## BBB TIP: GIVE YOURSELF A SPRING DIGITAL MAKEOVER

The weather is warming in some parts of the country, inspiring people to clean up or clear out clutter. The one area many people overlook isn't the corner of a room or a forgotten closet; it's the probably the digital device on which you're reading this article. We use our phones to shop, scroll through social media, bank, and work. The National Cyber Security Alliance (NCSA) and the Better Business Bureau (BBB) reminds everyone that when clearing out the physical clutter, there's probably a bunch of digital data clutter that lives on your electronic devices.

As businesses and their employees switched over to working from home in the last year, the focus on cybersecurity and protecting sensitive information became critical. NCSA has advice on [how to keep this information safe](#).

If you have a few extra hours or minutes in your day, it may be a good time to give yourself a digital makeover. Taking some simple, proactive steps will go a long way in safeguarding against any number of potentially disruptive issues – like identity theft, loss of funds or credit card fraud – that can cause mayhem by compromising your data. Take the time to put into practice a few precautionary measures and you will have greater peace of mind – not only this spring, but all year round.

NCSA and the BBB are encouraging people to check their smartphones, laptops and tablets and [take a few minutes to review these tips](#).

- **Lock down your login:** Security is critical to protecting accounts being used for work and for home. Ensure passphrases for each account are lengthy, unique, and safely stored. Enable 2-factor authentication on all accounts that offer it.
- **Update your system and software:** Avoid procrastination! Having the most current software, web browsers, and operating systems are some of the easiest and fastest ways to protect your most sensitive assets.
- **Back it up:** Protect your personal and workplace data by making electronic copies – or backups – of your most important files. Use the 3-2-1 rule to help guide you: 3 backup copies, 2 different media types, and 1 offline in a separate location.
- **Clean up your online presence:** When was the last time you used all of the apps on your phone or tablet? Do you know what the settings are on all of the social media accounts that check in with friends and family? Check up on all your accounts. Then, control your role by making sure you know who has administrative access to your accounts. Keep all of your passwords private.
- **Be careful what you share:** Quizzes on social media are fun, and keeping in touch is a necessity these days. However, [questions on social media](#) that might give away too much information about you, your location or or your family.
- **Create company communication policies:** Business owners should take time in establishing, updating and communicating policies and procedures around topics like record retention. It is also imperative that a cybersecurity strategy is in place and used by all employees.
- **Clear out stockpiles:** If you have a stash of old hard drives or other devices – even if they're in a locked storage area – information still exists and could be stolen. Don't wait: wipe and/or destroy unneeded hard drives as soon as possible.
- **Empty your trash or recycle bin on all devices, and be certain to wipe and overwrite:** Simply deleting and emptying the trash isn't enough to completely get rid of a file. You must permanently delete old files. Use a program that deletes the data, "wipes" it from your device and then overwrites it by putting random data in place of your information – which then cannot be retrieved.
- **Decide what to do with old devices:** Once your old electronic devices are cleaned/wiped, you can sell it, trade it in, give it away, recycle it or have it destroyed. Note the following:
  - **Failed drives still contain data:** On failed drives, wiping often fails, too; shredding/destruction is the practical disposal approach for failed drives. Avoid returning a failed drive to the manufacturer; you can purchase support that allows you to keep it – and then destroy it.
  - **To be "shredded," a hard drive must be chipped into small pieces:** Using a hammer to hit a drive only slows down a determined cybercriminal; instead, use a trusted shredding company to dispose of your old hard drives. Device shredding can often be the most time- and cost-effective option for disposing of a large number of drives.

**“LUCK HAS NOTHING TO DO WITH IT, BECAUSE I HAVE SPENT MANY, MANY HOURS, COUNTLESS HOURS, ON THE COURT WORKING FOR MY ONE MOMENT IN TIME, NOT KNOWING WHEN IT WOULD COME.”**

**— SERENA WILLIAMS**

## Lead with Ease

*Master the Essential Leadership Skill of Clarity*

Tuesday, April 20<sup>th</sup>

9:00 AM – 12:00 PM

at Erie County Chamber of Commerce

604 W. Washington Street, Sandusky, OH 44870

This workshop is for leaders who are willing to look a little deeper into their “Blind Spot”.

For decades “What” to do and “How” to do it has been the focus of leadership and success research. The “Blind Spot” concerns the (inner) source from which we operate when we do what we do— our INTENTION; our sense of what is possible.

You will take-away:

- ✚ Two tools that will clear the fog so you will immediately see the next step to take to successfully implement your plan.
- ✚ Understand why every project costs more and takes longer than you planned and what to do about it, as well what NOT do about it.
- ✚ Three simple steps you can take to achieve extraordinary results.

There is no better feeling than that “AHA Moment” when the fog clears and you see with crystal clear clarity what your next step should be.

Dear Friends of Abigail,

This year's Walk for LIFE is a celebration of Abigail Pregnancy Services' over 30 years of LIFE changing work in our community. Because of social distancing and our desire to keep supporters safe, we have decided to reimagine our annual Walk for LIFE by having a **hybrid** event: you may participate in person on May 22, 2021 in uptown Norwalk, or you may participate virtually by walking at your leisure and getting sponsors in by May 31.

No matter how you choose to participate, you can become a life-saving walker by raising pledges. You can register online at [friendsofabigail.com](http://friendsofabigail.com) by following the link on the events tab. Or get sponsors in person by using your included pledge form. Having sponsors send a check to Abigail Pregnancy Services at P.O. Box 68, Norwalk OH 44857, **with your name and Walk for LIFE in the memo** is an easy and safe way to get those pledges in if they do not want to use online payment options. Bring all completed pledge forms with you to the Walk on May 22, or mail them to our office by May 31.

**Your participation this year is crucial to us.** This walk for LIFE is a major fundraiser for Abigail Pregnancy Services. Last year, we were able to raise over \$20,000 to help keep the pregnancy center running. With your help, we hope to raise much needed **funds** to provide assistance and direction for families who need pregnancy related support or who are struggling to raise their babies. We also hope to raise community awareness of the life-affirming services we offer.

Thank YOU for answering God's call to help His precious children. Whether you walk, pray, volunteer or give a donation for this event, you are partnering with us to make LIFE a beautiful choice! If you have any questions about the Walk for LIFE, please contact us by emailing [ministrydirabigail@gmail.com](mailto:ministrydirabigail@gmail.com), or call and leave a message at 419-668-9500.
