

NORTHEAST EMERGING

Connect. Grow. Give.

Northeast Emerging is the young professionals program of the NEJC Chamber of Commerce, created for professionals who want more than business cards and casual networking. Our members build genuine relationships, develop leadership skills, support local nonprofits, and become active voices in shaping the future of our communities.

WHAT WE BELIEVE

Connect: Through networking events, social gatherings, and collaborative experiences, you'll meet fellow young professionals, Chamber members, business leaders, and community influencers who can help you grow both personally and professionally.

Grow: Northeast Emerging provides opportunities to develop leadership skills, gain new perspectives, learn from experienced professionals, and prepare for future leadership roles within your organization and the community.

Give: Members participate in volunteer projects, nonprofit partnerships, and community initiatives that create lasting impact throughout Northeast Johnson County.
