CHAIR'S MESSAGE

If I were to ask our members what is most important to them personally, I imagine that things like family, friends, health, faith and community might rank fairly highly in the responses. These are things that we all have in common, and we all understand regardless of who we are or where we came from.

This is true in business as well. Every business leader grapples with long-range concerns like strategic planning, growth and company culture; to more immediate matters like sales, profit, loss and payroll. Each of us must develop a plan to thrive and compete in the markets and industries we serve while adapting to constantly changing conditions.

As the pandemic loosens its grip on our nation and hopefully transitions to an endemic illness, businesses face challenges that have not been universally common to all industries at all times. An abundance of opportunity and demand for goods and services on the one hand, are met with employee shortages, rising labor costs and burnout on the other. This theme seems recurrent in all my conversations, and solutions are as scarce as the materials and goods that sit immobile in shipping containers, rail cars and trucks that used to keep our supply chain moving. These are just some of our challenges. So you ask, what are the solutions? That's an excellent question, and I wish I knew the answer. I'm just a consulting engineer who happens to write a newsletter article a few times a year. I suspect the answers are slightly different for everyone.

The good news is we have overcome big challenges in the past and the Cumberland Valley region is poised for success well into the future, not just due to geographic location, but because we are a determined, tenacious and hard-working community. As

our region grows, we enjoy a diversification of talent, thought and culture contributed from across the country and even the globe. We're improving and making progress all the time, and we'll meet our challenges now as we have in the past: *together*.

CVBA exists to support you and your business. We have a host of excellent resources, programs and events planned for 2022. Some of them will be familiar while others are new. Please take advantage and participate in what we're doing. Get to know your neighbors by attending mixers and events. Talk to people and learn from them. Build new relationships. Your membership will only produce benefits if you are engaged.

Let us know how we can better support you and tell your friends and colleagues if you are finding value in CVBA. We look forward to seeing old friends and meeting new ones in the months ahead. Until then, continue to care for each other in these stressful times. The future is bright. We'll get there together.

About Patriot Federal Credit Union

History

Patriot has been helping members since its founding in **1965**. We have evolved into a community-based credit union, with nine branches throughout **Franklin County (PA); Frederick County (MD); Washington County (MD); and the Eastern Panhandle of West Virginia – Berkeley, Jefferson, and Morgan counties**. We are governed by a volunteer Board of Directors, elected by the membership.

Financial Strength

Patriot has over **80,000 members** and assets in excess of **\$910 million**. We are federally insured by the National Credit Union Administration (NCUA) and are one of the largest credit unions in Pennsylvania.

Community Involvement

Patriot cares about the communities we're in, so we invest back into these communities. Just a few of the causes and organizations our employees support through volunteering and donations include:

- United Way of Franklin County
- Chambersburg/Waynesboro School Districts
- Renfrew Institute
- Mainstreet Waynesboro
- Franklin County Library System
- Cumberland Valley Breast Care Alliance

The Credit Union Difference

By definition, a credit union is a member-owned, not-for-profit financial cooperative. Since we are not-for-profit, members usually earn higher dividends on savings and pay lower interest rates on loans. In addition, all loan decisions are made locally, right here in your community. Deposits provide money for members who need loans, proving our longstanding philosophy of **"people helping people."**

Building Member Relationships

Our members work hard for their money and we believe that our members' money should work hard for them too. We're here to help you find the best ways to make the most of your money, whether through suggesting new products or a new financial strategy. It is very important to us to build relationships with our members to ensure we are able to fulfill all possible financial needs. At Patriot, you're more than just a number: you're a member and your business is important to us.

Become a Patriot Member

For more details on membership eligibility, please call one of our officers on the front or stop by any of our **nine branches**.

717.263.2285 | FamilyCareServices.org | info@familycareservices.org

Family Care Services is a local human services nonprofit agency founded right here in Franklin County on Edenville Road

in 1977. The mission at the beginning was to provide respite care to individuals with intellectual and developmental disabilities in a family setting. Soon thereafter, clients were placed long-term using the same model. Our mission has always been to help families.

We've expanded over the years to provide a greater variety of services to many types of individuals and families. Our biggest program is for adults diagnosed with intellectual and developmental disabilities. These adults receive Life Sharing services in private residential homes where they are supported to be as independent as they want and to live their best lives. We also provide foster care and adoption/permanency services to children and teens. We are an affiliate of the Statewide Adoption and Permanency Network. Family-based mental health services are provided to families in their homes as well.

Family Care Services provides a welcoming and friendly atmosphere to all who come through our doors. We are always looking for families interested in becoming caregivers and resource parents.
