

## Emerald Coast Regional Council Seeks Public Input on FL-AL TPO Priorities

The Emerald Coast Regional Council is seeking public input on transportation priorities set by the Florida-Alabama Transportation Planning Organization. The FL-AL TPO reviews the transportation priorities annually for Escambia and Santa Rosa counties in Florida, and Orange Beach and the community of Lillian in Alabama. Residents are asked to complete a brief survey to give their thoughts and opinions to pass on to the FL-AL TPO board in August. **The survey is open now through July 31, 2023.** [Click here to access the survey.](#)

Prioritizing these projects maximizes available resources when determining how to meet the region's greatest needs. These priorities are submitted to the Florida Department of Transportation and the Alabama Department of Transportation for potential funding in the next five years. Projects are selected for funding based upon local priority, funding availability and project timing. There are several categories of funding for transportation projects and each category must be prioritized.
