## The Voice of Minnesota's Engineering Industry

The American Council of Engineering Companies of Minnesota (ACEC/MN) represents over 150 engineering and professional services firms with over 7,500 professionals in Minnesota engaged in a wide range of engineering works that propel Minnesota's economy, enhance and safeguard our quality of life. These works allow Minnesotans to drink clean water, enjoy a healthy life, take advantage of new technologies, attain high economic productivity and travel safely and efficiently. The association's mission is to contribute to Minnesota's prosperity and welfare by advancing the business interests of member firms.

Founded in 1949, ACEC/MN represents members who employ engineers, architects, land surveyors, scientists, and other specialists. Member firms range in size from single registered professional engineers to corporations employing hundreds of professionals in Minnesota.

### 2019 Issues:

- *Investing in Transportation and all Public Infrastructure is Critical to the State's Future Success*
- *A Substantial Bonding Bill is Imperative for Improving and Maintaining our Public Investments*
- *Minnesota Must Address its Critical Workforce Shortage*
- *Invest in Water Infrastructure and Protect Water Resources*
- *Establish Statewide Workplace Standards*
