

Discover the AI Magic for Instant Virtual Staging

Access the Aelo.AI Virtual Staging Platform directly or integrate it into your website to capture more leads

The image shows a mobile app interface for Aelo.AI. At the top, there are three main categories: Picasso Design, Interior Design, and Furnish Space. Below these, there are three featured options:

- Picasso**: Unconstrained AI creativity to decorate. (Icon: Picasso painting)
- Furnish Space**: AI transforms bare and empty spaces. (Icon: Yellow sofa)
- Interior Design**: Customize AI creativity as per your taste. (Icon: Paint palette)

The central part of the app shows a 'Drag and Drop or Click to upload' area with a cloud icon and supported file formats: PNG, JPG, HEIF, HEIC. Below this is a 'Picasso Design' section with a description: 'Let AI Picasso take over to show the reimagined masterpieces. Full transformation of the space including architectural structure changes like walls, windows, image type'. There are two dropdown menus: 'Interior' and 'Space Type' (with 'Select' as the current option). At the bottom is a yellow 'Generate' button.

Aelo's Top Questions, Answered!

How does Aelo.AI work?

Aelo.AI is an AI-powered web app designed to help users visualize and redesign their home in unique and creative ways. Using Artificial Intelligence, Aelo.AI is capable of generating new design ideas every few seconds. This provides an endless variety of spaces, lifestyles, and more for users to explore. Both for personal and professional purposes, Aelo.AI makes the entire design process easier, faster, and cheaper. With this powerful tool, users can access an unlimited number of decorations and redesign ideas right from their fingertips.

Does Aelo.AI work on any device?

Aelo.AI is SaaS based and is accessible on all devices, including PCs, laptops, iOS, MacOS, and Android. No installation is needed - you can just open your web browser (like Chrome, Firefox, or Safari), and immediately have access to unlimited visualization and redesign options.

How easy is it to use Aelo.AI?

Using Aelo.AI is simple and straightforward! Just select an image to upload, select your desired lifestyle design, your room type, and hit the generate the button and you will get an unlimited number of fresh ideas in less than 30 seconds. Behind the scenes, Aelo.AI is utilizing machine learning algorithms and referencing a large database of design patterns and architectural blueprints - but don't worry, the hard part is already done for you! So don't hesitate - get inspired by Aelo.AI today.

What are the Aelo.AI plans?

Starter Plan for \$10/mo
15 transformation credits

Basic Plan for \$50/mo
100 transformation credits

Pro Plan for \$100/mo
1,000 transformation credits

What are Aelo.AI transform credits?

Your subscription comes with a monthly allotment of transformation credits. Here's what you can do with each credit:

Generate 4 unique visualizations for the interior or exterior space type you pick. For example, 4 different kitchen redesigns.

At the start of each billing cycle, your account will renew with a fresh set of credits to use that month. Upgrade your plan anytime if you need more credits.

Can I get more Aelo.AI transform credits?

Yes, sure you can! When you have used up your credits, Aelo.AI will prompt you if you want to add more credits. You can opt for additional credit depending on your monthly subscription. The starter plan adds 15 transformation credits, 100 transformation credits on the Base plan, or 1,000 transformation credits on Pro plan. Or you can wait until your credit refreshes. Please note that when you opt for additional credits during the month the following month will default back to the original transformation credit count, making sure you are not charged for the additional credit you opted for the previous month.
