Mississippi Valley Veterinary
Medical Association

121ST ANNUAL MEETING

MARCH 4-5, 2026

Par-A-Dice Hotel & Casino
East Peoria, IL

**The Mississippi Valley Veterinary Medical Association
(MVMMA) Board of Directors invites you to join them for their
121st Annual Meeting.**

MVMMA Officers

Dr. Jason Wrage, President
Dr. Jason Kennell, President-Elect
Dr. Janelle McFarland, Past President
Dr. Kim Stevens, Executive
Secretary/Treasurer
Dr. Mike Manthey, Program Chairman

Executive Board

Dr. Rachel Kuhn-Siegel Dr. Patricia Winston
Dr. Sarah Phipps Meredith Weber, CVT

Nominating Committee

Dr. Nikki Johnson Dr. Ray Ramirez
Dr. Janelle McFarland

ISVMA Board of Directors

Members

Dr. Peter Nichols, Treasurer
Dr. Jason Wrage, Region 4 Representative
Region 4 Representative Vacancy

Honorary Members

Jeff Burkhammer Dr. Joe Pula
Karl Harmon Dr. Calvin Rodgers
Paul O' Bryen Dr. Micheal Thomas
Dr. Art Orum Dr. Nate Waggoner

CE **Daily Hours**
Wednesday = 6 hours
Thursday = 6 hours

REGISTER

LODGING

Par-A-Dice Hotel & Casino

21 Blackjack Blvd.
E. Peoria, IL 61611

Room block will be
released on Tuesday,
February 10.

A discounted room rate, \$110, plus
a \$7 resort fee plus tax per room
per night, is being held for MVMMA
Conference attendees at the Par-A-
Dice Hotel & Casino.

Call 800-547-0711 or 309-699-7711
to make your reservation.

Use code MVVC26C for the
discounted rate. Book online at
[www.gaming.com/groups-and-
weddings/groups-reservations](http://www.gaming.com/groups-and-weddings/groups-reservations).

SCHEDULE WEDNESDAY, MARCH 4

TRACK 1- DVM

7:30 a.m. Registration - Vendor Area

Breakfast - Salon A

**8-9 a.m. Speaker: Nicole Gibbs, DVM, MS, DACVIM (SAIM),
ACVNU Resident, Clinical Assistant Professor at Purdue
University College of Veterinary Medicine**

Updates on Treatments in Chronic Kidney Disease - Salon B

Acute kidney injury and chronic kidney disease continue to present challenges in small animal medicine with research uncovering new biomarkers and management strategies. This lecture reviews recent advances in diagnosis and treatment, focusing on integrating new biomarkers and therapies, such as FGF-23 and new phosphorus binders, into clinical practice.

9-10 a.m. Recurrent Urinary Tract Infections - Salon B

Recurrent urinary tract infections can be frustrating for both veterinarians and clients. Through case-based examples, this lecture highlights the importance of properly categorizing recurrent UTIs, explores their underlying causes, and offers practical guidance for effective diagnostics and long-term management.

10-10:30 a.m. Vendor Break

10:30-11:30 a.m. Recognizing Feline Ureteral Obstructions - Salon B

Feline ureteral obstructions are an underrecognized cause of acute kidney injury, ranging from mild disease to severe, life-threatening illness. This lecture will discuss how to recognize ureteral obstructions based on clinical and imaging findings, along with current treatment options and prognosis.

**11:30 a.m.-12 p.m. Guest Speakers: Illinois State Veterinary Medical
Association, University of Illinois College of Veterinary
Medicine - Salon B**

12-1 p.m. Lunch - Salon A

SCHEDULE WEDNESDAY, MARCH 4

TRACK 1- DVM, cont.

1-2 p.m. Canine Urinary Incontinence - Salon B

Urinary incontinence is common in small animal practice. This lecture reviews recent consensus guidelines and offers practical strategies to incorporate them. During this lecture, we will use a case-based approach to diagnose and manage storage and voiding disorders effectively.

2-2:30 p.m. Vendor Break

2:30-3:30 p.m. Fluid Therapy in Kidney Disease - Salon B

Patients with kidney disease have dynamic fluid needs, and assessing hydration can be challenging in these patients. Unfortunately, overhydration can significantly increase patient morbidity and mortality. During this lecture, we will discuss fluid therapy in patients with kidney disease with an emphasis on recognizing overhydration and common pitfalls.

