

mETaL Pricing Overview

Save time and money:

The **mETaL** SaaS platform is different than other offerings. Some ETL's provide a limited framework for a company which then needs to be manipulated. **mETaL** provides a smart "cross-platform" protocol that enables companies to transform their data to any other CRM worldwide.

mETaL breakdown:

1. *mETaL Protocol Development Fee:*

The mETaL Protocol Development Fee is a onetime fee to create the "cross-platform" protocol which enables connectivity to any other partner's CRM. This protocol development is only incurred once regardless of the number of CRM-to-CRM connections. The one-time fee is **\$5,000**.

2. *mETaL Subscription Fee:*

The mETaL Subscription Fee is a monthly (CRM-to-CRM) integration fee that supports the protocol's cloud-based framework. Each company is charged for each CRM-to-CRM integration. The monthly subscription costs **\$300/integration/month**.
