

ARIZONA

AZ Const., Art. II, Section 8.1 added. (The ballot measure passed November 2024)

8.1. Fundamental right to abortion; definitions

A. Every individual has a fundamental right to abortion, and the state shall not enact, adopt or enforce any law, regulation, policy or practice that does any of the following:

1. Denies, restricts or interferes with that right before fetal viability unless justified by a compelling state interest that is achieved by the least restrictive means.
2. Denies, restricts or interferes with an abortion after fetal viability that, in the good faith judgment of a treating health care professional, is necessary to protect the life or physical or mental health of the pregnant individual.
3. Penalizes any individual or entity for aiding or assisting a pregnant individual in exercising the individual's right to abortion as provided in this section.

B. For the purposes of this section:

1. "Compelling state interest" means a law, regulation, policy or practice that meets both of the following:
 - (a) Is enacted or adopted for the limited purpose of improving or maintaining the health of an individual seeking abortion care, consistent with accepted clinical standards of practice and evidence-based medicine.
 - (b) Does not infringe on that individual's autonomous decision making.
2. "Fetal viability" means the point in pregnancy when, in the good faith judgment of a treating health care professional and based on the particular facts of the case, there is a significant likelihood of the fetus's sustained survival outside the uterus without the application of extraordinary medical measures.
3. "State" means this state, any agency of this state or any political subdivision of this state.

H.B 2677 repealed § 13-3603 (1864 abortion ban in all cases except to save the life of the woman), Arizona Revised Statutes, Relating to Family Offenses (May 2, 2024) but does not go into effect until 90 days after legislature adjourns.

But see, *Planned Parenthood Ariz. v. Mayes and Hazelrigg*, CV -23-0005, Attorney General's Motion to Stay Issuance of Mandate, requesting 90 days to stay issuance of Court's mandate

(enforcement of the 1864 abortion ban, § 13-3603), allowed. (May 13, 2024). The stay is in effect through and including August 12, 2024. On June 15, 2024, the Arizona State Legislature adjourned and HB 2677 (repealing § 13-3603) became effective.

See also, *Isaacson v. State*, No. CV 2022-013091 (Maricopa Cnty. Super. Ct.), prohibits enforcement of § 13-3603 until 45 days after the Arizona Supreme Court's mandate in *Planned Parenthood Ariz. v. Mayes and Hazelrigg*, No. CV-23-0005-PR (below).

Planned Parenthood Ariz. V. Mayes and Hazelrigg, No. CV-23-0005-PR (April 9, 2024), Arizona Supreme Court vacated Appeals Court judgement (354 Ariz. 401, 2022). The Arizona Supreme Court held that § 36-2322 (preventing a physician from performing an abortion after 15 weeks gestation) does not provide authority to repeal or restrict § 13-3603 (1864 abortion ban in all cases except to save the life of the woman. "...physicians are now on notice that all abortions, except those necessary to save a woman's life, are illegal, see § 13-3603, and that additional criminal and regulatory sanctions may apply to abortions performed after fifteen weeks' gestation, see §§ 36-2322, -2324, -2325. Physicians are tasked with otherwise comporting their conduct with Title 36's requirements..." (Opinion at p.23). Enforcement of § 13-3603 is stayed for fourteen calendar days from filing date of the opinion.

Planned Parenthood Ariz., Inc. v. Brnovich, No. 2 CA-CV 2022-0116, 2022 Ariz. App. LEXIS 390 (App. Dec. 30, 2022) ("a licensed physician who performs an elective abortion in conformity with more recent statutes in Title 36 is not subject to prosecution under Ariz. Rev. Stat. § 13-3603..."). Arizona's recent abortion law bans abortion performed by a physician beyond 15 weeks gestation absent a medical emergency.

Executive Order 2023-11

...NOW, THEREFORE, I, Katie Hobbs, Governor of the State of Arizona, by virtue of the power vested in me by the Arizona Constitution and the laws of this State, hereby order and direct as follows:

1. **Centralizing Authority over Abortion-Related Criminal Prosecutions.** To the extent permissible under Arizona law, the Attorney General shall assume all duties with regard to any criminal prosecution of a medical provider or other entity or individual that is pending or brought in the future by the county attorney of any county in this State for violation of any State law restricting or prohibiting abortion care including, without limitation, A.R.S. § 13-3603 and provisions in Title 36, Chapter 23.
2. **Restrictions on Investigative Assistance.** Unless required pursuant to a court order or Arizona or federal law, no State Agency shall provide information, data, or investigative assistance or otherwise use any State resources in furtherance of an investigation or proceeding initiated in or by another state that seeks to impose criminal or civil liability or professional sanction upon a person or entity for conduct related to providing, assisting, seeking, or obtaining reproductive healthcare that would not be punishable under Arizona law.
 1. Notwithstanding this provision, a State Agency may provide information or assistance or otherwise use State resources in connection with such an investigation or proceeding in response to a written request from the subject of the investigation or proceeding.
3. **Restrictions on Extraditions.** To the extent permissible under Arizona and federal law, my Administration shall decline any request from the executive authority of another state for the arrest, surrender, or extradition of any person charged with a criminal violation of a law where the alleged violation relates to the provision of, assistance with, securing of, or

receipt of reproductive healthcare, unless the acts forming the basis of the prosecution of the crime charged would also be punishable as a criminal offense under Arizona law.

4. Advisory Council on Protecting Reproductive Freedom. The Governor’s Advisory Council on Protecting Reproductive Freedom (the “Council”) is created to make recommendations that expand access to sexual and reproductive health care in Arizona. The Council should consider, but is not limited to, expanding access to family planning and reproductive health resources, analyzing the existing regulatory and enforcement framework to suggest improvements, and addressing disparities to improve the health of Arizona’s communities.
 1. The Council Chair and members shall be appointed by the Governor and shall serve without compensation at the pleasure of the Governor. Membership shall be representative of the medical, social service, public health, and advocacy communities, and composition should reflect the diversity of Arizona’s communities, including Indigenous, rural, and LGBTQ communities.
5. For the purposes of this Executive Order, the term “State Agency” shall include, without limitation, all executive departments, agencies, offices, and all State boards and commissions and any employee, officer, or other person acting on their behalf, except for: (a) any State agency that is headed by a single elected State official; (b) the Corporation Commission; and (c) any board or commission established by ballot measure during or after the November 1998 general election.
6. This Executive Order shall not confer any legal rights or remedies upon any person and shall not be used as a basis for legal challenges to any action or inaction of a State Agency, officer, employee, or agent thereof.
7. If any provision of this Executive Order or its application to any person or circumstance is held invalid by any court of competent jurisdiction, such invalidity does not affect any other provision or application of this Executive Order which can be given effect without the invalid provision or application. To achieve this purpose, the provisions of this Executive Order are declared to be severable.
8. This Executive Order shall take effect immediately upon signature, and shall remain in effect until repealed, replaced, or rescinded by future Executive Order. This Executive Order shall be reviewed no later than June 24, 2024 to determine appropriate action for its continuance, modification, or elimination.

2. "ATTEMPT TO PERFORM OR INDUCE AN ABORTION" MEANS TO DO OR TO OMIT DOING ANYTHING THAT, UNDER THE CIRCUMSTANCES AS THE PHYSICIAN BELIEVES THEM TO BE, IS AN ACT OR OMISSION THAT CONSTITUTES A SUBSTANTIAL STEP IN A COURSE OF CONDUCT PLANNED TO CULMINATE IN THE PERFORMANCE OR INDUCTION OF AN ABORTION IN VIOLATION OF THIS ARTICLE.

THE ATTORNEY GENERAL MAY BRING AN ACTION IN LAW OR EQUITY TO ENFORCE THIS ARTICLE ON BEHALF OF THE DIRECTOR OF THE DEPARTMENT,

THE ARIZONA MEDICAL BOARD OR THE BOARD OF OSTEOPATHIC EXAMINERS IN
MEDICINE AND SURGERY.

Sec. 2. Construction

This act does not:

1. Create or recognize a right to abortion or alter generally accepted medical standards. The Legislature does not intend this act to make lawful an abortion that is currently unlawful.
2. Repeal, by implication or otherwise, section 13-3603, Arizona Revised Statutes, or any other applicable state law regulating or restricting abortion.

Sec. 3. Legislative intent

A. The Legislature makes the following findings of fact and incorporates them herein by reference:

1. The United States is one of only six nations in the world that allows nontherapeutic or elective abortion-on-demand after the twentieth week of gestation. In fact, fully seventy-five percent of all nations do not allow abortion after twelve weeks' gestation, except in most instances to save the life or to preserve the physical health of the mother.

2. Medical and other authorities now know more about human prenatal development than ever before, including that:

(a) Between five and six weeks' gestation, an unborn human being's heart begins beating.

(b) An unborn human being begins to move about in the womb at approximately eight weeks' gestation.

(c) At nine weeks' gestation, all basic physiological functions are present. Teeth and eyes are present, as well as external genitalia.

(d) An unborn human being's vital organs begin to function at ten weeks' gestation. Hair, fingernails and toenails also begin to form.

(e) At eleven weeks' gestation, an unborn human being's diaphragm is developing, and he or she may even hiccup. The unborn human being is beginning to move about freely in the womb.

(f) At twelve weeks' gestation, an unborn human being can open and close his or her fingers, starts to make sucking motions and senses stimulation from the world outside the womb.

Importantly, the unborn human being has taken on "the human form" in all relevant aspects. *Gonzales v. Carhart*, 550 U.S. 124, 160 (2007).

3. The United States Supreme Court has long recognized that this state has an "important and legitimate interest in protecting the potentiality of human life," *Roe v. Wade*, 410 U.S. 113, 162

(1973), and specifically that this state "has an interest in protecting the life of the unborn." *Planned Parenthood of Southeastern Pennsylvania v. Casey*, 505 U.S. 833, 873 (1992).

4. The majority of abortion procedures performed after fifteen weeks' gestation are dilation and evacuation procedures that involve the use of surgical instruments to crush and tear the unborn human being apart before removing the pieces of the dead human being from the womb. The Legislature finds that the intentional commission of such acts for nontherapeutic or elective reasons is a barbaric practice, dangerous for the maternal patient and demeaning to the medical profession.

5. Most obstetricians and gynecologists practicing in this state do not offer or perform nontherapeutic or elective abortions. Even fewer offer or perform the dilation and evacuation abortion procedure even though it is within their scope of practice.

6. This state also has "legitimate interests from the outset of pregnancy in protecting the health of women." *Planned Parenthood of Southeastern Pennsylvania v. Casey*, 505 U.S. 833, 847 (1992), as the "medical, emotional, and psychological consequences of abortion are serious and can be lasting...." *H.L. v. Matheson*, 450 U.S. 398, 411 (1981).

7. Abortion carries significant physical and psychological risks to the maternal patient and these physical and psychological risks increase with gestational age. Specifically, in abortions performed after eight weeks' gestation, the relative physical and psychological risks escalate exponentially as gestational age increases. L. Bartlett et al., Risk factors for legal induced abortion mortality in the United States, *OBSTETRICS AND GYNECOLOGY* 103(4):729 (2004).

8. Importantly, as the second trimester progresses, in the vast majority of uncomplicated pregnancies, the maternal health risks of undergoing an abortion are greater than the risks of carrying a pregnancy to term.

9. Medical complications from dilation and evacuation abortions include pelvic infection, incomplete abortions (retained tissue), blood clots, heavy bleeding or hemorrhage, laceration, tear or other injury to the cervix, puncture, laceration, tear or other injury to the uterus, injury to the bowel or bladder, depression, anxiety, substance abuse and other emotional or psychological problems. Further, in abortions performed after fifteen weeks' gestation, there is a higher risk of requiring a hysterectomy, other reparative surgery or blood transfusion.

B. This Legislature intends through this act and any rules and policies adopted hereunder, to restrict the practice of nontherapeutic or elective abortion to the period up to fifteen weeks of gestation.

Sec. 4. Right of intervention

The Legislature may appoint one or more of its members to intervene as a matter of right in any case in which the constitutionality or enforceability of this act is challenged.

