2021 Graduate Student Symposium:

- [Introduction](#)
- [Influence of the Last Glacial Period on the genetic diversity of current Southeast Asians - Catarina Branco](#)
- [Inferring selective sweep parameters through supervised learning - Ian Vasconcellos Caldas](#)
- [Sourcing Elephant Ivory from a Sixteenth-Century Portuguese Shipwreck - Alida de Flamingh](#)
- [Recombination and population demographics impact allele-specific expression of deleterious variants in human populations - Michelle P. Harwood](#)
- [Pan-mammalian analysis of molecular constraints underlying extended lifespan in mammals - Amanda Kowalczyk](#)
- [Historical memory, epistasis, and contingency in long-term protein evolution - Yeonwoo Park](#)
- [Sex-specific selection drives the evolution of alternative splicing in birds - Thea F. Rogers](#)
- [Preferred synonymous codons are more accurately translated: proteomic evidence, among-species variation, and mechanistic basis - Mengyi Sun](#)

2021 SMBE Presidential Address - [Harmit Malik – Constraints and adaptive potential of antiviral proteins](#)

2021 SMBE Business Meeting - [Harmit Malik](#)

2021 SMBE Past-President Address - [Marta Wayne - Neutral theories](#)

2021 Faculty Awards Symposium

- [Early Career Faculty Award Winner Introduction - Harmit Malik](#)
- [Early Career Faculty Award Winner - Kelley Harris - Investigating common mutator phenotypes in humans, mice, and yeast](#)
- [Mid-Career Faculty Award Winner Introduction - Harmit Malik](#)
- [Mid-Career Faculty Award Winner - Tanja Stadler - What do SARS-CoV-2 genomes tell us about pandemic spread?](#)
- [Lifetime Achievement Award Winner Introduction - Harmit Malik](#)
- [Lifetime Achievement Award Winner - Michael Lynch - Forty years of effective neutrality](#)
