

2024 Legislative Agenda & Policy Guide

MISSION

Making the Greater Lansing region the best place to do business in Michigan. The Lansing Regional Chamber works with business leaders, community members, and officials from every level of government to collaboratively influence and support initiatives, legislation, and regional investment that will strengthen and move the Greater Lansing region forward.

- 93 – Graham Filler (R)

FEATURED PRIORITIES

ECONOMIC DEVELOPMENT & JOB CREATION

The Lansing Regional Chamber of Commerce believes efforts to diversify and expand our economy are of primary importance and a top priority. Our specific responsibilities and focus will be business creation, expansion of existing businesses, recruitment of new business, and work force availability. The Chamber will work with private and public partners in supporting realistic and effective economic development.

TALENT & EDUCATION

The Lansing Regional Chamber of Commerce advocates for a well-rounded, quality education that provides individuals the chance to reach their own life goals. We strongly support efforts to adequately fund a seamless, effective, efficient system of K-12 education, including vocational and technical curriculum. In the 21st century it will be imperative that our educational system produces well-prepared future business owners and managers for the entire state and region.

INFRASTRUCTURE

The Lansing Regional Chamber of Commerce believes that we should maintain a high-quality infrastructure network that meets the current and future needs of individual, business, and corporate citizens.

HEALTHCARE ACCESSIBILITY & AFFORDABILITY

The Chamber is focused on promoting effective private sector solutions to our health care challenges that will help control costs, expand access, and improve the quality of care.

PUBLIC SAFETY

The Chamber believes that a unified and aligned leadership from our elected leaders as well as our law enforcement officers is critical towards identifying solutions to provide a safe environment to residents, ensure neighborhoods are safe for families, give confidence to employers that their employees and customers are safe, and to ensure that every visitor to our state's capital city can enjoy the amenities our communities offer safely.

TAXATION | REGULATIONS

The Lansing Regional Chamber of Commerce operates on the basic premise that taxation should fund essential government services and any additional tax should be levied only in special circumstances. We believe budget shortfalls in all levels of government, local governments in particular, should be addressed by reorganizing priorities and reducing spending before tax increases are considered.

HOUSING

The Greater Lansing region is seeing unprecedented economic growth and job creation and we support measures to build more housing at all levels of attainability.

ECONOMIC DEVELOPMENT PROJECTS

Regional public-private projects totaling in \$6.65 billion in new and planned investments, 2020–2024.
