PROJECT DESCRIPTION

In pursuit of this vision, several noteworthy design elements come into play. The glass mosaic adorning the mirror not only draws attention but also seamlessly extends its allure to the shower niche, creating a harmonious visual thread. Echoing this integration, the book match porcelain tile found in the shower also plays a noteworthy role in forming this cohesive design.

Moreover, the deliberate selection of granite, evocative of serene lakeside landscapes, imparts a touch of nature-inspired elegance to the space. This choice serves as a heartfelt reminder of the tranquil lake nestled in the backyard, infusing the bathroom with a personal connection to the homeowner's environment.

BATHROOM RENOVATION

Embarking on a much-needed journey of revitalization, this bathroom's transformation from its once outdated and bulky state signifies a crucial chapter for its owner.

Previously serving as a rental property, the homeowner embraced the task of rejuvenating what was her father's home, driven by the desire to infuse it with a newfound sense of charm and comfort.

Adding a final touch of sophistication, polished nickel fixture pieces gracefully punctuate the design landscape.

The journey from a neglected past to a revitalized present showcases not only a physical renovation but a transformation of the bathroom's essence.

CLIENT BATHROOM
NEEDS:

- BATHROOM WITH
SHOWER
- HEATED FLOOR
