## A MESSAGE FROM HOLIN

Hi, I'm Holin

I am raising money for Make-A-Wish to help grant wishes for children with critical illnesses with my 4th Annual Holiday Concert! I too am a Wish child and received my wish just a few weeks before I turned 5 years old! My wish was to sing with Kelsea Ballerini and not only was it amazing, but it was also a life-changing wish for me and something I will never forget! Many of you know I was born with 5 major heart defects, including being a single ventricle warrior and I have a rare type of epilepsy from a stroke after one of my four open heart surgeries and deal with too many seizures and too many hospital stays to count! I also now live with a pacemaker and many other health issues, including a paralyzed lung and although my medical journey is far from over I won't and don't let it stop me from singing, praising, and carrying on, and giving back to others! You can find my health story on SavingHolin'sHeart on Facebook or Instagram! You can also find the LINK to join the LIVE concert there as well!
