Message from the President

Home Care Association of Florida

BACK TO BASICS – THE 3 R’S

The speed of change has been fast and furious these past two years. Taking a moment to reflect, I’m so proud of our industry, our Association, and our agencies that have adapted, changed, and persevered—all to ensure our patients and clients were provided much-needed care. How are you intentionally moving forward now?

Review the past with a wide lens. Take a look at all that happened, the new processes added to daily caregiving routines, and the operational and administrative changes that occurred. What does your broad Google Maps view look like?

Reevaluate what you still need after your review. Get down to the Google Maps street view and walk through the processes and changes. As we reenter our “normal,” are they all still necessary, or do they need updating? This reevaluation of specifics is an important determinant.

Reimagine your agency now with a Disney-like approach. If everything was an open book, how would you like it to look, feel, and operate? It’s already occurring within the recruitment piece of operations, ready or not. What other visionary goals do you want to make reality?

Relationships with your field staff, office staff, patients and customers should also be reviewed, reevaluated, and reimaged. The intentional time spent here will reap the greatest rewards. What rituals and recognition are within your agency that resonate with these relationships?

We have made it through the first calendar quarter of 2022. Recalculations are common when results are analyzed. Use the 3 R’s to assist you: review, reevaluate, and reimagine. The Florida Legislature just did this with the bills that passed regarding Medicaid Health Plans and Regions. OASIS-E is on the horizon, and we are in the throes of RCD with the national rollout of VBP not far behind. Look for campaigning to ramp up for the mid-term elections, and support the HCAF-PAC to help our initiatives and causes.

The 3 Basic R’s may have changed since our youth, but sticking to them is still a wise choice.

Intentionally Yours,
Cindy Lavoie

Home Care Association of Florida

EXECUTIVE DIRECTOR

Bobby Lolley, RN

Bobby Lolley, RN, is HCAF's Executive Director. He has worked in the home care industry for 29 years. His home care experience ranges from being a per diem staff nurse providing care to patients in a small rural community, to a regional director for a large national chain. He often says he has done just about every job there is in the home care sector, but still remembers his first home visit: "I was standing there in this little old lady's house and a feeling came over me that I had finally come home — I knew then and there this would be where I would spend the remainder of my professional life." His faith and passion for home care have never wavered since.

Lolley graduated cum laude from the Valdosta State University in 1992 with a Bachelor of Science in nursing.

Smith holds a Bachelor of Science degree in health systems management from the University of Connecticut, and she graduated with distinction from Quinnipiac University with an MBA and a concentration in health care administration.

DIRECTOR OF CLINICAL AND REGULATORY AFFAIRS

Patti Heid, MSPT, COS-C

Patti Heid, MPST, COS-C, is HCAF's Director of Clinical and Regulatory Affairs. She has been a Physical Therapist for over 29 years and has worked in the home care setting for 26 of those years. She believes that nothing can compare to the rapport that one develops with a patient while working with them and their families, in their own homes, helping overcome the "real-life" day-to-day challenges that they face. Over the years, Heid has gained valuable experience by fulfilling many key roles within the home care arena, from field clinician through the management level. All these roles have given her deep abiding respect and admiration for the good that home care providers can achieve.

Heid graduated from St. John's University in New York in 1991 with a Bachelor of Science degree in biology. She obtained her Master of Science in Physical Therapy degree from the University of Miami in 1993. She is active with the Home Care section of the American Physical Therapy Association.

EXCELLENCE IN HOME CARE AWARDS

HCAF's annual Excellence in Home Care Awards honor home care professionals for their commitment to providing quality home care and for their exemplary service to their patients/clients. These individuals don't just represent home care; *they embody it.*

Please consider nominating someone at your organization who has consistently demonstrated outstanding performance in their day-to-day work and made outstanding contributions to home care and those they serve. It only takes a few minutes, but it provides us with the opportunity to celebrate all that is good about the home care industry, as well as honor those who work in it for the right reasons. The recipients of awards will be recognized and celebrated during a special ceremony at HCAF's HomeCareCon Annual Conference & Trade Show in Orlando.

Learn more about the award categories, eligibility requirements, and selection criteria at HomeCareFLA.org/awards. Keep an eye out for HCAF announcements during the spring or early summer for information on how to nominate an individual. To learn more about sponsorship opportunities, contact us at (850) 222-8967.

HOP into Homecare is a

comprehensive orientation and

training app for nurses, therapists,

and other clinicians who provide care

in home settings. The app is available

for both iOS and Android devices and

has its own web-based LMS.

The app offers a streamlined

orientation and training process that

consists of three components: content,

field visits, and competencies. The

content is specifically designed to help

trainees become field ready and is

agency and discipline specific. Field

visits or shadow visits allow trainees to

perform agency- and discipline-specific

tasks independently to gain hands-on

experience. The competencies are also

agency and discipline-specific and

are designed to ensure that trainees

are competent in their roles before

becoming field-ready.

The app caters to different personas,

including trainees, field clinicians or

preceptors, educators, and executives.

Trainees are the new hires who can

access the content and participate

in field visits and competency

assessments. Field clinicians play

the role of preceptor and learner.

As preceptors, they can see all the

new hires they are responsible for

and check off their competencies.

As learners, they can watch content

required by the agency. Educators

can manage the orientation program,

track trainee progress, and make sure

that trainees attend their one-on-one

sessions and complete their field visits.

The educator's dashboard also allows

them to assign modules to new hires.

Executives or directors of the agency

can monitor the overall orientation

program and determine how many

clinicians with specific disciplines will

be field-ready, at what timepoint, with

how much experience. This data can

help them with capacity management.

Associates Alphabetically

Home Care Association of Florida

The app uses data points to track engagement with the content and the number of times a clinician takes the assessment to pass it. If engagement is low and a clinician is taking the assessment multiple times, the educator can have a conversation with them to help them succeed.

Trade & Professional Associations
Originally founded in 2019 by Kunu Kaushal, the Independent Home Care Alliance (IHCA) was created to meet the growing needs and pain points of independent home care agency owners across the nation. No one has truly resolved the pains of operating an agency, and especially over the last several years, we've seen caregiver turnover rates and the demand for care increase significantly with little to no growth in support and resources for independents in the space. Kunu, a longtime veteran of the senior care space, lives by his commitment to help other leaders, all with the hopes of eventually "touching a million lives" (leaders, clients, and caregivers alike). IHCA reformed as a BPO in 2021 for independent home care owners and operators who wish to bolster their organizations through shared backend support. The group also provides an onsite Home Care Institute of Learning and a private forum for owners to discuss operational pains, group purchasing opportunities, and administrative and leadership training for independent leaders.

The Work Opportunity Tax Credit (WOTC) is a federal tax credit that the government provides to private-sector businesses for hiring individuals from nine target groups that have historically faced significant barriers to employment. This government program offers participating companies between \$2,400-\$9,600 per new qualifying hire. Through geographic incentive credits, the federal government has also designated certain economically depressed areas as tax advantage areas, or Empowerment Zones. If your business is located in one of these areas and you employ individuals living in the same area, you can earn credit against your federal tax liability. The WOTC Tax Credit is a dollar-for-dollar tax credit (not a percentage) of your IRS taxes owed. For example, a mid-sized home care agency or staffing firm that hires about 30 new hires per month can expect a WOTC Tax Credit of more than \$250k annually.

HCAF's Public Policy & Advocacy

A central part of HCAF's mission is to advocate for the Florida home care provider community and access to in-home care for patients/clients. HCAF's public policy team is composed of health care advocates who possess over five decades of government affairs experience and are tasked with advancing industry priorities. Our policy staff proposes, monitors, and works to advance state and federal legislation and regulations year-round that benefit home care providers and protect access to in-home care for Floridians.

HCAF works in cooperation with all state and federal government officials and regulatory agencies, including the Florida Agency for Health Care Administration (AHCA) and the federal Centers for Medicare & Medicaid Services (CMS).

HCAF is a partner of the National Association for Home Care & Hospice (NAHC), the Partnership for Quality Home Healthcare, the Partnership for Medicaid Home-Based Care, and is a member of the Florida Palliative Care Coalition.

10 Golden Rules of Lobbying

- 1. Politics is Consumer Driven.** Help your legislator understand why your position is important to his or her constituents. Fight where the legislator lives through grassroots organizations at home.
- 2. Do Your Homework.** Know your stuff. Understand your issue, the bill you support or oppose, and the legislative process before you approach your legislator. Know who the players are, who decides what, and which issues are hot at the moment.
- 3. Information is Power.** The secret is the distribution of information to legislators and their constituents. Be prepared to give the legislator information he or she can use, including what you are hearing from other legislators and from people back home.
- 4. A Little Professionalism Goes a Long Way.** Be credible, honest, and trustworthy. Never threaten, lie, or conceal facts. Stay calm—if you lose your cool, you lose the case.
- 5. Be Positive.** Always make your case without being critical of others' personalities or motives.
- 6. There are No Permanent Friends and No Permanent Enemies.** Don't take your traditional friends for granted. Never write off a legislator just because of party affiliation. Don't make enemies of legislators—you may need them as friends in the future.
- 7. Build a Bond, Not a Gap.** Research things you might have in common with the legislator. Use shared values to create easy, friendly, frequent communication with legislators.
- 8. Be a Partner.** Build coalitions and look for allies among other organizations. Be accessible to legislators and other lobbyists if they have questions or need follow-up information. Become known as a reliable resource.
- 9. Rome Wasn't Built in a Day.** Aim for consensus rather than for a "victory." Be willing to settle for making progress toward your goal, getting the bill passed, and fine-tuning it in future sessions.
- 10. Stay Committed.** Remember—you are the expert! You have a compelling, energizing reason to keep fighting until you get what you need.

Reference

A

Act

A bill that has passed both houses of the legislature. See Law.

Adjournment

When the bill goes to the floor, the committee amendment must be considered before any other amendment may be taken up.

Floor amendment

A proposal offered by one or more legislators for consideration in the respective chamber.

Technical amendment

A non-substantive amendment used to correct errors such as spelling, numbering, incorrect coding or directory language.

Analysis

Sometimes called a bill analysis or staff analysis, it is prepared by the staff of each committee of reference. It summarizes the bill and explains the current law affected by the bill, the likely impact of the bill, any constitutional issues raised by the bill, and committee amendments, if any, are summarized.

Apportionment and redistricting

Legislative action required following each decennial census, fixing the size of each house of the Florida Legislature and drawing legislative and congressional district boundaries to provide representation in the Florida Legislature and the U.S. Congress for the people of the state.

B

A proposed act filed in either house of the legislature. Types and versions of bills include:

Appropriations, Implementing, and Conforming bills

The general appropriations bill authorizes the spending of public money for specific uses, including salaries of public officers and other current expenses of the state. The implementing bill contains provisions necessary to effect the general appropriations bill. These bills are effective for one fiscal year only.

A conforming bill is a bill that amends the Florida Statutes to provide for specific changes in the general appropriations bill.

Claim bill

Committee bill

A bill that is the product of a legislative committee rather than an individual legislator.

Committee Substitute (CS or C1)

A Senate bill going through the committee hearing process sometimes has numerous amendments, or the amendments change the original concept of the bill. In these instances the bill is rewritten and becomes a committee substitute. The next committee of reference may again rewrite the bill, and more than one bill may be combined. The committee substitute continues to carry the identifying number of the original bill filed. A CS/CS or C2 is a Committee Substitute for Committee Substitute.

Companion bill

A bill introduced in one house that is substantially the same and identical as to specific intent and purpose as a bill introduced in the other house. The use of companion bills allows bills in each body to move through the committee process at the same time.

Engrossed bill

(E1, 1st Eng., E2, 2nd Eng., etc.) The version of a measure that incorporates adopted floor amendments. The revision is done in the house of origin and engrossed under the supervision of the Secretary of the Senate or the Clerk of the House.

Enrolled bill (ER)

General bill (SB, HB)

A bill of general statewide interest or whose provisions apply to the entire state.

Memorial (SM, HM)

A measure addressed to an executive agency or another legislative body, usually Congress, which expresses the consensus of the Florida Legislature or urges that certain action be taken on a matter within the jurisdiction of the agency or body to which it is addressed. When both houses adopt the measure, the memorial is signed by the legislative officers and transmitted to the Secretary of State for presentation to the addressee. A memorial is not subject to the approval or veto powers of the Governor, is not subject to constitutional title requirements, and does not have the effect of law.

Proposed Committee Bill (PCB)

A proposal that may represent a mandated review, repeal scheduled by law, or, with the Senate President's prior approval, additional subject of broad committee significance as determined by the committee chair. When the idea is expanded, drafted in bill form, receives a favorable vote by the committee, and filed, it becomes a bill.
