

CONSULTING ENGINEERING FIRMS DESIGN AND DELIVER MINNESOTA'S INFRASTRUCTURE

INFRASTRUCTURE | STABLE INVESTMENTS

- Sustainable, predictable funding tied to long-term needs
- Delivery models that elevate professional engineering judgment
- Streamlined project implementation
- Preservation of local authority pathways
- Bonding focused on public safety and welfare

PROCUREMENT | QUALIFICATIONS OVER PRICE

- Strengthen QBS as the preferred consultant selection method
- Resist drift toward the lowest-cost evaluation models
- Encourage contracts that allocate risk proportionately
- Maintain open, competitive access for qualified firms

LICENSURE | REINFORCE STANDARDS

- Maintain statutory protection
- Improve interstate mobility without lowering standards
- Maintain a clear boundary between licensed and unlicensed practice
- Work with allied organizations to strengthen statutory clarity
