to make the necessary investments in buildings, staff and equipment to "right size" the business for the business which it will become over the next five years and beyond. We are a medium size company with very large aspirations. We have expert adhesives, advice and testing facilities to rival the big boys. Our size allows a higher degree of flexibility, offering you shorter lead times, better communication, and an ability to rapidly develop solid solutions, no matter the order quantity. We have achieved this rapid growth by significant reinvestment in automation, which has helped us to reduce costs for end users. The in house testing facilities ensure stronger and safer products, and we recently moved to a 1000Sqm facility to keep up with increasing demand, building a brand new production facility in the process.

Supplying industry sectors of : Automotive, Marine, Electronics, Aerospace, Commercial Signage, White goods manufacturing, Construction, Power generation, Military and Engineering. Our products range includes Anaerobic, Cyanoacrylate, Hybrid MMA Structural Adhesives, Epoxies, Silicone and Polyurethane technology, U.V. Light Curing Adhesives, Hot Melts, Solvents & Water Borne, and High Performance Tapes.

We are a British owned and operated adhesive company and export worldwide. We hope to build partnerships with our customers and bonds beyond business.

Advatac Limited

Address: Nunn Close,
Huthwaite,
Nottinghamshire,
NG17 2HW

Telephone: 01623 516055

An independent UK manufacturer, supplier and distributor of industrial adhesives, primarily serving a wide range of industries across the UK and Ireland. Our vast range of adhesives includes water based, hot melts, solvent based, reactive PUR's as well as solvent-free polyurethanes and other reactive systems including cyanoacrylates and structural acrylics.

Having a worldwide supply base we are able to liaise with many adhesive manufacturers, raw material suppliers as well as independent technical consultants to OEM's to create a product range that meets the demands of ever changing markets.

As well as our direct sales activities we also work with distributors to enable access to all markets and reach down to all levels of customers, thus offering fast and reliable deliveries as well as local technical support.

AGB ChemicalCompliance

Address: 33 Claremont Road,
Marlow, Buckinghamshire,
SL7 1BH

AGB ChemicalCompliance

Telephone: 07501 404 969

AGB ChemicalCompliance, a consultancy owned by Tony Bingham, offers help with regulatory issues in areas such as:

- REACH compliance (auditing, development of compliance processes, upstream / downstream communication, bespoke in-house training)
- CLP Regulations (safety data sheets, labels, raw materials)
- Food contact regulatory issues
- Sustainable Development Training on regulatory issues
- Competent Authority engagement (e.g. representation/negotiation on your behalf with Government bodies)
- Review and analysis of legislation (including the preparation and submission of comments on public drafts)

We combine a practical hands on approach with a deep understanding of the impact of chemical regulation on the industrial chemicals formulating industry. Tony is a chemical products safety professional with more than 25 years' regulatory experience in blue chip companies such as Unilever and ICI (working for National Starch & Chemical). Tony has excellent interpersonal and communication skills, with an extensive experience of engagement with UK regulatory competent authorities gained whilst representing his business trade associations as well as working within industry groups at CIA and CEFIC.

He has a proven ability to influence the decisions of senior management in order to achieve regulatory compliance. Tony is a Council member of the Chemical Hazards Communication Society (CHCS), a past chair of BASA's Packaging Adhesives WG and FEICA's Hazardous Products WG. He is currently working as a consultant for FEICA on some packaging adhesive issues, as well as for BASA as secretarial support for the Health and Safety, Environment and Packaging Adhesives Working Parties. Tony represents BASA on FEICA's Sustainable Development Committee.

Alpha Adhesives & Sealants Ltd

Address: Llewellyn Close,
Sandy Lane Industrial Estate,
Stourport-on-Severn,
Worcestershire, DY13 9RH
Telephone: 01299 828626

Alpha Adhesives & Sealants Limited was established in 1987, with the aim of providing quality adhesives, sealants and coatings. During the ensuing years Alpha developed its business across a wide customer base to include Automotive, Marine, Construction, Aerospace, Civil Engineering, Military and general industry.

The quality of Alpha products together with the 'Can Do' approach by the highly experienced management and Technical team have been key factors in the company's success in establishing successful partnerships with customers all over the world. Alpha acquired the Dunlop Industrial Adhesives Division in March 2004; origins of which date back to the early 1950's and include brand names such as 'Thixofix'. This manufacturing site was re-located to Worcestershire and full manufacturing to original formulations was taken over by Alpha. The head office, manufacturing plant, warehouse and R & D laboratory are based centrally in a modern facility on the outskirts of Stourport-on-Severn, Worcestershire.

BSI ISO 9001:2015 Accredited Alpha takes pride in carrying out collaborative research and development to meet specific customer requirements.

Alpha products are backed up by experienced in house technical service department. It is through these services together with an extensive product range, that Alpha is able to meet the ever changing needs of its diverse customer base. All ALPHA products are associated with the finest in Adhesive Sealant and coatings technology. If you have an application, we have the technology!

Anglo Adhesives and Services Ltd

Address: Anglo House, The Airfield,
Dalby Road, Melton Mowbray,
Leicestershire, LE13 0BL
Telephone: 01664 480 866

ADHESIVES

Industrial Adhesive manufacturers and Suppliers of Sealants Solvents & Chemicals. Anglo Adhesives, founded in 1905, has for over 100 years supplied industrial adhesives and allied products to all industries

The company specialises in manufacturing bespoke solvent based and water based Adhesives, both own brand and under customers' own label. Anglo supplies to a wide customer base, including: Packaging, point of purchase, sign, automotive stationery, art and craft Education, construction, insulation, leather goods, self adhesive labels and many more.

Anglo's wide range of adhesive and allied products, research & development capability and first-class customer service operations, are at our customers' service to ensure that Anglo will be out in front of its competitors for another 100 years. Anglo offer a comprehensive contract filling and packaging service.

Apollo Chemicals Ltd

Address: Sandy Way,
Amington Industrial Estate,
Tamworth, Staffordshire, B77 4DS
Telephone: 01827 54281

More than adhesives

Apollo is a liquid adhesive, sealant, coating & primer manufacturer. We supply high-performance products worldwide across a range of industrial, construction, roofing and end-user markets. Supply is direct and via distributors, under Apollo and private-label brands. Established in 1972 in Tamworth, Apollo's vision is to become the unseen coating, adhesive and primer department of our customers' businesses. Our vision is in sync with building long-term partnerships by adding value and building trust. At Apollo, we have great people who are passionate about solving customer problems. We strive to add value across our entire supply chain, which is communicated via our brand promise 'More than adhesives'.

In January 2022, Apollo became part of the global and well-respected adhesive manufacturer, H.B. Fuller. Since 1887, H.B. Fuller has been a leading global adhesives provider focusing on perfecting adhesives, sealants and other specialty chemical products to improve products and lives.

Moving forward, the change of ownership opens up access to further resource, technology and expertise to further enhance product offering and service to customers. We are excited about utilising such assets and collaborating with our customers to help them to develop and grow in their markets. Being part of a global company also gives our customers further reassurance regarding continuity of supply. We now excitedly look to the future together.

ARDEX UK Limited

Address: Homefield Road,
Haverhill, Suffolk, CB9 8QP
Telephone: 01440 714939

For more than 60 years, ARDEX has been a quality leader for the flooring and tiling industries, the brand of choice for installers and distributors. ARDEX today is still an independent family-owned business. This means that in our permanent efforts to achieve market-shaping innovations, we have been able to retain our most important tradition: uncompromising quality. This is something we guarantee by applying the latest rigidly enforced quality assurance procedures, making it no coincidence that ARDEX is regarded as a premium partner of the construction industry.

