# *Congratulations* to our **2018 SCHOLARSHIP WINNERS**

**T**he Baldwin County Home Builders Association awarded \$7,000 in annual scholarships to local students. Since 1997, the BCHBA has awarded scholarships to deserving students pursuing careers in the home building industry. Qualifying students must be enrolled in construction-related studies in a technical school or college. To date, the Association has awarded \$90,600 in scholarships to help students in Baldwin County prepare for careers in the home building industry. The BCHBA's 2018 Scholarship Committee included Gene Evans - BCHBA President, Chris Bumpers - Associate Council Chairman, Barbara Fretwell - Associate Council Treasurer, Fran Druse - Executive Vice President and Scott Schoppert.

*L-R: Scott Schoppert, Judson Taylor, Fran Druse, Bryan Roberts, Reid Brown, Gene Evans, Connor Byrd, Barbara Fretwell, Chris Bumpers (not pictured: Clay Pitman - see below)*

**Reid Brown**

Reid plans to study Civil Engineering at Auburn University. "I want to pursue this career, because I will get to help solve problems that we encounter in our everyday lives. People use roads, bridges and tunnels and i will be able to help find solutions to the problems that will occur. I have always been interested in how bridges and tunnels were made and how they can withstand so much use and always hold their structure." The son of Robert and Montaigne Brown of Fairhope, Reid attends Fairhope High School and has been a member of the National Honor Society and the Engineering Club. Reid enjoys the challenge of fly fishing and has worked for Pitman Brown Building Company in the summer.

**Conner Byrd**

Connor intends to obtain a degree in Landscape Operations Management at Coastal Alabama Community College. "I have always had a passion for the outdoors. I greatly enjoy gardening and horticulture related activities. My goal is to carry that passion into my landscaping design career and provide quality unique landscaping ideas for our fast growing community. A uniquely landscaped lawn allows the homeowner to expand their living space beyond the walls of the home." The son of Brad and Jennifer Byrd of Silverhill, Conner is a member of the National Honor Society and the Captain of the Robertdale High School Varsity Football Team. During the summer he has worked for Eastern Shore Medical Specialists.

**Clay Pitman**

Clay is currently enrolled at Auburn University and is attending classes in Civil Engineering since Fall of 2014. "By choosing this educational path, I could have a part in the construction industry but also concentrate on the dirt work and foundations of buildings and roads. This type of work interests me because it is the base and foundation that provides stability and structure to any road and building." The son of Cliff and Jody Pitman of Fairhope, Alabama, Clay is an active member of Sigma Alpha Epsilon at Auburn University and was a member of the National Honor Society in High School. Clay is an avid outdoorsman and enjoys hunting and fishing and is pursuing his private pilot's license.

# 2018 SCHOLARSHIP WINNERS (CONT.)

**Bryan Roberts**

Bryan is currently enrolled at Auburn University, majoring in Building Science. "A degree in Building Science will allow me to follow my passion for creating as a career for the rest of my life. I want to work for a larger commercial general contractor as a project manager or superintendent after graduation. My appreciation for craftsmanship and quality work may one day draw me back to high-end home building." The son of Todd and Jill Roberts of Fairhope, Alabama, Bryan is a member of the Associated General Contractors Student Sector at Auburn. Bryan loves carpentry and worked full time for Pitman Brown Building Company while attending Coastal Alabama Community College at night.

**Judson Taylor**

Judson plans to attend Coastal Alabama Community College and work toward a degree in Industrial Engineering Technology. "My goal is to be self supporting doing a job I actually enjoy. I plan to get my certificate and then my associate. I want to be able to run electrical wiring for newly constructed condos or run my own heating and air conditioning business." The son of Michael and Sky Taylor of Spanish Fort, Judson has been a member of the National Honor Society and the National Spanish Honor Society. He is active with the First Baptist Church of Spanish Fort and was a member of the Spanish Fort High School Track Team.

