5806 Mesa Dr, Suite 375
Austin, TX 78731

Dear Samantha:

MyLIBRO currently serves nearly 400 Public & Academic libraries, helping connect the libraries, their services and their patrons.

Our all-in-one mobile application creates a discovery layer-like experience for patrons accessing the ILS, checking on library programs and events, consuming audio & eBooks and utilizing various other library services from their mobile devices.

The platform also offers built-in scheduling & self-check services, live chat with a librarian and more. All features are customizable to each library's needs and can be turned on and off as required.

We pride ourselves on best-in-the-industry customer service and ongoing development of the platform, always with the goal of putting our libraries and their patrons first. We are already serving several CTLS libraries and are excited to become a Commercial Partner with your organization.

Discount: MyLIBRO's list prices are based on active cardholder count and are the lowest in the industry for comparable features, but we're excited to offer CTLS members an additional 10% discount on each year's subscription. Any current CTLS member already a myLIBRO customer will receive a pro-rated rebate applied to next year's subscription.

Purchasing Instructions: We accept purchase orders. Members may request a personalized demo or place their order by contacting Mike Rossetti, Director of Sales, at mike.rossetti@conversight.ai or (812) 341-0200.

Thank you for considering myLIBRO, and we look forward to working with you and your members.

Sincerely,
Mike Rossetti
Director of Sales