Strong internal growth and intelligent acquisitions in foreign markets have put the ARDEX Group on the map with 53 subsidiaries and 3,000 employees on all continents. With its 14 major brands, the ARDEX Group generated a worldwide annual turnover in excess of 770 million euros in 2018. This marks an important milestone for ARDEX in becoming one of the world's leading suppliers of high-quality specialist building materials.

As a longstanding partner to the trade, we know the practical requirements first hand. Our vast experience of materials and working methods, coupled with constant dialogue with our customers in the skilled trades, are our most important source of inspiration. We draw on this to develop product systems that command respect in the marketplace by meeting professionals needs. Our systems are optimally matched and extremely cost-effective thanks to their ease of use and high coverage.

Azelis UK Ltd

Address: Axis House, Tudor Road,
Manor Park, Runcorn, Cheshire, WA7 1BD
Telephone: 01992 825555

Azelis does much more than move goods. We move markets forward. Breaking new ground in our technical laboratories by combining ingredients with ideas and creating opportunities through innovation. Leveraging seven renowned local and regional brands provides us with a unique go-to market strategy. All of our brands are the best in class distributors in their respective market and offer the highest quality products and technologies supported with application labs and technical service.

Azelis UK & Ireland was created through a combination of 4 major acquisitions. Particularly in the UK, in 2002 we acquired Chance & Hunt Ltd which was established in the distribution of industrial and performance chemicals across market sectors including coatings, agrochemicals, water treatment and animal nutrition. In 2008 we then acquired S Black Ltd expanding our business into the Life Sciences sector, including Personal Care, Pharma and Food. In 2011, Azelis acquired S&D UK Group which strengthened our position in food and pharma.

In 2022 Azelis UK expanded into the industrial chemicals business with the acquisition of 100% of the shares of WhitChem, a well-regarded distributor focused on CASE (coatings, adhesives, sealants and elastomers) and R&PA (rubber & plastic additives) in the UK. This acquisition reinforces Azelis' position in industrial chemicals, and specifically in the CASE and R&PA market segments in the UK.

In the UK you can rely on teams of market focused, technical trained sales and marketing staff. We have 4 laboratories catering to Personal Care, Homecare & Industrial Cleaning, Food & Nutrition and Pharma & Health, and we work with customers and principals to develop formulations for their applications. Our network of warehouses across the UK is geared to providing first class service to our customers.

www.azelis.com

BASF plc

Address: 4th & 5th Floors,
2 Stockport Exchange, Railway Road,
Stockport, SK1 3GG
Telephone: 0161 488 5223

BASF are the world's leading chemical company, combining economic success with commitment to environmental protection and social responsibility. Through science and innovation, we enable our customers in nearly every industry to meet the current and future needs of society. Our portfolio ranges from chemicals, plastics, performance products and crop protection products to oil and gas. The range of raw materials offered by BASF for Adhesives & Sealants includes aqueous polymer dispersions and adhesive additives that have been optimized to suit a variety of applications. Our products are used especially in packaging, transportation, furniture and labels.

We offer Adhesive Raw Materials for Industrial Adhesives in the following fields of application: packaging adhesives – especially for peel & seal envelope closures and labelling of plastic bottles, lamination adhesives – especially for glossy film overprint lamination and film/film composites, and lamination adhesives for the interior car trim, furniture foil and the shoe industry. In addition we have some special products to improve the adhesion of packaging adhesives on difficult surfaces.

Our Construction product range is equally versatile. The main applications for our range of components are Ceramic tile adhesives, Flooring adhesives, Sealants, Flexible roof coating, Water proofing membranes, Primers, Mortar modification and concrete repair systems for example concrete plasticizers.

BASF use BTC to distribute their portfolio of Adhesive Raw Materials in Europe. BTC Europe is BASF's pan-European distribution organization for small and medium-sized customers. BTC offer the full range of BASF products for the Adhesives & Sealants industry and are also able to offer complimentary products, such as Rheovis® Rheology modifiers, Dispex® Dispersants, Tinuvin® light stabilisers, Irganox® anti-oxidants and the versatile Oppanol® and Glissopal® polyisobutenes (PIB)

Beardow Adams

Address: 32 Blundells Road,
Bradville, Milton Keynes,
Buckinghamshire, MK13 7HF
Telephone: 01908 574000

Beardow Adams is a world-leading adhesive company. We pride ourselves on meeting tough challenges with high-performance products that customers can rely on.

Since 1977, we've gained a reputation for developing quality assured adhesives and built our success upon a commitment to innovation and truly exceptional service. Today, our adhesives are trusted by more than 10,000 respected companies across a variety of applications in packaging, labelling, woodworking, product assembly, bookbinding and converting industry applications.

We're extremely proud to be regarded as a proactive adhesive manufacturer. Our global production facilities are equipped with the very latest technology and our home to our pioneering BAMFutura® product range. Combined with unrivalled expertise, this gives us the unique ability to develop and manufacture ground-breaking products. These products continually extend existing capabilities to enhance our customers' working environments, improve their production efficiencies and reduce costs.

As of 2023, Beardow Adams is proud to be part of the H.B. Fuller group. For 130 years, H.B. Fuller has been a leading global adhesives manufacturer, focusing on perfecting adhesives to improve customer products and lives. Being part of such a respected group will allow Beardow Adams to enhance its investment in innovative products and offer improved continuity of supply by being part of a globally diverse supply chain.

Camida also offers a highly effective chemical sourcing service with over 30 years' experience in global supply with over 300 suppliers in more than 25 countries and are uniquely equipped to meet Industry's raw material needs.

Vendor reduction programmes are also part of Camida's portfolio. These programmes include many additional customer benefits and can be customised to meet the specific needs of customers.

Cargill Bioindustrial

Address: Velocity V1 Brooklands Drive,
Weybridge, Surrey, KT13 OSL

Smart Materials, part of Cargill Bioindustrial – Performance Technologies, formerly part of Croda, is a global supplier of high performance bio-based building blocks, functional ingredients, and polymer additives.

The Smart Materials business provides environmentally friendly and innovative solutions based on carefully selected raw materials.

Our ingredients support our customers in developing safer, lighter, miniaturised, durable, multifunctional and affordable solutions. All this whilst offering a pathway to low carbon solutions.

We combine technology platforms to create market driven innovations that help our customers to meet today's needs and be prepared for the future.

The combination of innovation for high tech fast changing markets, security of supply and technical applications support is why we like to work in partnership with key stakeholders in our focus markets.

Some key ingredients for the adhesives industry are: Priplast™ bio-based polyester polyols for use in polyurethane adhesives, Priamine™ dimer diamines and Pripol™ dimer diols for polyamide adhesives.

Our B-Tough toughening agents can be used in epoxy adhesives, and our polymer additives provide anti-block and anti-dust effects.

Caroline Raine Chemical Consultancy

Chemique Adhesives and Sealants Ltd

Address: Empire Close, Aldridge,
West Midlands, WS9 8UR
Telephone: 01922 459321

Established in 1985, Chemique Adhesives has become a pioneer in the development of industry-leading adhesives and sealants, while also providing first class service and support to its growing customer base. The experience and dedication to the development of new and innovative products has gained Chemique Adhesives an appreciation for its ability to supply a comprehensive range of products to a variety of industries including aerospace, automotive, commercial manufacturing, composites, construction, foam, furniture, marine, transportation and more.

