

## 2026 Chapter Challenge Clarification

The Chapter Challenge Committee has received a number of questions on this year's 3 Dimensional Fidget challenge. Hopefully the following will clarify the rules.

The fidget should be of a mammal, bird, sea creature, bug or mythical creature.

Examples include

- Mammals – hedgehog, mouse, bear, dog, dinosaurs. This category also includes lizards, snakes and unstuffed fidgets, such as worry worms.
- Birds - chicken, duck, parrot.
- Sea Creatures - whales, fish, octopus, crabs, frog, jelly fish, stingray, turtles.
- Bugs – bumble bee, ladybug, spider.
- Mystical creatures – unicorns, dragons.

Polyester fiberfill is generally used to stuff a fidget body. The fidget's stuffing can also be large beads or marbles that move. Bubble wrap or items that make a sound are also used.

Unstuffed fidgets take less effort to make than those that are stuffed. That being the case, a fidgets whose body is not stuffed will be considered 1/5<sup>th</sup> of a fidget. That is, 5 unstuffed fidgets will be counted as 1 stuffed fidget. The tally sheet will be revised so both the total number of stuffed and unstuffed fidgets made are reported.

Please contact the Chapter Challenge Committee at [ChapterChallenge@crochet.org](mailto:ChapterChallenge@crochet.org) if you need any clarification or have questions.
