✓ About Us

The ASA Attorneys' Council is comprised of legal counsel representing chartered chapters, state organizations, ASA general counsel and other ASA member attorneys in good standing from across the country. We are always looking for new faces and fresh perspectives so we welcome you to join us today!

The Council provides networking and educational opportunities for legal contemporaries from every region, meeting several times throughout the year both in person and remotely. They are a crucial resource for the ASA community, providing cooperative assistance in the development of programs, drafting of legislation & government regulations, procurement of speakers, oversight of the legal defense fund and other matters of interest to the Association.
