## AGC Safety Tech Tip

### Harness Hero - A Safety Gaming App That Can Save Lives!

Falls are the leading cause of death in the construction industry. In 2014, over 300 construction workers died as a result of a fall at work. These deaths are preventable with the proper use of fall prevention and fall protection. The Master Builders' Association is taking fall protection training to the modern day and using an app to help train anyone with a Smartphone or tablet. Titled Harness Hero, it's not just a game but an innovative approach to saving lives in the construction industry. This gaming app will enhance the way construction companies deliver fall protection training. We encourage every construction professional to play the game prior to this year's OSHA National Stand-Down to Prevent Falls in Construction Week, May 2-6, 2016. To become a Harness Hero search "Harness Hero" on your device or click on the applicable icon:
