
Lake Roosevelt Forum

- **Established in 1992** as an independent, nonprofit organization serving the communities in and around Lake Roosevelt
- **The Forum** works to foster collaboration and cooperation among many stakeholders and partners
- **Working closely with the Lake's five managing partners**, the Forum plays a central role as a convener and clearinghouse for information
- **State and county agencies** are also critical partners to meet fishery, wildlife, emergency response, cultural resource and other needs
- **Additional partners include** conservation groups, other non-profits, guest services, and the general public living in the area year-round and seasonally

Our Mission

Our mission is to establish a dialog based on trust and respect of all views that seek common ways to protect and preserve the quality of environment and enhance the quality of life as they relate to the lake and regional economies.

Lake Roosevelt Forum Website www.lrf.org

The screenshot shows the homepage of the Lake Roosevelt Forum website. At the top left is the logo for Lake Roosevelt Forum. To its right is a search bar with a magnifying glass icon. Below the logo and search bar is a green navigation bar with the following menu items: Home, Lake Roosevelt, Recreation, Lake Levels, Environment, K-12 Education, News, and Contact. The main content area features a large background image of a lake surrounded by mountains. On the right side of this image is a white box with the text: "EFFECT OF ADOPTING MODERNIZED COLUMBIA RIVER TREATY INTERIM MEASURES". Below this text is a small orange button that says "LEARN MORE". Below the main image is a section titled "Latest News" with a link for "All News". There are three news items listed: "Please Join Us May 21st at the Lake Roosevelt Forum Community Open House", "NPS Press Release: Spring 2025 Prescribed Fire Burning Notice", and "Save the Date - LRF Community Open House, May 21". Each item has a "Full Article" link. At the bottom of the news section is a note: "In addition to news posted here, we also produce printed and eNews. Click here for all news sources and to sign up." Below the news section is a section titled "Lake Roosevelt Recreation Guide" with four small images showing different recreational activities: a map, a forest, a mountain landscape, and a boat on the lake.

Winter 2026

A GREAT YEAR FOR SALMON REINTRODUCTION

The Phase 2 Implementation Plan (P2IP) for salmon reintroduction is making significant progress. Last year, P2IP proponents implemented Chinook and sockeye juvenile outmigration behavior and survival studies using both acoustic and passive integrated transponder (PIT) tags. 2025 was the fourth year of juvenile yearling Chinook studies. In partnership with U.S. Geological Survey (USGS), Douglas Public Utilities District (PUD), and the state of Washington, the Colville Tribes, the Coeur d'Alene Tribe, and the Spokane Tribe reared and released approximately 2,000 Chinook with juvenile salmon acoustic system telemetry (ASATS) tags and 170,000 with PIT tags.

The eggs were sourced from Entiat National Fish Hatchery and reared to the fall parr stage by Douglas PUD at Wells Hatchery. Approximately 45,000 were released as fall parr in three locations in the blocked area and the remaining 120,000 were over-winter acclimated in net pens on Lake Roosevelt before being released at the Coeur d'Alene hatchery facility.
