INTRODUCTION

This bulletin contains a list of specifications and standards associated with solders and soldering. It includes both government and commercial references found most frequently in contracts and in the literature. It is intended that this list be revised periodically. Any suggested revisions or additions for inclusion in the next issue should be addressed to the Chairman, P- 7.4 Working Group on Solders and Fluxes, c/o Electronic Industries Association, 2001 Eye Street, N. W. , Washington, D. C. 20006, attention: Engineering Department.