Products offered include: solvent free polyurethanes, water based adhesives, hot melts, cyanoacrylates, solvent borne and epoxies. The company's manufacturing and service procedures comply with ISO 9001 quality standards, providing peace of mind that all of our adhesives consistently meet exact technical specifications. While the chemists work on innovative adhesives, Chemique Adhesive's engineers focus on application methods, enabling the company to offer customers a unique 'Total Service Package' of adhesives, application equipment, service and support.

C-Tec NI Ltd

Address: Unit 6 Ashtree Enterprise Park,
Newry, N. Ireland, BT34 1BY

Telephone: 02830 834892

C-TEC NI Ltd are leaders in the Sealant & Construction Adhesive Industry specialising in the design, development and manufacturing of high quality and exclusive problem-solving products for the construction and maintenance sectors. The company was the first to bring a Hybrid Polymer to market 20 years ago and has since proudly introduced the revolutionary and environmentally complaint CT1 TRIBRID® Sealant and Adhesive technology with explosive results.

Leaders in research and development C-TEC continues to introduce new, unique, quality products, based on the latest technical development, with the objective of not only saving customer's time and labour but simultaneously delivering technological and environmental improvements that provide huge performance and financial benefits for customers. All products within the C-TEC range are proudly Made in Britain using British Design and British Technology. Now, C-TEC is leading the market once more with the introduction of its new Eco-Compliant Cartridges. This game changing packaging technology is manufactured from 80% recycled content and is 100% recyclable after use.

C-TEC currently manufactures and supplies the following range of sealant and adhesive products including:

- CT1 – A unique TRIBRID® Technology polymer sealant and construction adhesive with superior strength adhesion and sealing on virtually any material in most applications.
- BT1 – A unique anti-bacteria TRIBRID® Technology Sealant and Construction Adhesive upon which bacteria/microbes cannot survive.
- Power Grab 'n' Bond – The revolutionary development in heavy duty vertical bonding with an exceptionally high initial grab.
- Superfast Plus – A one component adhesive which does not contain solvent and bonds in seconds and due to its special formula consisting mainly of Ethyl Cyanacrylate Monomer.

Fix-A-Floor UK

Address: 79 Blackford Road,
Shirley, Solihull,
West Midlands, B90 4DA
Telephone: 01212 708883

Fix-A-Floor[®]

Fix-A-Floor is an Extra Strength Bonding Adhesive customised for the specific use of Re-Bonding loose and hollow tile, marble, stone & squeaky wood floors without the headache and mess of removing or replacing them. Sold in the UK since 2014 Fix-A-Floor UK is the market leader in its floor repair adhesive which is now available in over 50 countries worldwide.

The key to the product's effectiveness is its combination of a very powerful and flexible adhesive with elastomeric properties, combined with an extremely low viscosity prior to curing. This means that it will flow under a tile completely filling the void underneath it and ensuring an end to wobbly and loose tiles – which are obviously more prone to breaking, if not fixed down quickly. Fix-A-Floor is Strong & Flexible and cures with elastomeric bonding properties which can eliminate any future problems due to foundation settlement, expansion & contraction of the sub floor as well as poor original installation.

Fix-A-Floor are proud members of trade body The Tile Association and have been recognised at the Annual TTA awards with Best Innovation product of 2023! – We pride ourselves in exceptional customer service and engagement with customers and are extremely passionate about our product and in providing exceptional customer service and after-sales support.

Fosroc International Limited

Address: Drayton Manor Business Park,
Coleshill Road, Tamworth, Staffordshire,
B78 3XN

Telephone: 01827 262222

Fosroc is an international leader in construction chemicals supplying many projects across a broad range of sectors including commercial, industrial, residential, marine and infrastructure. The product range includes sealants, waterproofing products, grouts, repair mortars, flooring products, coatings and concrete admixtures.

All Fosroc products meet international specifications and have been used on some of the largest and most prestigious projects in the UK and overseas. Our sealants utilise all major polymer technologies, including polysulphide, modified, silane, polyurethane, epoxy and hot applied materials, making them suitable for most building and civil engineering needs.

Fosroc sealants range from chemical resistant to intumescent and are used in a wide variety of applications, including sewage treatment works, highways, runways, factory floors, stadia and building facades.

Supported by an experienced technical helpline and first-class customer service, Fosroc is able to work with customers to provide a complete solution, whatever the project.

Fsi Limited

Address: Westminster Industrial Estate,
Tamworth Road, Measham,
Leicestershire, DE12 7DS
Telephone: 01530 515130

FSi are the largest manufacturer of passive fire protection products in the UK and we are proud to be part of the Etex group – the UK's leading source of drywall, steel framing and fire protection solutions. FSi manufactures and develop a complete range of market leading compartmentation systems (Fire Rated intumescent acrylic sealant, Fire Rated silicone, Graphite sealant, Ablative coating, FR pipe collars, FR Compound, Batts etc...) suitable for applications all over the world.

Alongside this we have a comprehensive range of test data backing up these innovative products. These systems are primarily used to prevent or slow down the passage of elements, such as fire, air, sound, movement and water. We pride ourselves on the high level of testing and technical expertise that has been built up through years of experience within the industry, from site hand to dealing with large Multi-National conglomerates, this either under our brand or private label. This allows us to supply product both in the UK (BS Regulation) throughout Europe (EN Regulation) and Worldwide (EN and UL Regulation). All of our main products are 3rd party certified. We also offer a complete range of systems which are CE Marked, showing that our quality can be measured. We are here to help and make sure the correct solution is specified correctly the first time to ensure budgets, timescales and required specifications are kept to.

Furthermore, alongside our market leading Fire Rated products, we manufacture as well a range of technical sealant (neutral cure silicone, acrylics etc) for application in the construction industry.

Global Asphalt Limited

Address: 14 Gloucester Road,
Kensington, London, SW7 4RB

Telephone: 07831 612 660

Global Asphalt a new company set up specifically for the representation of Lake Asphalt products in the UK/Europe/Scandinavia.

This business plan outlines our strategy to represent TLA/ Lasco Products, sourced from Lake asphalt Trinidad and Tobago and introduce them to builders merchants and hardware stores in the UK and Europe.

Lasco Products offers high-quality asphalt-based solutions with a proven track record, and our aim is to establish a strong presence in the international market.

Gorilla Glue Europe Ltd

Address: 26 Eaton Avenue,
Matrix Park, Buckshaw Village,
Chorley, Lancashire, PR7 7NA
Telephone: 08435 071200

Gorilla Glue Europe is part of The Gorilla Glue Company based in Cincinnati, Ohio. Gorilla as a brand has been available in the UK and Europe for over 10 years, with Gorilla Glue® itself sold in the USA for over two decades.

The glue was first discovered being used in Indonesia on teak furniture, but consumers soon found it to be incredibly versatile and demand soared. On a mission to make products that deliver impressive results, the company has since expanded its offerings to include Gorilla Tape®, Gorilla® Super Glue, Gorilla® Grab Adhesive, and other premium tapes, sealants, and adhesives.

At Gorilla, we believe in high-quality products and choose to only put the Gorilla logo on products that meet rigorous development standards.

In addition to great products, we strive to be a great company for our employees. The Gorilla Glue Company is family-owned and operated and prides itself on its family atmosphere and fun-but-serious products. Our employees are our number one asset, and our company is dedicated to providing a healthy work culture centered on family values.

Grolman Ltd

Address: Detmar House,
19 Beacon Business Park,
Norman Way, Portskewett,
Gwent, NP26 5PY

Telephone: 01291 625236

Grolman

International Distribution

The Grolman Group operates an international specialty chemical ingredients distribution business. It is composed of individual local sales offices based in all European countries, Turkey, Maghreb, Egypt, India and China, each supported by technically trained sales staff, customer service teams and local warehousing.