3:30-4:30 p.m. When to Refer: Indications for Extracorporeal Therapies in Small Animal Practice - Salon B

Hemodialysis and other extracorporeal therapies are rapidly evolving in veterinary medicine, offering expanding applications from toxin removal to management of immune-mediated disease. This lecture explores current indications, including acute kidney injury, toxic exposures and immune-mediated conditions, and outlines how these therapies can enhance clinical outcomes.

4:30-5:30 p.m. Social Hour and President's Reception - Salon A Sponsor: Elanco Animal Health

TRACK 2 - CVT

7:30 a.m. Registration - Vendor Area

Breakfast - Salon A

SCHEDULE WEDNESDAY, MARCH 4

TRACK 2 - CVT, cont.

8-9 a.m. Speaker: Candice Jones, CVT

The Pre-Game Plan: Winning at Anesthesia Before You Even Start - Salons C & D

The thought of anesthesia, for many technicians, can bring a mix of anxiety and uncertainty. The stakes feel high, and it is common to worry about not knowing enough or not having had enough hands-on experience. But even without being an anesthesia expert, technicians play an essential role in ensuring every anesthetic event is as safe and smooth as possible. In this session, we will explore how veterinary technicians can partner with veterinarians to help develop effective, safe anesthetic plans based on thorough preanesthetic evaluations.

9-10 a.m. Helping Pet Parents Understand the "Stink" Behind Pet Dental Disease - Salons C & D

Client education is where compliance begins when it comes to pet dental health. As technicians, we need to do more than smile and nod. We need to confidently echo the veterinarian's recommendations and, if the opportunity presents itself, start the conversation ourselves. This session combines lecture and interactive activities to help you gain the skills and confidence you need to navigate conversations with pet parents about dental disease and oral health.

10-10:30 a.m. Vendor Break

10:30-11:30 a.m. Whisker Woes - Intro into Navigating FLUTD - Salons C & D

According to the Cornell Feline Health Center, feline lower urinary tract disease (FLUTD) is the number one reason cats visit veterinary practices. With such frequency of these cases, it is important that technical and support team members have a strong foundation in recognizing FLUTD and confidence guiding pet parents through what this means for their cat. Understanding the basics not only helps in identifying signs but also in having supportive conversations about preventive measures and long-term care following an initial diagnosis.

SCHEDULE WEDNESDAY, MARCH 4

TRACK 2 - CVT, cont.

11:30 a.m.-12 p.m. Guest Speakers: Illinois State Veterinary Medical Association, University of Illinois College of Veterinary Medicine - Salon B

12-1 p.m. Lunch - Salon A

1-2 p.m. Heartworms 101: Prevention, Detection and Client Education - Salons C & D

Despite the variety of preventatives available, the Companion Animal Parasite Council (CAPC) continues to report an alarming number of heartworm positive cases nationwide. As a profession, this tells us that there is room for improvement. Not in the preventions available, but how we communicate with clients about it. We play a key role in helping pet parents understand why heartworm prevention and testing are so important.

In this session, we will focus on the essentials of heartworm disease: The life cycle, value of consistent testing and the importance of prevention. Above all, we will explore ways to have clear, confident conversations with pet parents that build understanding and compliance.

2-2:30 p.m. Vendor Break

2:30-3:30 p.m. Pain Management 101: Be the Advocate Your Patients Need - Salons C & D

Pain management in veterinary medicine has come a long way since it first moved to the forefront of everyone's mind in the early 2000's. As patient advocates, veterinary technicians play a critical role in ensuring every patient in our care receives appropriate pain management. This session is designed as an introduction to pain management for those who are developing a passion for this essential aspect of veterinary care. The veterinary field can never have too many advocates for pain management, and this session aims to inspire attendees to start building their skills and confidence in this important area.

SCHEDULE WEDNESDAY, MARCH 4

TRACK 2 - CVT, cont.

3:30-4:30 p.m. Thyroid Disease - Canine vs. Feline: Understanding the Clinical and Diagnostic Differences - Salons C & D

As one of the more common endocrine diseases seen in small animal practice, thyroid disease is also one that tends to be easily overlooked, especially when clinical signs are subtle or mimic other chronic conditions. By gaining an enhanced understanding of this disease, veterinary technicians can help play an integral role in the early stages of diagnosis, client education and long-term management.

**4:30-5:30 p.m. Social Hour and President's Reception - Salon A
Sponsor: Elanco Animal Health**

TRACK 3 - Program Management

7:30 a.m. Registration - Vendor Area

Breakfast - Salon A

8-9:30 a.m. Speaker: Amy Newfield, CVT, MS, VTS (ECC), Owner, Veterinary Team Training

Turn the Negativity Around: How to Convert a Team's Thinking - Salon E

Love gossip? Tolerate coworkers showing up late? Welcome high turnover? No one does. This lecture gets to the root of some of the most important topics no one wants to talk about: The negative team. It will review how to foster the best team and create a welcoming and productive team environment. Attendees will learn how to create trust, learn why teams are negative and learn the steps on how to reframe negative thinking.