113 Terra Bella Blvd. Covington, La. 70433 (855) 784-6400

**W**e are pleased to announce the partnering of Baldwin County Home Builders Association and Townpros. TownPros will be providing directory service for our Association. This provides a unique opportunity for our Association and our Members to improve their "Digital Presence" and searchability which means more opportunity to do business with other Members and consumers.

An additional directory presence at no cost to you as a member. The ability to subscribe for enhanced marketing, if you choose. Take control of your digital presence, if you have no current presence, this will be of special interest and a unique opportunity for you.

Our new service will go live May 1, 2018. Look forward to hearing more about TownPros, and how they can help get you in front of more potential clients. Plan on attending our June GMM on Thursday 21, 2018 to learn more.

Baldwin County HBA is working hard to help our Members grow their business.  
Baldwin County HBA

# What YOU Need to Know About Changes to the Home Builders Licensure Law

John Manuel

**Y**ou may have heard some lumber-yard talk about changes to the law. Forget the rumors -- here are the facts. As of May 1, 2018:

- The definition of residential home builder now includes “a residential roofer when the cost of the undertaking exceeds \$2,500.” (Ala. Code § 34-14A-2(11).) Roofers licenses are not yet being issued by the Board. Please read the article on page 3 regarding the roofers license for additional critical information.
- Advertising to do work requiring a home builders license is proof of acting as a home builder. (Ala. Code § 34-14A-2(11).) This change will greatly assist the Board in locating and bringing action against unlicensed builders.
- An improvement is defined as “any site-built addition or enhancement attached to or detached from a residence” and is clearly a part of the residence. (Ala. Code § 34-14A-2(4).) This means that builders of detached garages, pool houses, workshops, outdoor kitchens, etc., will be required to hold a home builders license when the total cost of the job exceeds \$10,000.
- The Board is authorized to collect the cost of holding a disciplinary hearing when the licensee is found guilty at the hearing and is disciplined by the Board. (Ala. Code § 34-14A-8(h).)
- The homeowner exemption is not transferable. (Ala. Code § 34-14A-6(e).) A homeowner cannot transfer their homeowner exemption from holding a home builders license to anyone.

A person that they hire to perform work that would require a license, including overseeing or supervising the job, must hold the re-quired license.

- The maximum amount the Board may fine per disciplinary charge increased from \$2,000 to \$5,000. (Ala. Code § 34-14A-8(a).)
- If the Board pays out of the Homeowners' Recovery Fund on behalf of a licensee, the licensee's license may be revoked and the qualifications and experience of the licensee or the licensee's qualifying representative may no longer be recognized for licensing purposes. The former licensee and the former licensee's qualifying representative must repay the fund before a license will be issued. (Ala. Code § 34-14A-15(e).) What this means is that if the Board pays out of the Fund on a claim against a licensee, it may revoke the license AND the qualifications and experience of the licensee are no longer valid. If the licensee is a corporation or limited liability company, the license may be revoked and the qualifications and experience of the designated qualifying representative are no longer valid. The licensee, whether it is an individual or a corporation, must repay the Fund before a license will be issued. The designated qualifying representative cannot be issued an individual license or be a designated qualifying representative until the Fund is repaid. The designated qualifying representative may repay the Fund if the licensee does not repay the Fund.
- Licensees who are performing work that complies with programs to enhance resiliency of structure (fortified housing, etc.) are required to disclose in writing to a homeowner prior to commencing work that the work will comply with those programs. (Ala. Code § 34-14A-7(g).) Often a homeowner is not informed that the work will meet fortified housing requirements until sometime after construction has begun. Without being informed prior to construction beginning, the homeowner is unable to meet the requirements (documenting various phases of work, etc.) to obtain available grant money or other financial benefit due to the homeowner.

