# JACKSON COUNTY YOUNG PROFESSIONALS

## Value of Engagement

By joining JCYP you can make connections, build networks, advance your profession, give back & do good in your community.

**SPARK Jackson County** is a supportive ecosystem and launchpad for local entrepreneurs, innovators, and remote workers. This initiative is being launched on three fronts:

**Programming:** SPARK Jackson County has developed a suite of programs to spark new innovation, fuel existing businesses, connect people and resources, and provide essential business education. These programs are designed to increase the success rates of our local entrepreneurs and innovators.

**Place:** Part of the SPARK Jackson strategy is to establish a physical coworking space to converge resources with people. The designated physical space will function as a focal point, fostering purposeful interactions, facilitating new discoveries, and providing education for aspiring entrepreneurs.

**Funding:** We are launching a \$250,000 venture fund, called Flywheel Fund Jackson County, raised from local investors, to reinvest in our startup community.

"As an industrial manufacturer, we were not sure exactly how we benefitted from membership in the Jackson County Chamber. It wasn't until I got engaged on the Board that I realized the full benefits of our membership. The fantastic networking events and resources they offer have allowed us to better understand our community and the companies that all go into making Jackson County a great place to live and do business. Our Chamber is continuously innovating ways to attract healthy investment and talent to our County. We highly recommend joining, learning, and growing as part of this great organization."

-Eddie Murphy {National Material Handling, SpaceGuard Products & Chamber Board Chair}
