

TESTIMONIAL

Director describes filming in Smithville TX ‘as perfect as it gets’

THANK YOU SMITHVILLE! I can't begin to explain the difference you all made during our production in your perfect little town. You and your team made our experience about as perfect as it gets. Locations were fantastic, talent was 100% believable, and your hospitality was about as great as I've seen in the past twenty years. Sheila is the bomb!

Compliments and congratulations are well deserved. As you know, our business is filled with challenges and problem solving. We have to be precise, efficient and diligent with our resources. Our team loves their jobs and really appreciates it when their tasks are made better. You all were a huge part of that. The efficiencies we found in Smithville allowed us to leave with more great scenes in the can, than usual. Personally, I'm not sure I can work in another place other than Smithville again.

We will be back. I have no doubt Smithville is the model all Texas film friendly towns should study, and learn from. Please let me know if there is anything we can do to help you and your great community attract more projects.

Production doesn't get any better than Smithville, Texas.

Cordially, Tom Nador
