

GRPA MISSION

Support and Promotion of Recreation and Park Agencies within the state of Georgia while encouraging Healthy Lifestyles for our citizens.

WHO WE ARE

Founded in 1945, the Georgia Recreation and Park Association (GRPA) is a dynamic non-profit dedicated to advancing recreation and park industries across Georgia. With over 1,600 members and guided by a 34-member Board of Trustees, GRPA is the state's leading advocate for quality parks, facilities, and programs that enrich local communities and promote healthy lifestyles.

GRPA's diverse membership includes public agencies, private businesses, educational institutions, clinical settings, and citizen advocates—all united in providing exceptional recreation opportunities. We believe that parks and recreation play a vital role in Georgia's economic and social health, offering organized activities that help prevent issues like stress, disease, and juvenile delinquency.
