Sunday – November 10, 2024

NEW BUSINESS

(To be submitted and introduced by Delegates only)

Deadline for Submission of New Business: Saturday, October 26, 2024

Introduced by: Madison Kelley

Date: 10/25/2024

Organization: SIUE School of Pharmacy

Subject: Use of Artificial Intelligence in Healthcare (2023)

Motion:

I move to amend 2023 as follows:

IPhA recognizes the increasing role of artificial intelligence in pharmacy practice. Licensed pharmacists are responsible for patient care and outcomes, critically assessing AI recommendations while retaining full accountability for clinical decisions.

IPhA supports the use of artificial intelligence in healthcare limited to the role of gathering data, analyzing trends, and as a clinical assistant tool in the pharmacist clinical decision making and recommendations for therapeutic options for a patient's care.

IPhA opposes the use of artificial intelligence ~~in any way to that~~ replaces or supersedes a pharmacist's or other health-care healthcare provider's scope of practice, duty of care, or patient access to care. ~~practice or delivery and duty of care for a patient.~~

IPhA encourages training for pharmacists, pharmacist extenders, and other healthcare workers and healthcare professionals on how AI systems work, including their limitations, potential for bias, and how to interpret AI recommendations.

Background:

Aligns with the Artificial Intelligence Use in Pharmacy Practice policy passed at the 2024 APhA House of Delegates.
