WELCOME TO

Grove Et Grand Lake

Rich in history and heritage, Grove is a laid-back lakeside community set in the rolling foothills of the Ozark Mountains in Oklahoma's Green Country. Whether planning a vacation or relocation, Grove & Grand Lake will surpass your expectations.

Grove is more than just a great place to visit – it is a caring and friendly community that offers its residents an unparalleled lifestyle. Residents and visitors alike enjoy excellent fishing and water sports on one of the largest lakes in the country. The views are spectacular – especially the colorful sunsets – and the golf is top notch.

Spring brings pelicans, dogwoods, and perfect temperatures to explore the colorful rolling foothills of the area. You can head to the lake for the perfect summer setting for long days on the water, viewing magnificent sunsets from the back of a slow cruising boat enhanced by clear blue skies, clean air and warm temperatures. Fall brings brilliant Ozark foliage colors of crimson, gold and burgundy, brisk morning air, and temperate weather. Later the occasional snows of winter add up to LIVING THE GRAND LIFE in Grove.

FISHING

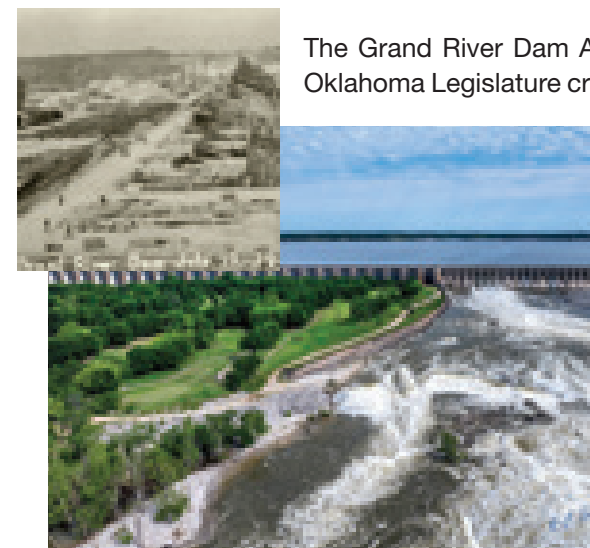

On Grand Lake

Grand Lake O' the Cherokees, more commonly known as Grand Lake, is in far northeastern Oklahoma in the foothills of the Ozark Mountains. The lake, featured in the northeastern loop of the Oklahoma Fishing Trail, was initially filled in the summer of 1940 following the completion of the Pensacola Dam. Most of the water in the lake flows into Oklahoma from east-central Kansas through the Neosho River. The Spring River, at 129 miles long, starts in Missouri and flows through Kansas into Oklahoma where it joins the Neosho at the area known as Twin Bridges. The Elk River's 32-mile stretch begins in Missouri and ends in Oklahoma. A portion of the watershed of the Elk River is in the northwest corner of Arkansas. Grand Lake hosts fishing tournaments from February to November and many use Wolf Creek Park for these activities. For more details on upcoming fishing events, visit the GACC website (www.groveok.org).