9:30-10 a.m. Vendor Break

10-11:30 a.m. Decreasing Stress in Veterinary Medicine - Salon E

Why are our jobs so stressful? What skills do you need to be your best, happy self? This lecture dives into how you can be your best self by decreasing stress.

SCHEDULE WEDNESDAY, MARCH 4

TRACK 3 - Program Management, cont.

11:30 a.m.-12 p.m. Guest Speakers: Illinois State Veterinary Medical Association, University of Illinois College of Veterinary Medicine - Salon B

12-1 p.m. Lunch - Salon A

1-2:30 p.m. Managing Conflict in Teams and Difficult Clients - Salon E

No one tells us we have to work with people! Clients come in all shapes, sizes and attitudes. Let's talk about dealing with difficult clients. Attendees will be provided tools on how to deal with the most difficult and how to make the experience better for the team and client.

2:30-3 p.m. Vendor Break

3-4:30 p.m. How to Make a New Hire Quit in Under Six Months - Salon E

Veterinary professionals are in short supply. Finding and keeping a good, qualified one is tough. What can you do to retain your new hire on your team and, better yet, get more to join your team? This lecture will discuss those things and more. Attendees will learn the importance of onboarding, how to start creating an onboarding process and how to support current staff with training new hires.

4:30-5:30 p.m. Social Hour and President's Reception - Salon A
Sponsor: Elanco Animal Health

SCHEDULE THURSDAY, MARCH 5

TRACK 1 - DVM

7:30 a.m. Registration - Vendor Area

Breakfast - Salon A

8-9 a.m. Speaker: Wendy A. Ware, DVM, MS, Dipl. ACVIM (Cardiology), Professor Emerita, Iowa State University College of Veterinary Medicine

Mitral Valve Disease in Dogs: The Journey Begins - Salon B

Myxomatous (degenerative) mitral valve disease is the most common acquired heart disease in dogs. We'll review key disease features and clinical staging of severity. Our focus here will be asymptomatic patients (the majority of cases). Case examples will illustrate the staging process, and associated recommendations for care will be presented.

9-10 a.m. Mitral Valve Disease in Dogs: The Journey Continues - Salon B

In this session, known risk predictors for the initial onset of congestive heart failure (CHF), the transition to overt CHF, and initial CHF management strategies will be discussed. Considerations related to drugs commonly used, out-patient vs. in-hospital treatment, transition to home care and patient reassessment are other topics.

10 a.m.-10:30 a.m. Vendor Break

10:30-11:30 a.m. Managing Chronic Heart Failure in Dogs: Strategies & Complications - Salon B

We'll focus on important management issues related to myxomatous mitral valve disease and also dilated cardiomyopathy in dogs, including questions of diagnosis, general management goals, treatment strategies, home-care considerations and re-evaluation visits. Using case examples and clinical graphics, we'll explore some common complications that can develop in these patients.

11:30 a.m.-12 p.m. MVVMA Business Meeting - Salon B

SCHEDULE THURSDAY, MARCH 5

TRACK 1 - DVM, cont.

12-1:15 p.m. Lunch & Final Vendor Break - Salon A

1:15-2:15 p.m. Chronic Heart Failure in Dogs: More Complications & Some Caregiver Insights - Salon B

Additional clinical cases in this session will help illustrate various other complications in canine heart failure patients. We'll consider their clinical manifestations, approach to diagnosis and management. Strategies for patients with refractory (State D) congestive failure also will be presented and, as time allows, some insights from owner-caregivers.

2:15-3:15 p.m. Approach to Cardiomyopathy in Cats, Part I - Salon B

"Cardiomyopathy" as an overarching term encompasses a heterogeneous group of myocardial disorders that often present with similar clinical signs. After a brief overview of different feline cardiomyopathy phenotypes and clinical staging guidelines, we'll focus on the most common form: Hypertrophic cardiomyopathy. Functional characteristics and preclinical considerations round out this session.

3:15-3:30 p.m. Break

3:30-4:30 p.m. Approach to Cardiomyopathy in Cats, Part II - Salon B

Stage C hypertrophic cardiomyopathy is the topic for this session. Underlying pathophysiologic issues, clinical manifestations, treatment of acute congestive failure, chronic management and efforts to reduce risk of thromboembolism are included.