The Grolman Group, run by the fifth generation of the Grolman family, has been privately owned since it was established in 1855. The key to its success has been the dedication and commitment to building an efficient customer-focused organization where customers' needs are an essential driving force.

Distributor of speciality chemicals – binders, fillers, pigments and additives servicing the UK sectors for adhesives, sealants, construction, paints & coatings, inks, textiles, plastics masterbatch & compounding and thermoset composites sectors.

Henkel Ltd

Address: Wood Lane End,
Hemel Hempstead,
Hertfordshire, HP2 4RQ
Telephone: 01442 278000

Henkel Ltd Consumer Adhesives are the UK & Ireland's leading manufacturer of consumer adhesives, sealants and decorating sundry products; stationery adhesives and self-adhesive tapes. Brands such as Solvite, Pritt, UniBond, Nitromors, Sellotape, Loctite, Copydex and Gloy are all market leaders supplied to consumer and craftsman's markets. Henkel Ltd. Consumer Adhesive products are produced in a purpose built plant in Winsford, Cheshire, which, in terms of manufacturing and logistics, is one of the most sophisticated of its kind in Europe. In-depth technical resources and the advanced production, planning and distribution techniques employed have resulted in a vast range of high quality, high performance products, and a level of service achieved in partnership with our customers, which is without a doubt second to none.

As the largest adhesive manufacturer in the world, the Henkel Group continues to invest heavily in research and development activities which provide the quality products required to meet ever-changing market requirements. In addition, these activities are closely linked with the environmental aspects of the product and its end use. Significant investment in state of the art manufacturing facilities ensures consistent adhesive performance. Henkel manufactures technically advanced products to the highest quality standards and provides the service that industry demands. We pride ourselves on our speed and quality of response to customers' technical needs. With the resources associated with an international company and with strong European market connections, Henkel can meet the various requirements of the automotive, bookbinding, cigarette, construction, electronics, envelope, labelling, packaging, shoe and building, furniture and woodworking industries, as well as the general industry and non-woven sectors. Henkel aim to be a source for most, if not all of its customers' requirements and this is achieved by having access to diverse adhesive technologies, thus providing the best solutions to our customers.

Hodgson Sealants Ltd

Address: Belprin Road,
Beverley, East Yorkshire,
HU17 0LN

Telephone: 01482 868321

Hodgson Sealants are the largest independent sealant manufacturer in the UK. We're a family-run business based in Yorkshire and we've been growing for over 50 years. We're proud to be leading the way in sealant manufacturing in the UK, with our own in-house R&D facility. Our products are supplied across the globe.

Celebrating our 50th Anniversary in 2018 we demonstrate a track record of supplying high performance products to building, transportation and consumer markets for over half a century. As a UK based manufacturer we are well placed to provide customers with the option of own label products as well as the Hodgson brand and have the ability to develop solutions tailored to our customers specific needs.

Our manufacturing capabilities range from silicone and hybrid sealants/adhesives through to acrylics, butyl based sealants and even putties. We aim to be the first choice for anyone wanting to buy trusted quality products from a long established UK manufacturer.

In 2022 Hodgson Sealants Group Ltd, the parent company of Hodgson Sealants Ltd, acquired independent private label sealant manufacturer Britchem Ltd.

IMCD UK LTD

Address: Times House,
Throwley Way, Sutton,
Surrey, SM1 4AF
Telephone: 02087 707090

IMCD offers speciality raw materials that drive performance, innovation and sustainability. For our customers, product performance and meeting market needs are top priorities. This is why we work with some of the world's leading brands to offer a diverse and innovative portfolio of chemical raw materials. Our skilled team of product, technical and sales experts work to anticipate future needs and use their innovative thinking to drive formulation evolution. Combining the know-how of our people with the best-in-class raw materials of our principal supplier is what allows IMCD to provide you with the best solution.

For the adhesives market we are offering raw materials that enable customers to get the most out of formulations, whether these are hot melt, solvent-based, water-based, reactive or sealants, with a particular focus on sustainable products. Our product offering includes :

- Additives (adhesion promoters, antifoams, biocides, catalysts, coalescing agents, crosslinkers, dispersants, inhibitors, moisture scavengers, polyols, rheology modifiers, surfactants, wetting agents)
- Functional Fillers (fibres, flame retarders, fumed silica, glass beads, impact modifiers, talc)
- Intermediates (gamma butyrolactone, NEP, NMP)
- Monomers
- Pigments
- Plasticisers (adipate esters, benzoate esters, chlorinated paraffin, DINCH, DINP, DPG, DOA, DOM, DOTP, glycerine, triacetin, TEG, TOTM)
- Polymers (acrylics, APAO, EVA, polyurethanes, PIB, PVA, PVOH, VAE, styrene acrylics, TPU)
- Solvents (acetone, benzyl alcohol, BDG, citrus terpenes, cyclohexanone, DBE, DMF, EDGA, gamma butyrolactone, IPA, MEK, methoxy propyl propanol, methylene chloride, MIAK, MPG, propylene carbonate, Rhodiasolv RDPE, THF, toluene, xylene)
- Tackifier Resins (C5, C9, H2 HCR, PMR, rosin esters)

Mapei (UK) Ltd

Address: Mapei House,
Steel Park Road, Halesowen,
West Midlands, B62 8HD
Telephone: 01215 086970

A family business with 80 years' experience, Mapei is the world's leading manufacturer of adhesives, sealants and chemical products for building. With products spanning 15 product lines, Mapei is a specialist in the production of quality products for the installation of wall and floor coverings, complete waterproofing systems, admixtures, and repair products for concrete alongside adhesives and sealants.

Mapei also offers a free, expert specification service providing tailored advice for every project, recommending materials and workmanship required along with current technical assistance. Manufactured in state of the art facilities in Halesowen West Midlands.

Mapei's second site in the UK, the new 3200 m² facility in Speke opened in April 2024, provides a UK manufacturing facility for Mapei admixtures, along with a warehousing facility, research and development laboratories and offices. Products manufactured at the new site will include admixtures from Mapei's Dynamon, Chronos, Vibromix and Idrocrete ranges.

We offer long-lasting high-quality products that are mindful of both the planet and people. We draw on this same expertise to contribute to the most important architectural and infrastructural works globally, including projects in the housing industry and renovation of historic buildings.

Every day we are focused on increasingly sustainable building in the name of innovation.

Newport Industries Ltd

Address: Spencer House,
23 Sheen Road,
Richmond upon Thames,
Surrey, TW9 1BN
Telephone: 02083 322519

Newport Industries Limited is a niche distributor of chemicals for the Coatings and Adhesives industry. The group distributes chemicals globally, with warehouses in several countries, and strategic sourcing offices in Turkey, China and India. Newport is ISO9001 certified, so operates to high standards of service, traceability and responsible care.

Newport offers a wide range of high quality: Resins, Polymers and Additives to Hot-melt, Solvent-based and Water-based Adhesive and Sealant manufacturers.

Expert logistic & supply chain management team; ensuring reliable deliveries on time. Qualified, in-house chemists; providing rapid technical response. Sourcing through our strategic offices; allowing our customers to gain a competitive edge on raw material costs. Quality Control management at country of source; a simple solution to purchasing from China and India.

OAMPS Hazardous Industries

Address: Kings Court,
41–51 Kingston Road,
Leatherhead, Surrey,
KT22 7SL
Telephone: 01372 869762

OAMPS
HAZARDOUS INDUSTRIES

Thanks to over 30 years in the business, providing advice for companies in 'high hazard' industries, we have deep knowledge and expertise of these businesses' insurance needs. Our knowledge and industry insight is fuelled by close working relationships with the leading industry organisations.

