

WHEN CAN AN ILL WORKER RETURN TO WORK?

- A sick employee without a connection to COVID-19 may consider returning to work after 3 fever-free days have passed without the use of fever-reducing medications such as Tylenol **AND**
- There is improvement in their respiratory symptoms such as less cough and improved shortness of breath **AND**
- At least 7 days have passed since their symptoms first appeared, and symptoms have not worsened or expanded

Employees in contact with others with COVID-19 or who have traveled to high risk areas / cruise ships, need a 14 day self-quarantine.