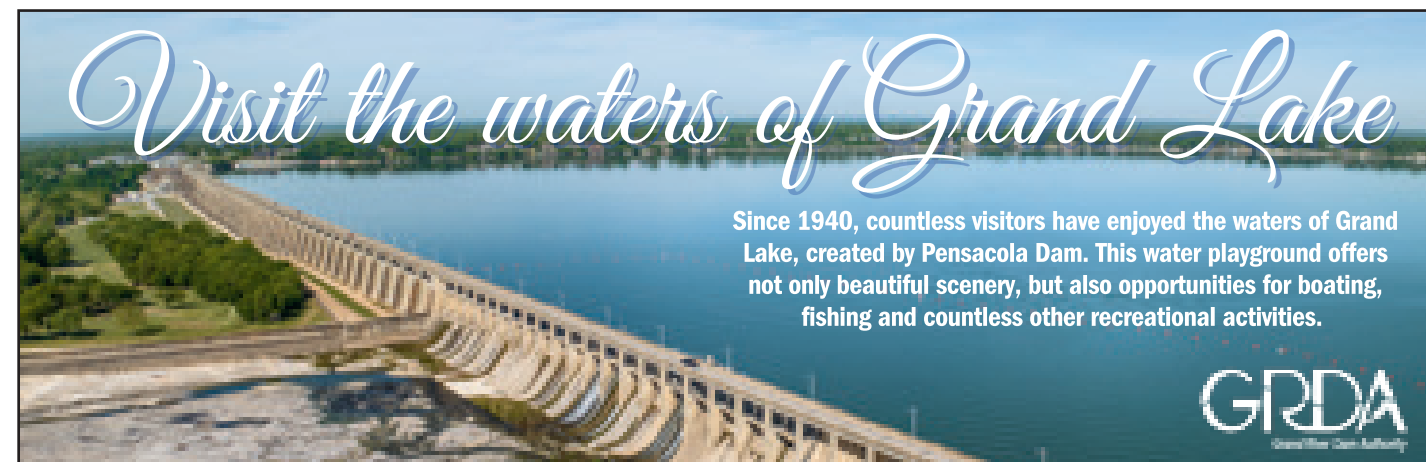

GRAND LAKE History

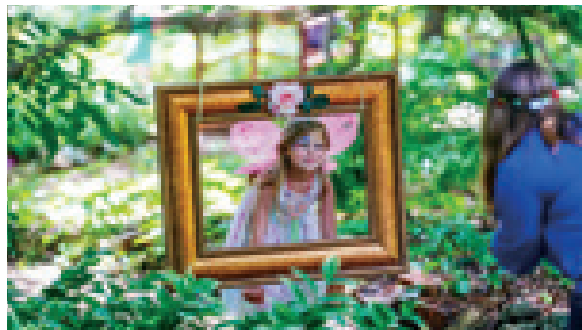

The Grand River Dam Authority (GRDA) and Grand Lake story began in April 1935 when the Oklahoma Legislature created GRDA to be a conservation and reclamation district for the waters of the Grand River. Flowing for approximately 130 miles along the foothills of the Ozarks, the river was ideally suited for hydroelectric facilities and for many years pre-dating GRDA, many visionaries had worked to make a dam on the river a reality. That included Henry Holderman, who is credited with being the first to envision a Grand River Dam, as early as the 1890s.

In 1938, GRDA began construction on Pensacola Dam, utilizing abundant Depression-era laborers, who flocked to the area looking for work. Completed in 1940, the dam is both the longest, continuous multiple arch dam in the world, and Oklahoma's first hydroelectric facility. Featuring iconic arches and art deco elements, the dam is even listed on the National Register of Historic Places.

Its completion also created Grand Lake, a 46,500-surface acre lake that would transform the region from a rugged and rural landscape into one of the Midwest's premiere water recreation destinations. For over 80 years, Grand Lake has been an economic engine serving as the foundation for a thriving recreation and tourism industry in Northeast Oklahoma. With wide open expanses, quiet coves and miles and miles of scenic shorelines framed by the Ozark foothills, Grand Lake provides plenty of space for visitors and residents alike. Whether you come to fish, swim, sail, cruise, float or just enjoy the view, Grand Lake has something for everyone.

GRAND LAKE *Fun!*

Choosing to visit or relocate to Grand Lake will be the best decision ever. The area is truly a perfect blend of natural beauty, recreational opportunities, community spirit, and cultural events that made the region so unique and special. The large amount of assets around the Grand Lake O' the Cherokees region will have you calling the place home in no time. Come experience America's Greatest Lake Community!

SEE Grand Lake

NORTHEAST OKLAHOMA'S REGIONAL HEADQUARTERS FOR RECREATION, RETIREMENT, AND RELAXATION!

The lake spans 46,500 surface acres of water and 1,300 miles of shoreline that curves and curls into sheltered coves then straightens out into long space of immaculate beaches. Grand Lake continues to serve as one of the premier bass fishing lakes in the United States. In addition to bass fishing, anglers flock to northeastern Oklahoma for Grand Lake's population of huge catfish, hybrid stripers, crappies, and bluegill. The lake also has the distinction of being home to more prehistoric paddlefish or spoonbill than anywhere else in the world.

Grand Lake is 66 miles long and winds through the scenic Ozarks. Sailboats come from across the country to experience the lake's predictable winds due to its northeast to southwest orientation. Residents and visitors alike enjoy all types of recreational activities including swimming, water skiing, wakeboarding, paddleboarding, floating pads, boating, and much more. Off the lake, there are plenty of relaxing resorts and lakeside marina restaurants for shoreline entertainment.
