

YOU ARE INVITED

The **Equity Project Alliance**, in partnership with **Achieve Escambia**, the **Greater Pensacola Chamber of Commerce**, **Pensacola Young Professionals** and the **Gulf Coast Minority Chamber of Commerce**, is continuing the conversation on its most popular dinner topic – the **Statistical Data Walk**. The data has been updated and covers such areas as Homelessness, Heart Disease Death Rates, Homicide Death Rates by Race, Youth Arrests and Violent Crimes, Racial Equity in Income and more.

The EPA is committed to hosting gatherings to expand community conversations and collaboration. Join the conversation, explore the data and engage in transformative thinking at the next **Dinner of Change on April 9, 2024 at the Museum of Commerce**. Doors open at 5:00 for the Data Walk, followed by a panel presentation with table discussions during dinner. The Dinner of Change is a free event, but reservations are required.