We fit insurance to your business rather than trying to fit your business to an insurance product. Every business is unique. At OAMPS, we make it our business to understand yours. We always begin by taking the time to gain an insight into how your business operates and all the risks you may be exposed to. That puts us in the best position to evaluate a wide range of insurance policies from leading insurers then recommend the risk management and insurance plan that best suits you.

We offer a full suite of specialist insurance and risk management products for the fuel, hazardous haulage, chemical and environmental sectors, including:

- Motor
- Property
- Goods in Transit
- Liability
- Business Interruption
- Personal Accident
- Directors & Officers Liability
- Cyber

OAMPS aims to help clients minimise risk through proactive Risk Management, however should you be unfortunate to be involved in an incident we have specialist services to make sure the process is as painless as possible and your business and reputation is protected.

Omya UK Ltd

Address: Melton Office,
Melton Bottom Road, Melton,
North Ferriby, East Yorkshire, HU14 3HU
Telephone: 01482 636900

Omya is a leading supplier of white minerals and chemicals around the world. Omya UK is part of Omya Group, multi-national based in Switzerland. Omya is a world leader in the manufacture of fillers and pigments derived from calcium carbonate.

Omya is also a major chemical distributor supplying the UK market with an extensive range of industrial raw materials and chemicals alongside its white mineral products.

In addition the Company also manufactures elastomer-bound rubber chemicals and calcium oxide desiccants, as well as offering a range of customised services including powder blending, pre-weighing, sachet packing, repacking and dust suppression.

Omya has over 11 locations in the UK with some 230 employees and supplies over 1000 individual products lines. A 'one-stop shop' for industrial raw materials.

Pafra Adhesives Ltd

Address: Bentalls, Basildon,
Essex, SS14 3BU
Telephone: 01268 290610

We believe in technical innovation and take pride in developing, manufacturing and supplying quality, competitively priced adhesive products for the paper converting, packaging, labels & tape markets. Our people are specialists and are committed to producing scientifically advanced, cost-effective adhesives that you can rely on. We understand that our customers want an adhesive that is consistent, clean and efficient, which is why we put technical development at the heart of all we do. By continually investing in the performance of our products, and discovering new solutions, we're able to provide our clients with robust, industry leading adhesives.

We are an independent business and have been working hard to ensure our customers get the best possible level of customer service at every stage of the process for over 60 years. Whether an adhesive need can be met by a ready-made product, or the issue requires a bespoke solution, our sales and technical teams will consult, advise and recommend the best adhesive to meet the particular requirements.

Palace Chemicals Ltd

Address: Speke Hall Industrial Estate,
Speke, Liverpool, Merseyside, L24 1YA
Telephone: 01514 866101

Since Palace Chemicals Ltd was established in 1978 our growth has been driven by a consistent programme of investment and innovation in the latest available technology which has enabled the development of the most extensive range of building, construction & DIY products available from any single manufacturer in the UK. At Palace our mission is to provide the latest & best available product technology manufactured under the highest quality standards and then supplying the tiling, building, DIY & decorating trades with the levels of service & value they need to make their business a success, which is why for the past 42 years and for the future Palace is built on success. We have attained three independent International Standard accreditations demonstrating the reliability of our Quality Management System (ISO 9001); Environmental Management System (ISO 14001) and also our Health & Safety Management System (ISO 18001)

The high level of accreditation we hold provides the reassurance required for even the most demanding customers and has enabled us to form excellent working partnerships with not only our private label clients, but also fellow manufacturers, most notably the US-based company Laticrete, who are world leaders in the tile & stone industry. Whilst tiling products remain at the core of the PALACE product range, our expertise extends across many other categories of building adhesives, sealants, wood treatments & water-proofing agents which are also all available under the PALACE brand. The requirements of our DIY & decorating customers are served by the LANGLOW brand of products which include a comprehensive range of fillers, wallpaper adhesives, paint strippers, decorating sundries and solvents, all of which are part of the essential elements of the professional decorator's toolbox.

www.palacechemicals.co.uk

Polyseam Ltd

Address: St Andrews Road,
Huddersfield, West Yorkshire,
HD1 6SB

Telephone: 01484 421036

Leading the way since 1993, Polyseam specialise in manufacturing private label high performance fire protection products, adhesives, sealants, fillers and surface finishing products for many well-known global brands.

Our UK and European chemists, engineers and technicians continue to lead the field in research development and manufacture; and our own market-leading brand is a direct result of their pioneering expertise.

Our award of ISO 9001 standard underlines our commitment to optimum quality standards. Our award of ISO 14001 Standard highlights our efforts in minimising and managing our environmental impact in every area of our business, including procurement, storage, distribution, product development and manufacturing.

We also manufacture products for our 3 own brands - Protecta, Painthouse and Graft.

Polytech Liquid Polymers Ltd

Address: Nab Works, Pott Shrigley,
Macclesfield, Cheshire, SK10 5SD
Telephone: 01625 575737

Polytech Liquid Polymers Ltd (formerly Pure-Flex Packaging Adhesives Ltd) is part of the MRI-Polytech group of Companies.

Our product range has been specifically developed for the flexible packaging converting and graphics arts industries.

The range of laminating adhesives includes solvent free, solvent based and water based adhesives available as one or two component systems.

Our polymer development and design techniques have allowed us to supply tailor made products to meet the rapidly changing needs of the converting industry with safety, quality and the environment in mind. Production, Research & Development and Technical Service Laboratories are all based in the UK.

Power Adhesives Ltd

Address: Head Office,
1 Lords Way, Basildon,
Essex, SS13 1TN
Telephone: 01268 885801

Power Adhesives manufacture a large range of shaped and bulk hot melt adhesives and glue guns from their modern factory in Basildon. With over 46 years of experience in this field, Power Adhesives is uniquely able to offer both shaped hot melt adhesives and truly industrial, hand-held glue guns.

Power's range of hot melt glue guns are marketed under the "TEC" brand. Both large and small glue guns are available that are suitable for everything from precision bonding to spray application of hot melt. TECBOND hot melt adhesives are formulated and manufactured to provide market-leading bonding performance. Each adhesive has been carefully developed to maximise adhesion and optimise glue gun performance. Power Adhesives markets through a worldwide network of distributors.

Constant investment in both equipment design and adhesive formulation ensures we are able to provide reliable high performance hot melt bonding solutions to many industries.

Prismo Road Markings Limited

Address: 5 Drumhead Road,
Chorley North Industrial Park,
Chorley, Lancashire, PR6 7BX

ENNIS-FLINT®

The Mark of Traffic Safety®

PPG Traffic Solutions EMEA, formerly known as Ennis-Flint, has undergone a management buyout and is now under new ownership. Prismo Road Markings Limited announced that the new owners are the existing management team, General Manager James Moore, and Finance Director Andy Jourdain. The MBO includes the full operation including the flagship manufacturing plant in Chorley, UK, two additional manufacturing plants in Italy, and a site in South Africa. Ennis-Flint was acquired by PPG Industries in December 2020.

Prismo Road Markings Limited business provides best-in-class, long-lasting and reliable pavement marking and traffic safety coatings around the globe. Our experience encompasses every aspect of traffic safety markings, from traditional paints and thermoplastics to high-performance formulas and plural components for road and highway striping as well as preformed thermoplastic for transverse markings, heavy-duty intersections, and custom horizontal surface signage. You can find our products on roads and highways, taxiways, runways, parking lots and in all kinds of commercial, contractor, governmental, industrial, airport and architectural settings. We help make roads, airports and pedestrian areas safer for everyone. We drive towards this goal by allocating considerable resources to develop new, advanced materials that lead the traffic safety industry in performance and reliability. We are on the cutting edge of current traffic marking and safety technology and continue to pave the way for the industry.