**Be on the lookout for further notice about changes to the law. It's up to you to be in compliance.**

---

## Top 5 Alabama Markets in New Construction during February

### New Construction as a Percentage of Total Residential Sales: February 2018\*

Limestone County: **34.6 percent**  
Huntsville Metro Area: **25.6 percent**  
Baldwin County: **24.4 percent**  
Lee County: **24.2 percent**  
Montgomery Metro Area: **12.8 percent**

**Baldwin County:** New construction sales represented 24.4 percent of all residential sales in Baldwin County during February, up from 18.7 percent last month and up from 11.7 percent one year ago.

During 2017, new construction sales represented 18 percent of all residential sales in Baldwin County, a strong improvement from 11 percent in 2016.

**Mobile Metro Area:** New construction sales represented 5.6 percent of all residential sales in the Mobile metro area during February, down from 7 percent last month and down from 6.4 percent one year ago.

During 2017, new construction sales represented 7.2 percent of all residential sales in the Mobile metro area, down from 8.2 percent in 2016.

## Updated Contract and Warranty Language on HBAA Website

One of the HBAA's most utilized member benefits has been updated. The revised sample contract and warranty language is now available on the HBAA website. Members may download for free and take to their attorneys to be customized for their specific needs.

To access the sample language, log into your member account at [www.hbaa.org](http://www.hbaa.org) and select "Contracts".

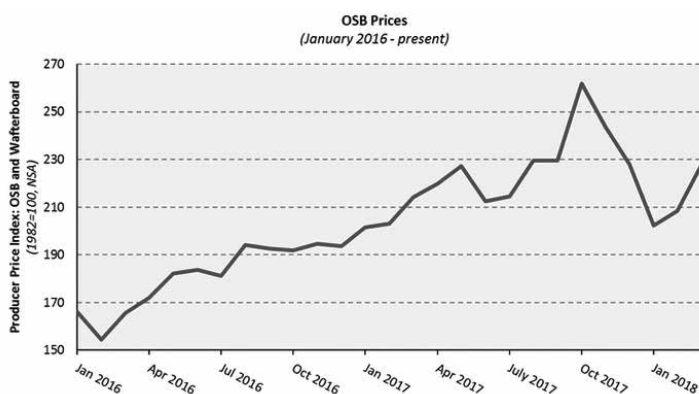

If you don't have a login set up or need assistance, contact Candi Stroh at 1-800-745-4222 or email [candistroh@hbaa.org](mailto:candistroh@hbaa.org).

# Ready-Mix Concrete, OSB Lead Price Increases in March

By David Logan  
April 10, 2018

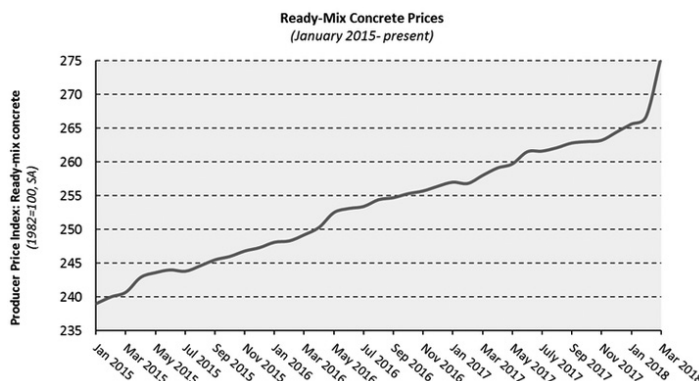

Building materials prices continued to climb in March, according to the latest Producer Price Index (PPI) release by the Bureau of Labor Statistics. Oriented strand board (OSB) led price increases, up 9.3% since February (not seasonally adjusted), while the indexes for ready-mix concrete (+3.3%), softwood lumber (+2.2%), structural steel (+2.0%), and gypsum products (+1.1%) also moved higher.

The 9.3% increase in OSB prices follows February's 3.1% gain and is the largest monthly climb since October 2017 (+14.1%). After a three-month downward trend, OSB prices have risen 12.6% over the past two months.