Sec. 5. Severability

If a provision of this act or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of the act that can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Title 13 Criminal Codes

Chapter 36 Family Offenses (§§ 13-3601 -13-3625)

13-3603.01. Partial-birth abortions; classification; civil action; definitions

A. Any physician who knowingly performs a partial-birth abortion and thereby kills a human fetus is guilty of a class 6 felony and shall be fined under this title or imprisoned not more than two years, or both.

B. This section does not apply to a partial-birth abortion that is necessary to save the life of a mother whose life is endangered by a physical disorder, physical illness or physical injury, including a life-endangering physical condition caused by or arising from the pregnancy itself.

C. The father of the fetus if married to the mother at the time she receives a partial-birth abortion procedure and the maternal grandparents of the fetus if the mother is not at least eighteen years of age at the time of the partial-birth abortion may bring a civil action to obtain appropriate relief unless the pregnancy resulted from the plaintiff's criminal conduct or the plaintiff consented to the partial-birth abortion. Relief pursuant to this subsection includes the following:

1. Money damages for all injuries, psychological and physical, resulting from the violation of this section.
2. Statutory damages in an amount equal to three times the cost of the partial-birth abortion.

D. This section shall not subject a woman upon whom a partial-birth abortion is performed to any criminal prosecution or civil liability.

E. A defendant who is accused of an offense under this section may seek a hearing before the Arizona medical board if the defendant is licensed pursuant to title 32, chapter 13 or the Arizona board of osteopathic examiners in medicine and surgery if the defendant is licensed pursuant to

title 32, chapter 17 on whether the physician's conduct was necessary to save the life of the mother whose life was endangered by a physical disorder, physical illness or physical injury, including a life-endangering physical condition caused by or arising from the pregnancy itself. The findings on that issue are admissible, in the court's discretion, on that issue at the trial of the defendant. On a motion of the defendant, the court shall, in its discretion, delay the beginning of the trial for not more than thirty days to permit a hearing to take place.

F. For the purposes of this section:

1. "Partial-birth abortion" means an abortion in which the person performing the abortion does both of the following:

(a) Deliberately and intentionally vaginally delivers a living fetus until, in the case of a headfirst presentation, the entire fetal head is outside the body of the mother or, in the case of breech presentation, any part of the fetal trunk past the naval is outside the body of the mother for the purpose of performing an overt act that the person knows will kill the partially delivered living fetus.

(b) Performs the overt act, other than completion of delivery, that kills the partially delivered living fetus.

2. "Physician" means a doctor of medicine or a doctor of osteopathy who is licensed pursuant to title 32, chapter 13 or 17 or any other individual legally authorized by this state to perform abortions. Any individual who is not a physician or who is not otherwise legally authorized by this state to perform abortions but who nevertheless directly performs a partial-birth abortion shall be subject to this section.

A.R.S. § 13-3603.01

13-3603.02. Abortion; sex and race selection; genetic abnormality; injunctive and civil relief; failure to report; definitions

A. Except in a medical emergency, a person who knowingly does any of the following is guilty of a class 6 felony:

1. Performs an abortion knowing that the abortion is sought based on the sex or race of the child or the race of a parent of that child.
2. Performs an abortion knowing that the abortion is sought solely because of a genetic abnormality of the child.

B. A person who knowingly does either of the following is guilty of a class 3 felony:

1. Uses force or the threat of force to intentionally injure or intimidate any person for the purpose of coercing a sex-selection or race-selection abortion or an abortion because of a genetic abnormality of the child.
2. Solicits or accepts monies to finance a sex-selection or race-selection abortion or an abortion because of a genetic abnormality of the child.

C. The attorney general or the county attorney may bring an action in superior court to enjoin the activity described in subsection A or B of this section.

D. The father of the unborn child who is married to the mother at the time she receives a sex-selection or race-selection abortion or an abortion because of a genetic abnormality of the child, or, if the mother has not attained eighteen years of age at the time of the abortion, a maternal grandparent of the unborn child, may bring a civil action on behalf of the unborn child to obtain appropriate relief with respect to a violation of subsection A or B of this section. The court may award reasonable attorney fees as part of the costs in an action brought pursuant to this subsection. For the purposes of this subsection, "appropriate relief" includes monetary damages for all injuries, whether psychological, physical or financial, including loss of companionship and support, resulting from the violation of subsection A or B of this section.

