# What is a Multiple Employer Aggregation Program (MEAP)?

A Multiple Employer Aggregation Program (MEAP) is a qualified retirement plan adopted by multiple employers through their association with the sponsoring organization, which acts as the lead sponsor. The MEAP is designed to gather the plan's important administrative, recordkeeping and fiduciary services to be overseen by a third party, which allows the plan sponsors who participate to outsource many responsibilities that come with running a retirement plan, and often, helps reduce costs.

## Why consider joining a MEAP?

Because every business owner tells us the same thing: They want a retirement plan solution that ...

**Situation:**

They want to focus on their business – they don't want to be a 401(k) expert.

**Solution:**

The MEAP can become their 401(k) department, performing most of the administrative tasks for their plan, including handling their regular contribution files.

**Situation:**

They don't want to be at risk of paying fines or penalties.

**Solution:**

By joining a MEAP, employers can avoid much of the compliance concerns that come with offering their own plan. While their role as plan fiduciary still exists, many specific tasks transition to the program. The employer's ongoing role is to oversee the various parties dedicated to the plan to ensure it operates as expected.

**Situation:**

They don't want to overpay.

**Solution:**

The MEAP delivers more value and services – potentially at similar or less cost than they're likely already paying. And, as plans grow, they're reviewed regularly for price reductions.

# 401(k) responsibilities when you manage your own plan

When you are the plan sponsor, you manage the plan's administrative and fiduciary tasks.

## Plan sponsor duties

- Design plan document
- Maintain qualified status
- Assign and oversee all other plan fiduciaries

## Plan investment fiduciary duties

- Appoint and monitor plan investment fiduciary duties for all other plan fiduciaries
- Produce, maintain and follow an Investment Policy Statement (IPS)
- Select and monitor an investment platform meeting ERISA "prudent person" standards
- Conduct and document quarterly Investment Committee meetings
- Review and document investment returns, fees, expenses and comparisons to peer group
- Monitor the status of all investment options and remove or replace them as appropriate

## Operational plan administrator duties

- Deposit contributions and submit payroll files for upload on a timely basis
- Complete annual ownership and census verification for testing purposes
- Oversee annual census reconciliation with third party administrator (TPA)
- Oversee and manage the annual Form 5500 filing process in conjunction with a TPA
- Determine participant eligibility
- Conduct enrollment and educational meetings
- Address specific participant requests in compliance with the 404(a)(5) participant fee disclosure regulation
- Administer participant loans in compliance with statutory requirements
- Verify termination dates and vesting, and send out participant termination packets
- Administer distribution and rollover requests for terminated employees
- Administer hardship withdrawals in compliance with the hardship rules, included in provisions of the Pension Protection Act (PPA) of 2006
- Review and validate compliance testing
- Send out required year-end notices to participants (that is, safe harbor, summary annual report (SAR) and so forth)
- Send out enrollment packets, including summary plan description (SPD), 404(c) compliance information, Qualified Default Investment Alternative (QDIA) and annual participant fee disclosure 404(a)(5)
- Comply with DOL Regulation Section 2550.404(a)(5) provisions for participant communications, including but not limited to:
  - Notice to participants of intention to comply with 404(c)
  - Description of investment alternatives
  - General description of the investment objectives and risk-and-return characteristics of each alternative
  - Explanation of transaction fees and expenses that affect the participant's account balance
  - Details about the plan fiduciaries
  - Description of annual operating expenses of each designative alternative
  - Copies of prospectuses, financial statements and reports provided to the plan

# 401(k) responsibilities in a group program

Third parties take over administrative tasks and certain fiduciary liabilities on your behalf.

## Initial choices

- Sign initial paperwork agreement
- Select customized plan design options to meet your business needs

## Ongoing duties

- Deposit contributions and submit payroll files for upload on a timely basis
- Periodically monitor the program and any third parties managing administrative and fiduciary tasks to ensure plan provisions are being carefully administered
- Complete your annual ownership and census verification for testing purposes

## Three questions to consider:

- 1 How much responsibility on the first “managing your own plan” list do you really want?
- 2 How much of the liability on the first list do you want to keep?
- 3 How much of the first list does it make sense to outsource, so you can focus more on your business and less on your 401(k)?

Pages 4 and 5 represent the most common plan sponsor responsibilities before and after joining a MEAP. Your responsibilities after joining your program could vary from the illustration above based on the actual services being provided by your program's administrator.

# What you'll experience

A MEAP is designed to free up your time and preserve important flexibility, so you can focus on running your business – and it all starts with the right plan design.

## A tailored plan design that represents your goals and your people

The right plan design is an essential part of meeting retirement goals for your business and your employees. This program allows you to customize a plan to help you do just that.

-  **Eligibility:** Standard eligibility is age 21 and one year of service, but you can work with the program's TPA to select an option that works best for your business.
-  **Vesting:** Vesting refers to the portion of your employer match or profit-sharing account participants are entitled to keep upon termination. You can choose from several options for your plan.
-  **Plan design:** Since the right design is so important, the program's TPA will work with you to determine the plan design that will help you reach your business and retirement plan goals.