The 9.3% increase is larger than recent Random Lengths data would suggest, but is consistent with last month's post. That article noted that last month's 9.5% increase in the Random Lengths OSB index "[would] likely be captured in [April's] PPI release." Due to methodology, OSB and softwood lumber data in the PPI tend to lag market conditions.

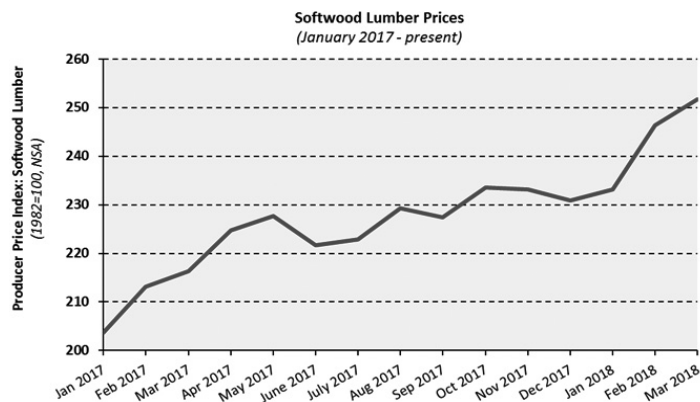

Ready-mix concrete (RMC) prices rose 3.3% over the month (seasonally adjusted), the largest percentage increase since January 2006. Prices had increased at a remarkably stable pace until last month, as shown below.

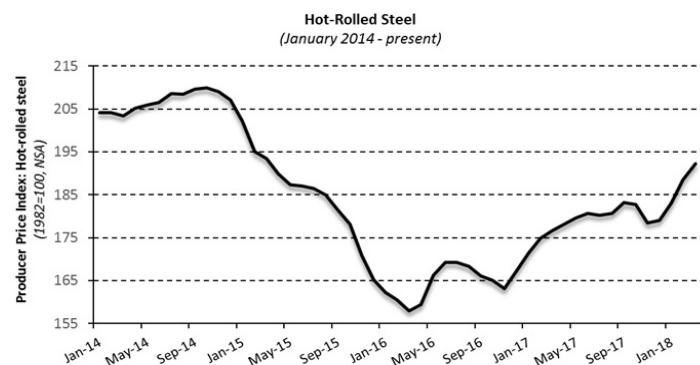

Since the end of the Great Recession, the RMC price index (SA) has increased 0.2% each month, on average. In fact, over the last 15 years, only twice has the monthly change in the index been greater than +3%. During that period, the monthly change exceeded 2% and 1% in just four and 18

months, respectively.

Increases for prices paid for softwood lumber (not seasonally adjusted) moderated in March after climbing 5.6% in February. The softwood lumber price index has increased each month of 2018 by an average of 2.9%, compared to 2.3% over the same months last year.

Prices paid for hot-rolled structural steel increased 2.0% in March (NSA) and 7.2% in the first quarter of 2018, marking the largest quarterly increase since Q1 2011. Although increases have been steep of late, the price level remains below its most recent peak in 2015.

The economy-wide PPI increased 0.3% in March, with prices paid for both goods as well as services climbing 0.3%. Prices paid for core goods (i.e. goods excluding food and energy) also rose 0.3%, while the index for final demand less food, energy, and trade services climbed 0.4% for the third consecutive month.

Two major factors in the advance in prices paid for services were a 0.6% increase in the index for transportation, and warehousing services, and a 0.4% increase in the price paid for outpatient care services. The indexes for hospital inpatient care, machinery and equipment wholesaling, cable subscriber services, and airline passenger services also moved higher. In contrast, margins for automotive fuels retailing fell 10.4%.

Most of the increase in the prices paid for goods is attributable to food prices, which advanced 2.2%. In fact, over half of the overall increase in the prices paid for goods can be traced to a 31.5% spike in prices for fresh and dry vegetables (which fell by 27.1% in February). Prices for gasoline fell 3.7%, the second straight monthly decrease.
