

HBA Volunteers Give Back Through Adopt-A-Highway Cleanup

The Home Builders Association of Southwestern Michigan recently completed its first Adopt-A-Highway cleanup, bringing members together to help keep our community clean and welcoming.

After a weather-related postponement, volunteers gathered on a beautiful afternoon to clean the HBA's adopted section of the I-94 St. Joseph/Stevensville Carpool Lot. In addition to making a visible difference along one of the area's busiest corridors, the event provided an opportunity for members to connect while giving back to the community. Mighty Dog Roofing of Benton Harbor generously provided refreshments, making the afternoon even more enjoyable.

The HBA is proud to participate in the Michigan Department of Transportation's Adopt-A-Highway program, one of the state's largest volunteer roadside cleanup efforts. Each year, volunteers across Michigan collect approximately 36,000 to 40,000 bags of litter, helping protect natural resources, enhance community pride, and create a cleaner environment for everyone.

Community service is an important part of the HBA's mission, and the Adopt-A-Highway program is one of many ways members work together to make a positive impact beyond the building industry.

The HBA welcomes members to participate in the next Adopt-A-Highway cleanup during the September 19–27 cleanup week. By working together, we can continue making Southwestern Michigan a cleaner, more beautiful place to live, work, and visit.
