The [AGC Construction Leadership Council \(CLC\)](#) is proud to announce Chad Wilson as the incoming 2019 CLC Chair!

As a lifelong Alaskan and proud graduate of Chugiak High School, Chad is looking forward to contributing to the construction industry in his new leadership role.

With over 20 years of experience in commercial and residential flooring, Chad is no stranger to the construction industry. Currently, he is part of the leadership team for a division of Spenard Builders Supply at the Curtis & Campbell branch as their commercial flooring project manager and estimator. Prior to joining SBS five years ago, Chad worked as a journeyman floorcovering mechanic all over the state for projects like: Barrow Hospital, Alaska Regional Hospital, UAA, Centerpoint Towers, JBER townhouses, Kotzebue Eldercare, and Dillingham Elementary School.

If you would like more information on the CLC and becoming involved, please [click here](#) or email Lauren Sharrock at Lauren@agcak.org

Online Plans Training

December 13, 2:00 to 3:00 pm

Attend this free training to learn how to get the most out of your Online Plans service access. Topics include easily finding relevant projects, keeping up with bid results, and inter-company user tools. [RSVP Here!](#)

HOUSE BILL 79 - Workers Compensation Analyzed!

House Bill (HB) 79 ([click here to view](#)) was passed in to law and the Worker's Compensation Committee of Alaska (WCCA) has done an analysis of the Bill. They believe it is important that employers are aware of what this Bill actually means and does and are sharing this information with the AGC members. [Click here to view the analysis done by the WCCA.](#) AGC urges you to take a moment now, to review the analysis.

AGC Annual Legislative Fly-in

This year's AGC Legislative Fly-In is scheduled for February 5th & 6th. It is a great opportunity to meet with Legislators and staff and discuss many of our industry issues and concerns. The reception will be on Tuesday, February 5, 2019 at the Baranof Hotel and will be jointly hosted by the AGC, the Alaska Miners Association, and the Alaska Trucking Association. Click here for more information or contact Margaret@agcak.org.

Let your voice be heard!

Governor-elect Mike Dunleavy would like to receive input and ideas from Alaskans, and AGC has been asked to help with that. This is an opportunity to put some ideas out early on for consideration by the new administration. Ideas are good, but if you've had a good experience with any state employees, I suggest you call that out too. Positive feedback is a good thing.

Share this with co-workers and employees, and please don't be shy about submitting ideas to the Governor-Elect.

www.governormikedunleavy.com

The transition team is looking for ideas and suggestions in areas that Governor-Elect Dunleavy focused on during the campaign:

Protecting the Permanent Fund by Restoring the People's Dividend

Shrinking Government and Balancing the Budget

Growing the Economy and Putting Alaskans Back to Work

Restoring Law and Order

Developing our Natural Resources

Thank you for your support of the construction industry in Alaska.

SAVE THE DATE!

Mark your Calendar for these Upcoming 2019 AGC Events

✓ 2018 Excellence Reception

Anchorage AGC Event

January 8, 2019 at the AGC offices from 4:00 -5:30 pm. For more information contact Kimberley@agcak.org.

December, 13th from 8:30 am - to 4:00 pm: FEMA P-593, Seismic Rehabilitation Training for One- and Two-Family Wood-Frame Dwellings—[Click here for more info](#)

The Expert's Guide
to Exit Planning
FREE Lunch & Learn

For most owners, the sale of their business is key to their retirement plan. For others, their business is a legacy they hope to pass on to family or employees. In spite of these important goals, most have no plan. As a result, most owners are forced to delay retirement, sell for far less than they could or unintentionally spark conflict between partners or family members. Fortunately, with a little preparation, your exit can be a profitable and positive experience. [Click here to learn more and to RSVP!](#)

Member News

[Join AGC Member The PPI Group, Topcon Solutions for two upcoming classes.](#)

December 11th - 13th from 8:30 am to 4:30 pm | \$995.00

Revit® Architecture Essentials | ANC

Get introduced to Revit Architecture while learning the fundamental concepts of Building Information Modeling (BIM). This hands-on three day course will teach the students how to model essential building elements in 3D such as walls, stairs, doors, windows, etc. You'll also learn how to create schedules, legends, sheets and other views of your model to create your construction document set.

Register here: [Revit Architecture Essentials | ANC](#)

January 8th - January 10th at 8:30 am to 4:30 pm | \$1,100

Civil 3D® Essentials | ANC

This course provides you with a foundation for using the dynamic technology of Civil 3D. Everything from importing points and creating surfaces, to finished corridor/road design will be covered.

Register here: [Civil 3D Essentials | ANC](#)

[Join AGC Member Satori Group for these upcoming classes.](#)

December 4th, 8:00 am to 12:00 noon: Building Insp. Refresher 4 hr

Fairbanks | Regulations require this approved annual refresher for those holding a Building Inspector certification. This course reviews the key information from the original course, as well as up to date information regarding regulatory and legislative changes. Students are encouraged to bring their knowledge and experiences into classroom discussions.

December 5th, 2018 - 8:00 am to 4:30 pm: Project Designer Refresher 8 hr

Fairbanks | This course is for all persons that will design an asbestos abatement project and is required under the EPA AHERA Model Accreditation Plan. Students will be trained in identifying all relevant aspects of an asbestos project and how to properly address them. Topics covered, but not limited to, include designing engineering controls, abatement issues in occupied buildings, personnel protection, air sampling requirements, and regulatory requirements. The course also includes a hands-on section where students will design an abatement project to be reviewed by an experienced project designer. This course meets the requirements of the EPA/AHERA 40 CFR Part 763 Subpart E.

December 6th, 2018 - 8:00 am to 4:30 pm: Satori Group: Renovation, Repair, And Painting (RRP) Initial Lead-Based Paint Course 8 hr

This course is designed for renovators, remodelers, painters, maintenance personnel, and any other workers removing or modifying painted surfaces. Any contractor performing work on pre-1978 homes or child-occupied facilities must employ at least one Certified Renovator who has successfully completed this training. Topics covered, but not limited to, include EPA regulations, preparation for work, containing dust during work, proper cleaning activities, and evaluating the finished site. If these procedures are correctly implemented, the risk of lead exposure can be minimized. This certification is good for five years. This course is approved by the EPA.

To RSVP, please call 907-332-0456
