City Fat Saving Record Falls Under Town and Farm Push

Ever since our government asked town and farm women to save used fats, the record pre-viously set by city women has taken a beating. We must keep up the good work! This country is facing a shortage of 1 billion, 500 mil-lion pounds of fats in domestic supplies, alone. Tons of vital war and home-front supplies requir-

most city folks, so the govern-

ment is depending on us. Save every drop, every scrap. Melt down solid fats. There's never too little to save! Butchers will give you up to 44 and 2 red points a pound. If you have any difficulty, call your Home Dem-

onstration or County Agent. Approved by WFA and OPA. Paid for by Industry.