E. A physician, physician's assistant, nurse, counselor or other medical or mental health professional who knowingly does not report known violations of this section to appropriate law enforcement authorities shall be subject to a civil fine of not more than \$10,000.

F. A woman on whom a sex-selection or race-selection abortion or an abortion because of a child's genetic abnormality is performed is not subject to criminal prosecution or civil liability for any violation of this section or for a conspiracy to violate this section.

G. For the purposes of this section:

1. "Abortion" has the same meaning prescribed in section 36-2151.

2. "Genetic abnormality":

(a) Means the presence or presumed presence of an abnormal gene expression in an unborn child, including a chromosomal disorder or morphological malformation occurring as the result of abnormal gene expression.

(b) Does not include a lethal fetal condition. For the purposes of this subdivision, "lethal fetal condition" has the same meaning prescribed in section 36-2158.

3. "Medical emergency" has the same meaning prescribed in section 36-2151.

13-3605. Advertising to produce abortion or prevent conception; punishment

A person who willfully writes, composes or publishes a notice or advertisement of any medicine or means for producing or facilitating a miscarriage or abortion, or for prevention of conception, or who offers his services by a notice, advertisement or otherwise, to assist in the accomplishment of any such purposes, is guilty of a misdemeanor.

36-2151. Definitions

In this article, unless the context otherwise requires:

1. "Abortion" means the use of any means to terminate the clinically diagnosable pregnancy of a woman with knowledge that the termination by those means will cause, with reasonable likelihood, the death of the unborn child. Abortion does not include birth control devices, oral contraceptives used to inhibit or prevent ovulation, conception or the implantation of a fertilized ovum in the uterus or the use of any means to save the life or preserve the health of the unborn child, to preserve the life or health of the child after a live birth, to terminate an ectopic pregnancy or to remove a dead fetus.

2. "Auscultation" means the act of listening for sounds made by internal organs of the unborn child, specifically for a heartbeat, using an ultrasound transducer and fetal heart rate monitor.

3. "Bodily remains" means the physical remains, corpse or body parts of an unborn child who has been expelled or extracted from his or her mother through abortion.

4. “Conception” means the fusion of a human spermatozoon with a human ovum.
5. “Final disposition” has the same meaning prescribed in section 36-301.
6. “Genetic abnormality” has the same meaning prescribed in section 13-3603.02.
7. “Gestational age” means the age of the unborn child as calculated from the first day of the last menstrual period of the pregnant woman.
8. “Health professional” has the same meaning prescribed in section 32-3201.
9. “Medical emergency” means a condition that, on the basis of the physician’s good faith clinical judgment, so complicates the medical condition of a pregnant woman as to necessitate the immediate abortion of her pregnancy to avert her death or for which a delay will create serious risk of substantial and irreversible impairment of a major bodily function.
10. “Medication abortion” means the use of any medication, drug or other substance that is intended to cause or induce an abortion.
11. “Physician” means a person who is licensed pursuant to title 32, chapter 13 or 17.

Surgical abortion does not include the use of any means to increase the probability of a live birth, to preserve the life or health of the child after a live birth, to terminate an ectopic pregnancy or to remove a dead fetus. Surgical abortion does not include patient care incidental to the procedure.

Ariz. Rev. Stat. § 36-2151 (LexisNexis, Lexis Advance through all 2022 legislation, including the 55th Legislature’s 2nd Regular session)

36-2152. Parental consent; exception; hearings; time limits; violations; classification; civil relief; statute of limitations

A. In addition to the other requirements of this chapter, a person shall not knowingly perform an abortion on a pregnant unemancipated minor unless the attending physician has secured the written and notarized consent from one of the minor's parents or the minor's guardian or conservator or unless a judge of the superior court authorizes the physician to perform the abortion pursuant to subsection B of this section. Notwithstanding section 41-319, the notarized statement of parental consent and the description of the document or notarial act recorded in the notary journal are confidential and are not public records.