Rakem Ltd

Address: Wellington Street,
Bury, Lancashire, BL8 2BD
Telephone: 01617 620044

**Rakem
Group**
Innovative Chemistry

Rakem Ltd, founded in 1996, is an agent and distributor for manufacturers who supply speciality raw material to the paper, coating, plastics, textile fibres, pharmaceutical and chemical industries. We have a full technical sales team who can help ascertain your requirements and then tailor products to suit. We cover the UK and Ireland, have distribution sites located throughout the country and offer 25kg up to 10 tonne lots.

Not only do we represent the largest Sulphate TiO₂ manufacturer, we complement that range with polymer emulsions, Kaolin, Calcium Carbonate and ATH from European manufacturers.

Rakem has a unique and comprehensive range of white pigments, fillers, water-based polymer emulsions and silicone resins for the adhesive and sealant market.

With access to 7 research and development centres based in Western Europe, Rakem offers unrivalled support in meeting customers' need for innovation and improved optimisations.

Rakem Limited is part of the Rakem Group. Made up of 5 companies we manufacture and distribute specialist pigments and fillers for the construction and cementitious industries and provide unique finished goods through our toll manufacturing services. To find out more visit the Group's page.

Ravago Chemicals UK Ltd

Address: Unit 1 Everill Gate Business Park,
Everill Gate Lane, Barnsley,
South Yorkshire, S73 0FJ
Telephone: 01226 818318

Ravago Chemicals UK are specialty chemical distributors with expertise in providing chemical solutions to the surface coatings, adhesives, construction and allied industries throughout the UK and Ireland. We also stock a wide range of material solutions for leather, textiles and carpet. As a member of a global chemicals company, our global buying strength ensures that products are always nearby at the best value.

Our customers are typically producers of paints, varnishes, printing inks, adhesives and building products, from small local businesses to large multinational corporations. We also supply companies who manufacture a wider variety of surface coatings such as those used for textiles and leather.

We pride ourselves in offering more than just chemical formulas and raw materials, providing local market insight and technical expertise during every stage of product development. Our in-depth knowledge of specialist chemicals and their applications enables us to provide tailored solutions for our customers' specific requirements.

Our UK warehouse network has an exemplary logistics track record offering unparalleled stock levels and fast next day delivery. Our extensive UK stock is mainly held at a central warehouse in Barnsley, South Yorkshire, and we usually supply over 95% of goods from stock.

Richard Baker Harrison Ltd

Address: Albion Street,
Failsworth, Manchester, M35 0FP
Telephone: 07854 258193

RBH sources materials that help manufacturers overcome challenges in the production of complex formulations. We offer a unique blend of materials and services, which enhance product performance and inspire change across our specialist markets. Underpinning all our operations is a passion for enhancing product performance, to both inspire and deliver change. Committed to building long-lasting relationships with our customers, this allows us to fully understand the challenges they face.

Our origins can be traced back to 1858 when Mr Richard Baker founded a trading company in London. Over 150 years, the organisation has evolved through a series of mergers and acquisitions which has included – W Harrison & Company Ltd, Kittle White & Company Ltd, Pumex UK Ltd, Whitfield & Son Ltd and most recently joining with Hubron Speciality Ltd. During this period, RBH has partnered with a variety leading global producers, while developing our own portfolio of world-renowned brand names. Today, RBH offers more than 100 functional minerals & chemicals and operates out of 5 European warehouses, maintains a comprehensive technical centre plus a contract blending and repackaging plant. Serving a diverse range of industries, we occupy a particularly important position within the plastic, rubber, coating, adhesive & sealant, composite, ceramic, personal care and polishing sectors. An ever-evolving business, we continue to pursue opportunities beyond these areas; developing our portfolio of products and service in accordance with the challenges and trends occurring throughout the marketplace.

Faber & VanderEnde GmbH became part of the RBH Group in 2022. Faber & VanderEnde are well known & respected across Europe for their expertise in high quality performance materials for the coatings, construction, adhesives, sealants and molecular sieves/filtration sectors which perfectly complements the range currently offered by us and further strengthens our geo expansion into Europe.

Safic Alcan UK Ltd

Address: 812 Fountain Court,
Birchwood Boulevard, Birchwood,
Warrington, Cheshire, WA3 7QZ
Telephone: 01925 848110

Safic-Alcan UK Limited is a one stop sourcing and distribution specialist with an extensive range of chemicals, oils and additives used in Adhesives, Coatings, Plastics, PU, Rubber and Life Sciences. As part of the Safic-Alcan Group, Safic-Alcan UK has extensive access to export markets. The company represents some of the best-known names in the chemical industry, including, Albemarle, Cray Valley, Eastman, Evonik, Kumho, Nouryon, Sasolwax, Schill & Seilacher and SI Group.

With the Acquisition of Langley Smith in 2019, our expertise, reputation and product range in the Adhesives and Sealants markets has been significantly enhanced. Langley Smith offers a broad range of ingredients for the adhesives and sealants markets amongst which the full range of DRT/Pinova products.

Safic Alcan UK is also an industrial resource with its own manufacturing facility, supplying a variety of industries with a wide range of products including masterbatches, dry blends, dry liquids, etc. Safic Alcan UK provides an extensive blending and re-packing service, for single or multiple ingredients. Our comprehensive knowledge of current health and safety and environmental regulations, plus likely trends, enables our specialists to assist all our working partners with their environmental challenges.

At Safic-Alcan UK, we are proud of our ability to develop partnerships that ensure our customers' requirements can be met on time – every time.

SCIGRIP – IPS Adhesives

Address: New York Way,
Newcastle Upon Tyne,
Tyne & Wear, NE27 0QF
Telephone: 01914 196444

SCIGRIP Smarter Adhesives Solutions® is a leading global manufacturer and formulator of Structural and Engineering adhesive products. SCIGRIP Smarter Adhesives Solutions combines two global leaders in the adhesives industry, Weld-On and Holdtite, enabling the manufacture of world class structural and engineered adhesive products on a global scale. Many of our patented formulations are used within the automotive, marine and OEM sectors around the world. SCIGRIP has a strong research and development team based in the USA and Europe focused on addressing customers' specific application demands as well as improving customer productivity to achieve ultimate success.

SCIGRIP is committed to manufacturing quality products, complying to REACH and maintains ISO 9001 2015 certification for all of its manufacturing facilities. SCIGRIP has also achieved multiple third party product certifications including Lloyds, RINA, and BRE, ROHS, WRAS, AGA specifications that ensure product performance in key applications. SCIGRIP's well established range of REACH compliant engineering, maintenance adhesive and sealant products have grown and developed with the industry sectors. The range includes industry-leading technologies in 10:1 and 1:1 methyl methacrylate (MMA). No-mix toughened acrylics. MS Polymers epoxies and epoxy sticks. Anaerobic based retainers, thread lockers, pipe sealants and gasket-makers. Cyanoacrylates (CA) and Ultra Violet (UV) cure adhesives. Solvent cements. Activators and Primers. RTV Silicones and gasket-makers in the unique 'Powercan' dispenser. SCIGRIP products are environmentally responsible, low volatile organic compound (VOC) adhesives.

Scott Bader Company Ltd

Address: Wollaston,
Wellingborough,
Northamptonshire, NN29 7RL
Telephone: 01933 663100

Adhesive technologies constitute an important part of Scott Bader's product portfolio. Texicryl patented styrene-acrylate copolymer emulsions lead the way for formulators of water resistant, ready mix, ceramic tile adhesive. Adhesives formulated using Scott Bader products are able to easily meet the highest international standards.

