

## Nemours October 2019 Associate of the Month Winner

### Theresa Tinker, Endo – Diabetes Educator

“Theresa is being nominated for associate of the month because she truly goes above and beyond for our patients and families. Theresa develops impactful relationships with many of our diabetic patients and their families. Many of our patients family members reach out to ask questions of Theresa after hours or on the weekends and she always responds. Theresa partners with Susan and provides diabetes in-services education to the school nurses for several surrounding counties. Theresa is the director for our ADA certification program and worked diligently to ensure that all required documentation was ready and in order for an inspection this year, which they passed with flying colors! Theresa volunteer’s discretionary effort by serving as a camp counselor to work the diabetes camp during the summer so that our patients can enjoy a fun filled week at camp. Theresa does not just go above and beyond for our patients and families but is

willing to assist her co-workers with whatever is asked of her. Theresa is deserving of the Associate of the Month for all of the reasons listed above and many more not listed.”