Some examples of potential 401(k) plan designs you can select include:

<b>401(k) plan</b>	<ul style="list-style-type: none"> <li>▪ Contributory only</li> </ul>
<b>401(k) with match</b>	<ul style="list-style-type: none"> <li>▪ Safe harbor match</li> <li>▪ Traditional set or discretionary</li> </ul>
<b>401(k) with profit sharing</b>	<ul style="list-style-type: none"> <li>▪ Traditional set or discretionary</li> <li>▪ Safe harbor profit sharing</li> <li>▪ Integrated allocation method</li> <li>▪ Age-weighted allocation</li> <li>▪ New comparability</li> </ul>

In addition to 401(k) plans, the MEAP can also accommodate other types of plans, such as defined benefit, cash balance and money purchase pension plans.

## A single point of contact for your needs

When you join the program, your dedicated account manager will be there for you, working with you to understand your business and your needs. While your plan's information is always available on your customized website, you can rely on your account manager to provide direct service support and answer questions whenever you need it.

## Essential plan data at your fingertips

At Lincoln, we're committed to providing the easy-to-use technology you need to keep your plan running smoothly – meaning transactions must be error-free, with quick turnaround. Technology services and support include:

### Recordkeeping platform

A fully integrated recordkeeping platform delivers quick, accurate and reliable information. The platform will not only support your current recordkeeping and transactional requirements but is constantly enhanced to support your needs well into the future.

### Personalized plan website that makes everything easy

Create an effective strategy and help drive results, all via your personalized website. You can log in from any device for at-a-glance plan details, 24/7.

- Review plan- and employee-specific information
- View automated reports to stay informed
- Access custom and ad hoc reporting
- Schedule reports to keep your plan on track
- Boost employees' retirement readiness scores

## Opportunities to maintain a healthy plan

Making time to review your plan is so important. It's how you get a complete picture of your plan's health and gain visibility into how it's operating. An annual plan review can help you analyze your investment options and historical plan data – and it's easily accessible through our website. You'll get important and objective information to keep you up to date on your plan's performance, and it will also help fiduciaries evaluate and make decisions about the plan's operations and investment options.

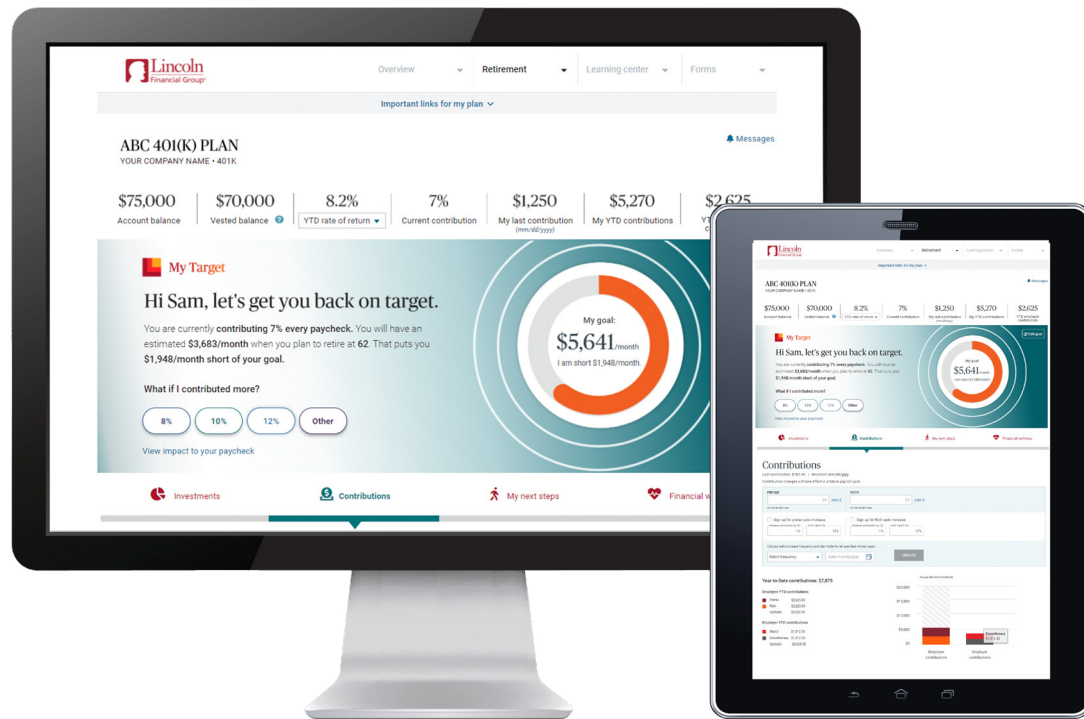

### The annual plan review includes:

- A year-to-date summary of plan activity
- Participation summary and balances
- Plan asset allocation and fund performance
- Web and voice response system usage and service standards
