## ENSAFE EXPANDS WITH NEW PENSACOLA OFFICE

**Memphis, TN, March 15, 2024** – EnSafe is excited to share the opening of our newest Gulf Coast office at 720 Bayfront Parkway, Suite 100, Pensacola, Florida 32502. Our presence has been established to accommodate the growing needs of our multiple federal contracts and will enable us to expand our commercial and industrial environmental and H&S services throughout the Florida panhandle and Gulf Coast.

The office launch and business planning have been spearheaded by Adam Wanta, PG, who is also the local Pensacola Business Lead.

"It is an exciting feeling to be part of this opportunity to support our growth. We are building a great team and I am looking forward to the future," said Wanta.

In addition to Wanta, the Pensacola office will be home to several other EnSafe team members, including Alexandria Adams, Environmental Scientist; Chelsea Brock, Environmental Scientist; Gordon Hicks, Geologist/Environmental Scientist; Chelsey Kipper, Geologist/Environmental Scientist; and Brianna Santallana, Geologist. The Pensacola office is equipped to accommodate additional personnel as workload demands continue to increase.

EnSafe has been providing engineering, environmental, health & safety, and information technology solutions nationally for more than 44 years. With over 390 employees and now 33 locations nationwide, including 17 satellite offices and our Memphis-based corporate headquarters, EnSafe is proud of its continued growth and reputation as one of the country's premier AEC firms.

For more information, visit [www.ensafe.com](http://www.ensafe.com) or contact the Pensacola office at (850) 407-2221. If you would like more information about this topic, please contact Ginny Davis at 865-693-3623 or email at [ggray@ensafe.com](mailto:ggray@ensafe.com).