B. A judge of the superior court, on petition or motion, and after an appropriate hearing, shall authorize a physician to perform the abortion if the judge determines that the pregnant minor is mature and capable of giving informed consent to the proposed abortion. If the judge determines that the pregnant minor is not mature or if the pregnant minor does not claim to be mature, the judge shall determine whether the performance of an abortion on her without the consent from one of her parents or her guardian or conservator would be in her best interests and shall authorize a physician to perform the abortion without consent if the judge concludes that the pregnant minor's best interests would be served.

C. If the pregnant minor claims to be mature at a proceeding held pursuant to subsection B of this section, the minor must prove by clear and convincing evidence that she is sufficiently mature and capable of giving informed consent without consulting her parent or legal guardian based on her experience level, perspective and judgment. In assessing the pregnant minor's experience level, the court may consider, among other relevant factors, the minor's age and experiences working outside the home, living away from home, traveling on her own, handling personal finances and making other significant decisions. In assessing the pregnant minor's perspective, the court may consider, among other relevant factors, what steps the minor took to explore her options and the extent to which she considered and weighed the potential consequences of each option. In assessing the pregnant minor's judgment, the court may consider, among other relevant factors, the minor's conduct since learning of her pregnancy and her intellectual ability to understand her options and to make an informed decision.

D. The pregnant minor may participate in the court proceedings on her own behalf. The court shall appoint a guardian ad litem for her. The court shall advise her that she has the right to court-appointed counsel and, on her request, shall provide her with counsel unless she appears through private counsel or she knowingly and intelligently waives her right to counsel.

E. Proceedings in the court under this section are confidential and have precedence over other pending matters. Members of the public shall not inspect, obtain copies of or otherwise have access to records of court proceedings under this section unless authorized by law. A judge who conducts proceedings under this section shall make in writing specific factual findings and legal conclusions supporting the decision and shall order a confidential record of the evidence to be maintained, including the judge's own findings and conclusions. The minor may file the petition using a fictitious name. For the purposes of this subsection, public does not include judges, clerks, administrators, professionals or other persons employed by or working under the supervision of the court or employees of other public agencies who are authorized by state or federal rule or law to inspect and copy closed court records.

F. The court shall hold the hearing and shall issue a ruling within forty-eight hours, excluding weekends and holidays, after the petition is filed. If the court fails to issue a ruling within this time period, the petition is deemed to have been granted and the consent requirement is waived.

G. An expedited confidential appeal is available to a pregnant minor for whom the court denies an order authorizing an abortion without parental consent. The appellate court shall hold the hearing and issue a ruling within forty-eight hours, excluding weekends and holidays, after the petition for appellate review is filed. Filing fees are not required of the pregnant minor at either the trial or the appellate level.

H. Parental consent or judicial authorization is not required under this section if either:

1. The pregnant minor certifies to the attending physician that the pregnancy resulted from sexual conduct with a minor by the minor's parent, stepparent, uncle, grandparent, sibling, adoptive parent, legal guardian or foster parent or by a person who lives in the same household with the minor and the minor's mother. The physician performing the abortion shall report the sexual conduct with a minor to the proper law enforcement officials pursuant to section 13-3620 and shall preserve and forward a sample of the fetal tissue to these officials for use in a criminal investigation.

2. The attending physician certifies in the pregnant minor's medical record that, on the basis of the physician's good faith clinical judgment, the pregnant minor has a condition that so complicates her medical condition as to necessitate the immediate abortion of her pregnancy to avert her death or for which a delay will create serious risk of substantial and irreversible impairment of major bodily function.

I. A person who performs an abortion in violation of this section is guilty of a class 1 misdemeanor. A person who intentionally causes, aids or assists a minor in obtaining an abortion in violation of this section is guilty of a class 1 misdemeanor. A person is not subject to any liability under this section if the person establishes by written evidence that the person relied on evidence sufficient to convince a careful and prudent person that the representations of the pregnant minor regarding information necessary to comply with this section are true.