The quality of Scott Bader's products is matched by the support that is offered to customers. The company's considerable in-house adhesive testing facilities and expertise of its application chemists is at the customers disposal. The company prides itself on a more personal approach to development projects with customers. Scott Bader Company Ltd established in 1920 by Ernest Bader, has grown into a truly international concern, with manufacturing facilities in four countries, supported by a wide network of distributors and agents. The structure enables the supply of products to the same high standard throughout the world.

The company is one of the best known examples of co-ownership, where all the company's employees share in its prosperity. This structure offers the benefit to customers of a stable relationship with their supplier as Scott Bader are protected from take over, customers can also be assured that Scott Bader workforce are highly motivated and customer focussed as they all have a vested interest in the company's success.

We are committed to offering our customers the highest quality products and services at the most competitive prices in the UK market.

Sovereign Chemicals Ltd

Address: Park Road,
Barrow-in-Furness,
Cumbria, LA14 4EQ
Telephone: 01229 870800

Sovereign
the gold standard in building products

Founded in 1965, Sovereign has long been acknowledged as the respected name in the field of chemical products for the building and construction industry. The company is the acknowledged leader in chemical damp-coursing throughout the UK.

Sovereign offers an extensive range of both remedial and general building products as well as an unrivalled specifications and technical service. At Sovereign we pride ourselves on offering only top quality products manufactured at our Barrow-in-Furness site to our own exacting formulations.

We are committed to continually improving both our product range and service levels to ensure we can best service the demands and requirements of both existing and new customers.

Endorsement of the quality of Sovereign products can be seen from the fact that the company was awarded the Royal Warrant in 1987 as a result of its building chemicals being used with great success in several Royal residences. To be awarded British Standards Registered Firm status is one of the highest accolades that any company active in the industry can hope to achieve. The company must satisfy the demanding requirements of BS EN ISO 9001/9002 as it applies to manufacturing systems and product quality. Sovereign was the first company in the damp-proofing field to gain BSI approval for its whole range of products.

Star Uretech Ltd

Address: Units 14/15,
Roman Way Industrial Estate,
Longridge Rd, Preston,
Lancashire, PR2 5BB
Telephone: 01772 700667

At Star Uretech we formulate, manufacture and supply high performance construction adhesives, resin flooring and speciality surfacing systems. Our team of chemists utilise the latest technologies to develop unique, high performance, products which improve upon outdated, conventional technologies that suffer shortcomings in either performance or price. All of our products are developed, manufactured and supplied in the UK.

Star Uretech was formed with an ambition to develop unique high performance, specialist urethane products which improved upon outdated, conventional technologies that often-suffered shortcomings. Our innovative products, technical development and commitment to customer service have secured our place as a market leader in several construction adhesives market sectors.

A pioneer in ultra-low VOC, phthalate & solvent free systems, we continue to lead the way and develop our patented range of products to meet the most challenging requirements.

Structural Adhesives Ltd

Address: The Adhesive
Buildings, Units 12-13a
Marlow Road Industrial Estate,
off Marlow Road, Leicester,
Leicestershire, LE3 2BQ
Telephone: 01162 894655

Structural Adhesives

Developed by us
Driven by you

Structural Adhesives Ltd has been at the forefront of manufacturing and service provision for over 35 years. Based in Central England, our company is dedicated to the development and global distribution of high-performance bonding solutions. We supply into a diverse range of industries, including aerospace, construction, engineering, and transportation, as well as working closely with architects, specifiers and designers offering a range of epoxy, acrylic, and hybrid polymer adhesives.

Our product line is distinguished by our A2-s1d0 fire-rated adhesives, which are specially formulated for enhanced safety in buildings exceeding 18 metres and have set new standards for limited combustibility within the industry. At Structural Adhesives Ltd, we also operate Luma R&D Laboratory Services, where our experienced chemists conduct real value R&D that not only meet but exceed client specifications, focusing on enhanced performance, sustainability, and safety, while also addressing economic efficiencies and H&S. Our proven track record in partnerships and collaborations with academia and other partners continues to grow our innovation.

In support of our manufacturing excellence, Luma R&D Laboratories provides extensive testing services, including tensile, flexural, and peel strength tests, ensuring all products achieve the highest levels of durability and suitability for their intended applications. Our commitment to quality and environmental aspects are evidenced by our REACH compliance and is ISO 9001:2015 certified by WCS. This dedication ensures we continue to lead with integrity and innovation within the adhesives market.

Synthomer plc

Address: 45 Pall Mall,
London, SW1Y 5JG
Telephone: 01279 436211

Synthomer plc are a world-leading supplier of high-performance, highly specialised polymers and ingredients that play vital roles in key sectors such as coatings, construction, adhesives, and health and protection – growing markets that serve billions of end users worldwide. Through our agile approach, we collaborate with more than 6,000 customers to enhance our existing products and services, and create innovative tailor-made solutions. Synthomer is a leading global supplier of emulsion polymers, with a particularly broad product portfolio. We supply to a wide range of industries, not only adhesives and sealants, but also coatings and construction materials, textiles and carpets, paper and board. Our mission is to provide excellent customer service through a highly experienced team of sales managers and technical service chemists dedicated to delivering formulation advice and innovative end use solutions. We pride ourselves on our long-standing leadership of the UK and Ireland emulsion polymers market

From our innovation centres of excellence and manufacturing sites across Europe, North America and Asia, we collaborate closely with our customers to develop new products and enhance existing ones tailored to their needs, with an increasing range of sustainability benefits. And through our focus on making our business more efficient, more global and even more specialised, we are positioned to lead the way as a speciality business whose products enhance people's homes and cities, lifestyles, transportation and healthcare.

Our key strengths include our talented people, global footprint, agile supply chain, innovation and product development expertise and cash-generative business model. We create products and solutions for 6,000 long-standing customers in multiple attractive end markets, with global exposure to growth megatrends via our three end-customer focused divisions, with innovation driving new product development in close collaboration with customers, and a focus on sustainability throughout our value chain.

TER (UK) Ltd

Address: Milton Hall,
Ely Road, Milton, Cambridge,
Cambridgeshire, CB24 6WZ
Telephone: 01223 828640

In July 2012 the TER GROUP further strengthened its growing pan-European network by opening TER (UK) in Cambridge. The launch has proved a great success enabling UK customers to source a wide range of raw materials. The initial focus was on offering raw materials for the Paints & Coatings, Construction, Adhesives, Textiles, Paper and Glass Fibre industries. Today TER (UK) are servicing a wide range of UK customers with both direct shipments or with materials from strategically located UK warehousing.

In a second phase TER (UK) enhanced its raw material portfolio by being appointed the UK Distribution partner for a variety of product lines from both Evonik Industries and Claraint SE. TER (UK) have also implemented the activities of its Group Industry "Food & Feed" which is a core business activity of the TER GROUP.

TER (UK)'s aim is to continue the TER philosophy of working closely with our customers to identify the raw materials they want – and to provide them with a range of products that meets their requirements in terms of quality, price, delivery and back-up.

Valtris Specialty Chemicals Ltd

Address: Lankro Way,
Eccles, Manchester,
M30 0LX

Telephone: 01617 851111

Valtris is a global leader in specialty chemical additives and precursors, offering innovative solutions and products to customers around the world. With strong technical expertise and best-in-class formulation capabilities, we develop products that provide essential performance properties to plastics, coatings, adhesives and sealants, pharmaceuticals, flavour and fragrance, and personal care products.

