

Definition of Secondary Membership

Secondary membership describes REALTORS® who hold membership in an association other than their primary association. The only distinction between primary membership and secondary membership is that the dues collected in the member's primary association include the NAR portion of dues. You can only join as a secondary member if you hold an active Primary membership with another Board.

If you need access to Delaware forms include DAR amount and DAR app fee to your total

If you need access to Sentilock key include that amount to your total