SCHEDULE THURSDAY, MARCH 5

TRACK 2 - CVT

7:30 a.m. Registration - Vendor Area

Breakfast - Salon A

8-9 a.m. Speaker: Amy Newfield, CVT, MS, VTS (ECC), Owner, Veterinary Team Training

Too Hot, Too Cold - Salons C & D

This lecture reviews two common emergencies - hyperthermia and hypothermia. Technicians will understand what both syndromes are, complications and treatment.

9-10 a.m. Shock, What Really is an Emergency? - Salons C & D

This lecture will address the various stages and types of shock. Attendees will leave understanding shock and how to identify if the pet is experiencing an emergency.

10-10:30 a.m. Vendor Break

10:30-11:30 a.m. CPR: Basic Life Support - Salons C & D

This lecture will focus on the most up-to-date recommendations for basic life support. Through videos, participants will leave understanding what type of compressions to perform on different breeds to how best ventilate a patient. Attendees will learn what basic life support is, how to correctly perform chest compressions, and how to deliver correct ventilation for a patient.

11:30 a.m.-12 p.m. MVVMA Business Meeting - Salon B

12-1:15 p.m. Lunch & Final Vendor Break - Salon A

1:15-2:15 p.m. Monitoring the IV Fluid Patient - Salons C & D

IV fluids are not benign. You can kill a patient if you don't monitor them appropriately! It's important to understand the risks of fluid therapy and be able to appropriately monitor the patient. This lecture will focus on how to appropriately monitor the IV fluid therapy patient with the very basic skills to the advanced.

SCHEDULE THURSDAY, MARCH 5

TRACK 2 - CVT, cont.

2:15-3:15 p.m. Blood Pressures Made Easy - Salons C & D

Doppler blood pressures causing nothing but frustration? Has your clinic just given up on getting blood pressures because it's too difficult to find the pulse? This lecture reviews what blood pressure is, the importance of obtaining a blood pressure, how to calculate out MAP and the tricks of the trade on how to obtain one. Videos will be shown; oscillometric and invasive methods will also be discussed.

3:15-3:30 p.m. Break

3:30-4:30 p.m. Seizures! - Salons C & D

This lecture talks about why seizures can happen, diagnostics involved and treatment. Numerous videos are shown so attendees can truly understand all stages and types.

TRACK 3 - Special Interest

7:30 a.m. Registration - Vendor Area

Breakfast - Salon A

8 a.m.-9 a.m. Speaker: Julie Nash, CVPM, PHR, SHRM-CP, Owner/Management Consultant, Practice Moxie

Team Training: Three-Part Session Series - Salon E

This interactive three-part series explores how to understand ourselves as learners, recognize the learning needs of others, and set up effective training systems in veterinary practices. Participants will discover strategies to accelerate learning by leveraging insights from neuroscience, develop a sustainable learning culture, and identify obstacles that impede team growth. Using current research in talent development, real-world examples, and a hospital training "makeover" story, this series empowers veterinary practices to train as effectively as major corporations.

SCHEDULE THURSDAY, MARCH 5

TRACK 3 - Special Interest, cont.

8-9 a.m. Team Training Session 1: What's My Style? Learning Styles and Adult Learner Characteristics - Salon E

Learn how to:

- Identify various learning styles and understand how they influence learning
- Apply adult learning theory to veterinary practice training
- Use assessments and tools to tailor training approaches to individual team members

9-10 a.m. Team Training Session 2: What's the Best Method? Effective Learning and Delivery Strategies - Salon E

Learn how to:

- Explore methods to enhance knowledge, skills and attitudes in the workplace
- Leverage training resources to accelerate learning
- Match delivery methods to learning goals and team dynamics

10-10:30 a.m. Vendor Break

10:30-11:30 a.m. Team Training Session 3: What Drives a Learning Culture? - Salon E

Learn how to:

- Identify and empower the best trainers within your team
- Build systems and structures that support ongoing learning
- Recognize and remove obstacles that limit team growth and engagement

11:30 a.m.-12 p.m. MVVMA Business Meeting - Salon B

12-1:15 p.m. Lunch & Final Vendor Break - Salon A

SCHEDULE THURSDAY, MARCH 5

TRACK 3 - Special Interest, cont.

1:15-2:15 p.m. **Conflict Resolution Skills for Veterinary Leaders, Session 1: When the Fur Flies - Identifying and Understanding Conflict in Clinics - Salon E**

Conflict is inevitable in any workplace, and veterinary teams are no exception. Long hours, emotional cases, and differing communication styles can make small disagreements escalate quickly. Left unchecked, conflict erodes morale, damages trust and ultimately impacts patient care. The good news? Conflict isn't always bad. When recognized early and handled well, it can actually strengthen teams and improve collaboration. This session will help managers and leaders understand the roots of conflict, recognize early warning signs and learn key steps in the resolution process.