For more than 75 years, we have served as a trusted partner for customers by providing exceptional service and high-quality products. We are committed to making the best use of our resources by minimizing emissions, waste, and energy consumption. We develop value-added sustainable products that meet the long-term needs of our customers. For the adhesives and adhesives markets we can offer the Santicizer® plasticisers which have been used in multiple polymer systems due to their high degree of compatibility. Our Santicizer® phosphate plasticisers can offer excellent fire and smoke resistance performance.

To meet the future needs of the circular economy we have a growing range of bio based options based on our 60 years of production experience.

Vitabond Adhesives

Address: Harling Road,
Wythenshawe, Manchester,
Greater Manchester,
M22 4SZ
Telephone: 01619 983226

Vitabond Adhesives is a division of Vita Liquid Polymers Limited, and part of The Vita Group. Our product range includes water based, solvent based, polyurethane and PVC plastisol adhesives. These are supplied to a wide range of industries including furniture, foam converting, laminating and automotive both in the UK and worldwide. Vitabond Adhesives are dedicated to innovative polymer science creating new ideas and products, constantly improving on what we already know.

VitaBOND® is an extensive range of both water-based and solvent-based adhesives for use in a variety of product applications and specialist markets. Our entire range is carefully formulated to ensure all adhesives have the highest bonding capabilities, whilst also being safe and easy to use. Boasting low-toxicity and environmentally friendly properties, the VitaBond® range of water-based adhesives is a popular choice for industries that value sustainability whilst ensuring strong bonds with a wide range of substrates at all times.

Our solvent-based adhesive products offer maximum bond strength and are typically used in applications where quick-drying and high resistance to water and chemicals are required. They have been specially formulated to adhere to foam, plastic, wood, vinyl and fabric, amongst a wealth of other substrates. VitaBond® solvent-based adhesives include non-flammable, toluene-free, chlorinated and non-chlorinated options to ensure a safe and long-lasting product every time.

Whatever materials are being worked with – packaging, foams, textiles, laminates, roofing or other various substrates, our VitaBond® adhesives can be custom formulated to meet the end-user performance demands and application methods you require.

Wacker Chemicals Ltd

Address: 2 Venture House,
Arlington Square,
Downshire Way, Bracknell,
Berkshire, RG12 1WA
Telephone: 01344 401670

UK subsidiary of Wacker Chemie AG. Wacker Chemie AG is the largest manufacturer of silicones in Europe with all manufacturing sites accredited to ISO 9001 and ISO 14001.

The ELASTOSIL® product range includes the full spectrum of silicone materials for all market sectors e.g. building and construction, rubber fabrication, consumer care, textile, paper, chemical, coatings, industrial sealing and bonding. For the Sealants industry Wacker offer raw materials as well as ready-compounded sealant in bulk, cartridges and foilpacks. In the GENIOSIL® range Wacker offer organofunctional silanes, prepolymers and "hybrid" sealants.

WACKER POLYMERS is a leading producer of state-of-the-art binders and polymeric additives based on polyvinyl acetate and vinyl acetate copolymers. They are used in construction chemicals, paints, surface coatings, adhesives and nonwovens, and in fiber composites and polymeric materials based on renewable resources.

Wacker also manufacture HDK® fumed silica – available in a range of hydrophilic and hydrophobic grades – which are used primarily for their thickening, thixotropic and reinforcing properties in the sealant, resin and surface coating industries.

Wallace Hind Selection LTD

Address: The Old Vicarage,
1 Main Road, Duston, Northampton,
Northamptonshire, NN5 6JB
Telephone: 01604 758857

Wallace
Hind

Wallace Hind Selection is a retained recruitment consultancy providing leading services to major organisations and SMEs across the UK and Europe. Since our inception in 1992, we have significantly developed our recruitment services to cover a full range of job disciplines and market sectors, sourcing key talent for a diverse range of clients, from owner managed businesses through to some of the UK& Europe's most recognised FTSE 100 Brands.

Our approach is structured, rigorous and comprehensive, one that consistently delivers. These approaches include traditional Headhunting, Executive Search and Talent Mapping to bespoke recruitment solutions. Partnering with you, we dedicate time and expertise to gain an in-depth understanding of your business and your specific needs before undertaking any campaign. This affiliation is a two way process giving you the opportunity to question a recruitment expert about your brief, the most appropriate way to recruit, candidate availability, remuneration and timescales.

We approach every campaign with the same values.

- 72% of our business is repeat or recommended.
- 87% of our business is retained.
- Where we are retained, we fill 19 out of every 20 jobs.

What we do really does make a difference. Due to the service levels we provide and the success rate of our process, many of our candidates become our clients. We are proud of our business and what we do.

Wessington Group Ltd

Address: Blagrove House,
17 Blagrove Street, Reading,
Berkshire, RG1 1QB
Telephone: 01189 000546

Wessington was established in 1992 in the United Kingdom and is a privately owned business. Since its foundation, the Company has also formed sister organisations in the USA (2003) and the Middle East (2007). Originally a distributor of speciality chemicals, our product range has grown to include formulated products, finished goods, ancilliary materials and equipment. Prime industries served are construction, textiles, rubber, sealants & coatings, insulated glass and water treatment.

We are a small and flexible company, looking to provide a tailored approach and service to both customers and suppliers. We aim to offer comprehensive technical understanding of our key products, with logistical support from stocks strategically located in the UK, UAE and USA. Wessington Group Ltd is a supplier of raw materials and formulation ingredients to the sealant, adhesive, coating, rubber/plastics and resin industries.

We are the European and Middle East distributor for the Toray range of THIOKOL LP liquid polysulfide polymers. We also offer manganese dioxide and sodium perborate cure pastes for use with THIOKOL LP. Sealants, adhesives and coatings based on THIOKOL LP are used throughout the world in the construction, insulated glazing, marine, automotive and aircraft industries. Other relevant product offerings include DOTP (DEHT), DINP, DICY, metallic stearates and calcium oxide.

We are a knowledgeable and flexible company, providing a tailored approach and service to customers and suppliers. We aim to offer comprehensive technical understanding of our key products, with logistical support from stocks strategically located in the UK, NL and UAE. Wessington Group Ltd is an ISO 9001 registered company and participates in the Chemical Business Association 'Responsible Care' programme. We are an active member of Trade Associations including BASA, BPF and the CBA.

Williams Consultancy Professionals

Address: 24 Laurel Close,
Mepal, Ely, Cambridgeshire,
CB6 2BN

Telephone: 01353 440299

Based in Mepal, Cambridgeshire, Williams Consultancy Professionals (WCP) are a family company partnership run by Lorna, James and Rebecca Williams. WCP are contracted to provide the British Adhesives & Sealants Association (BASA) Secretarial Services.

Lorna also offers Consultancy services based on her 25 years' experience in the adhesives and sealants industry and her previous and current involvement in CEN and ISO sealants and adhesives committees.

Money movement made simple

International payments

- We're tried and trusted, helping our customers manage and move over £10 billion around the world since we started in 2005.

Multi-currency accounts

- Create named accounts to send, receive, and manage funds in 38 currencies, without the need for conversion.

Expense management

- Take control of your business spend with Equals Money cards to use around the world and monitor transactions in real time.

Who are we?

At Equals Money we offer solutions for international payments, expense management, and more, catering to businesses of all shapes and sizes.

We're currently helping over 20,000 businesses simplify their money movement and as part of the Equals Group, we're AIM-listed on the London Stock Exchange.

"Really pleased with the efficient service we get... we have saved £500 in currency transactions this year with fast, easy payment to our supplier."

- Lorna Williams,
CEO, BASA