J. In addition to other remedies available under the common or statutory law of this state, one or both of the minor's parents or the minor's guardian may bring a civil action in the superior court in the county in which the parents or the guardian resides to obtain appropriate relief for a violation of this section, unless the pregnancy resulted from the criminal conduct of the parent or guardian. The civil action may be based on a claim that failure to obtain consent was a result of simple negligence, gross negligence, wantonness, wilfulness, intention or any other legal standard of care. The civil action may be brought against the person who performs the abortion in violation of this section and any person who causes, aids or assists a minor to obtain an abortion without meeting the requirements of this section. Relief pursuant to this subsection includes the following:

1. Money damages for all psychological, emotional and physical injuries that result from the violation of this section.

2. Statutory damages in an amount equal to \$5,000 or three times the cost of the abortion, whichever is greater.
3. Reasonable attorney fees and costs.

K. A civil action brought pursuant to this section must be initiated within six years after the violation occurred.

L. The consent required by this section must be obtained on a form prescribed by the department of health services. At a minimum, the form must:

1. List the possible medical risks that may occur with any surgical, medical or diagnostic procedure, including the potential for infection, blood clots, hemorrhage, allergic reactions and death.
2. List the possible medical risks that may occur with a surgical abortion, including hemorrhage, uterine perforation, sterility, injury to the bowel or bladder, a possible hysterectomy as a result of a complication or injury during the procedure and failure to remove the unborn child that may result in an additional procedure.
3. List the possible medical risks that may occur with a medication abortion, including hemorrhage, infection, failure to remove the unborn child that may result in an additional procedure, sterility and the possible continuation of the pregnancy.
4. Require the pregnant minor's and the pregnant minor's parent's initials on each page of the form and a full signature on the final page of the form.
5. Include a space for the notary's signature and seal on the final page of the form.

M. The physician must maintain the form in the pregnant minor's records for seven years after the date of the procedure or five years after the date of the minor's maturity, whichever is longer.

4. The woman certifies in writing before the abortion that the information required to be provided pursuant to paragraphs 1 and 2 of this subsection has been provided.

5. In the case of a surgical abortion, if the woman desires to exercise her right to determine final disposition of bodily remains, the woman indicates in writing her choice for the location and method of final disposition of bodily remains

B. If a woman has taken mifepristone as part of a two-drug regimen to terminate her pregnancy, has not yet taken the second drug and consults an abortion clinic questioning her decision to terminate her pregnancy or seeking information regarding the health of her fetus or the efficacy of mifepristone alone to terminate a pregnancy, the abortion clinic staff shall inform the woman that the use of mifepristone alone to end a pregnancy is not always effective and that she should immediately consult a physician if she would like more information.

C. If a medical emergency compels the performance of an abortion, the physician shall inform the woman, before the abortion if possible, of the medical indications supporting the physician's judgment that an abortion is necessary to avert the woman's death or to avert substantial and irreversible impairment of a major bodily function.

D. The department of health services shall establish and shall annually update a website that includes a link to a printable version of all materials listed on the website. The materials must be written in an easily understood manner and printed in a typeface that is large enough to be clearly legible. The website must include all of the following materials:

6. Information that is designed to inform the woman of the probable anatomical and physiological characteristics of the unborn child at two-week gestational increments from fertilization to full term, including pictures or drawings representing the development of unborn children at two-week gestational increments and any relevant information on the possibility of the unborn child's survival. The pictures or drawings must contain the

dimensions of the unborn child and must be realistic and appropriate for each stage of pregnancy. The information provided pursuant to this paragraph must be objective, nonjudgmental and designed to convey only accurate scientific information about the unborn child at the various gestational ages.

7. Objective information that describes the methods of abortion procedures commonly employed, the medical risks commonly associated with each procedure, the possible detrimental psychological effects of abortion and the medical risks commonly associated with carrying a child to term.

8. Information explaining the efficacy of mifepristone taken alone, without a follow-up drug as part of a two-drug regimen, to terminate a pregnancy and advising a woman to immediately contact a physician if the woman has taken only mifepristone and questions her decision to terminate her pregnancy or seeks information regarding the health of her fetus.

Title 36 Public Health and Safety (Chs. 1 — 41), Chapter 23 Protection of Fetus or Embryo (Arts. 1 — 3), Article 3. Gestational Limit on Abortion (§§ 36-2321 — 36-2326)

Article 1. General Provisions

36-2301. Duty to promote life of fetus or embryo delivered alive; rules; judicial enforcement; civil action; damages; definitions

A. If an abortion is performed and a human fetus or embryo is delivered alive, it is the duty of any physician performing such an abortion and any additional physician in attendance as required by section 36-2301.01 to see that all available means and medical skills are used to promote, preserve and maintain the life of such a fetus or embryo.

B. If an abortion is performed and a human fetus or embryo is delivered alive, the physician performing the abortion shall document and report to the department of health services the measures the physician performed to maintain the life of the fetus or embryo. If an abortion is performed and a human fetus or embryo with a lethal fetal condition is delivered alive, the physician performing the abortion shall also document and report to the department of health services the specific lethal fetal condition that was diagnosed before the performance of the abortion and that was confirmed by an examination performed after the human embryo or fetus was delivered alive.

C. Before an abortion of a human fetus or embryo diagnosed with a lethal fetal condition, the physician performing the abortion must comply with the requirements of section 36-2158,

subsection A and shall also inform the woman, orally and in person, that if the fetus or embryo is delivered alive, the diagnosis must be confirmed after the delivery and the standard of care required in subsection D of this section must be given.

D. The director of the department of health services shall prescribe rules requiring an abortion clinic or a hospital that performs or induces an abortion at or after twenty weeks' gestational age as defined in section 36-2151 to establish, document and implement policies and procedures to ensure compliance with this section. At a minimum, these policies and procedures shall require that:

1. In the case of an abortion clinic, a person is designated to contact emergency services immediately at the birth of a fetus or embryo delivered alive to arrange transfer to a hospital.
2. At least one person who is trained in neonatal resuscitation is present in the room where the abortion takes place for any abortion performed or induced at or after twenty weeks' gestational age.
3. Establish a protocol for rapid neonatal resuscitation of a fetus or embryo delivered alive, including assessing respiration and heart rate, clearing secretions, positioning the airway, providing warmth, drying and administering oxygen as needed.

E. If an abortion is performed and a human fetus or embryo with a lethal fetal condition is delivered alive, and the protocol for rapid neonatal resuscitation of a fetus or embryo pursuant to subsection D of this section is complied with and any further treatment beyond what is prescribed pursuant to subsection D of this section will do no more than temporarily prolong the act of dying when death is imminent, no further treatment is required by this section.

F. A hospital that is not in substantial compliance with the rules or policies and procedures adopted pursuant to this section may be subject to the penalties and sanctions specified in sections 36-427 and 36-431.01.

3. A maternal grandparent of the human fetus or embryo delivered alive if the mother was not at least eighteen years of age at the time of the abortion, unless the pregnancy resulted from the plaintiff's criminal conduct.

I. A civil action filed pursuant to subsection H of this section shall be brought in the superior court in the county in which the woman on whom the abortion was performed resides and may be based on a claim that the failure to see that all available means and medical skills were used to promote, preserve and maintain the life of the human fetus or embryo was a result of simple

negligence, gross negligence or wanton, wilful or intentional misconduct or any other legal standard of care. Relief for a civil action filed pursuant to subsection H of this section may include any of the following:

1. Monetary damages for psychological, emotional and physical injuries resulting from the violation of this section.

The physician shall attach a copy of this statement to any fetal death report filed pursuant to section 11-593 or fetal death registration filed pursuant to section 36-329.

D. The contractor shall use a statistically valid method of sampling to conduct the review of ultrasound results from a woman as a result of a second trimester abortion of a fetus of up to eighteen weeks' gestation. The contractor shall conduct a review of all ultrasound results from a woman as a result of an abortion of a fetus of eighteen or more weeks' gestation.

E. Beginning on January 1, 2001, on a monthly basis, persons or corporations providing ultrasound review services to the department pursuant to this section shall file a report with the director regarding ultrasound results, noting:

1. Any instances in which the contractor believes there was a significant inaccuracy in the estimated gestational age of the fetus made before the abortion.
2. Any circumstances that, based on the contractor's professional judgment, might explain a significant inaccuracy reported pursuant to paragraph 1 of this subsection.
3. Whether there was reasonable compliance pursuant to subsection C of this section.
4. Whether, based on the results of the review of each ultrasound, the physician should have filed a fetal death certificate with the department of health services as required by section 36-329, subsection C.
