

2008 Felix A. Anderson Image Award

David T. Rowe, P.E., P.S., PCP
Founder & CEO, Rowe Engineering

Throughout his career, Mr. Rowe had been active in programs and organizations aimed at educating the public about the positive contributions of the engineering profession. As founder and CEO of Rowe Engineering and as a Vice President for Inland Seas Engineering, Mr. Rowe successfully completed hundreds of residential, commercial and industrial engineering and surveying projects throughout Michigan.

Mr. Rowe served on the ACEC/Michigan Board of Directors for several years and is one of the only individuals to serve multiple terms as President of ACEC/Michigan (1968-69). He served as chairman of the National ACEC Education & Scholarship Committee and was elected a Fellow of the National ACEC in 1977.

Mr. Rowe assisted in creating the Land Surveying program at Mott Community College, developed standards for barrier free access to boating and fishing for persons with physical disabilities under the ADA, and was a member of the State Plat Advisory Committee for 15 years. Mr. Rowe is always active in community programs and served five years on the Flushing Community Schools Board of Education.