- Learn the common causes of conflict in veterinary settings and how to spot them before they escalate
- Explore the conflict cycle and understand how emotions, communication and workplace stressors interact
- Discover how different conflict styles shape outcomes
- Gain tools to turn conflict into an opportunity for growth and team connection

2:15-3:15 p.m. **Conflict Resolution Skills for Veterinary Leaders, Session 2: Top Dog - The Leader's Role in Resolving Conflict - Salon E**

Managers play a pivotal role in how conflict is resolved - or not resolved - within the practice. Acting as both leader and mediator, managers must create an environment where concerns are addressed, communication flows openly and accountability is clear. This session focuses on the manager's responsibility in guiding the team through conflict, modeling effective resolution strategies, and ensuring a culture of respect and collaboration.

- Define the manager's role in preventing, managing and resolving conflict in the clinic
- Learn strategies to coach team members toward self-resolution while knowing when to step in
- Build confidence in facilitating difficult conversations with individuals or groups
- Create a framework for resolving conflict using constructive behaviors and intervening to prevent destructive behaviors in the workplace
 - Explore practical examples of successful manager-led conflict resolution in veterinary practices

SCHEDULE THURSDAY, MARCH 5

TRACK 3 - Special Interest, cont.

3:15-3:30 p.m. **Break**

3:30- 4:30 p.m. **New Employee Orientation and Onboarding: Do it Right and Retain; Do it Wrong and Repeat - Salon E**

The veterinary profession is constantly challenged with recruiting and retaining talented employees, and the talent shortage is palpable. Research shows that 69% of employees who experience good orientation and on-boarding will stay for an average of three years. As leaders, we get overwhelmed with the pace of replacing team members and keeping up with operations and, ironically, our orientation processes suffer first. Orientation is the most pivotal training period of the employment cycle, so if we fail to do it well, the vicious cycle of turnover repeats! Learn how to develop a system that increases retention in your practice and make new employees glad they joined your team!

- Discover the three questions all new team members want to know, and how to provide answers before they ask
- Identify your role as Manager - to guide, lead, answer and develop your team members
- Set a time frame and road map for successful orientation and assimilation into your practice team and its culture
- Uncover ways to save time and improve the orientation experience by using the social component of learning
- Explore new ideas from practices who have developed a competitive edge by improving orientation processes

SPEAKERS

Nicole Gibbs, DVM, MS, DACVIM (SAIM), ACVNU Resident, Clinical Assistant Professor Dr. Nicole Gibbs completed a Small Animal Internal Medicine residency at Purdue University and is now a Clinical Assistant Professor. Her clinical interests include nephrology and urology, with a focus on interventional procedures, urinary stone disease and extracorporeal therapies.

Candice Jones, CVT Candice Jones has worked in veterinary medicine since 2001, first as a credentialed technician and now as a consultant specializing in training, development and talent acquisition. Passionate about empowering veterinary teams, she focuses on mentorship, workflow optimization and fostering growth through engaging, practical and team-centered learning experiences.

Julie Nash, CVPM, PHR, SHRM-CP Julie Nash is a nationally-recognized veterinary management expert with 30 years of industry experience. Founder of Practice Moxie and creator of the Expert Trainer Program, she also serves as a practice owner with AscendVets, applying proven leadership and training strategies with her own hospitals.

Amy Newfield, CVT, MS, VTS (ECC) Amy is the owner of Veterinary Team Training and author of the award-winning books, "Oops, I Became a Manager" and "Oops, My Team is Toxic." Amy is focused on growing veterinary leaders and providing top-notch veterinary education. She boasts 26 years of experience ranging from general practice, emergency, government work, private, corporate and leadership roles. She has been lecturing for more than 19 years, won three speaker of the year awards and always gets rave reviews for her energetic, humorous and engaging approach to topics. Amy has worked with translators in five countries and lectured in more than 13 different countries. She was named Speaker of the Year VMX in 2014, 2022 and 2025.

Wendy A. Ware, DVM, MS, Dipl. ACVIM (Cardiology), Professor Emerita As a clinician-educator, Dr. Ware has taught cardiology and cardiovascular physiology to multitudes of veterinary students and hundreds of continuing education hours for veterinarians. Her publications include three books (most recently *Cardiovascular Disease in Companion Animals: Dog, Cat and Horse*), many book chapters and journal articles on clinical veterinary cardiology.
