

Business ON BOARD

NONPROFIT BOARD TRAINING

Service on a nonprofit Board of Directors can be one of the most rewarding ways to contribute your skills and experience to make a positive impact on the community. Nonprofits working hard to improve our state face enormous challenges, so they seek energetic, talented and qualified leaders to achieve their missions. However, not always do prospective board members have the tools and information to be the most successful. **That's where Business on Board comes in.**

Business on Board is designed to teach professionals what they need to know before joining a nonprofit board or to give a much-needed refresher to current board members and other organization leaders. Expert speakers provide attendees with critical knowledge about nonprofit board service, including:

- An overview of nonprofits and their impact (local and national)
- Basics of board roles & responsibilities
- The Fiduciary, Legal & Fundraising role of board members

The program is offered in multiple formats to a variety of audiences throughout the year:

- **Community Business on Board:** These sessions are held live virtually a couple times per year and are open to anyone to attend. They are also offered in an on-demand format broken into sections so you can watch when convenient for you/your board. The cost to attend ranges from \$79-\$119. Alliance members always receive special pricing.
- **Private - Corporate OR Nonprofit Business on Board:** Small, medium or large businesses or corporations can opt to hold a private Business on Board training for their employees, either at their location or offsite. Nonprofits can also opt to hold a private Business on Board training for their own board members.

These sessions can be tailored to include information about the organization's volunteer or board service goals and objectives. We also offer a half-day, "refresher" or customized courses for organizations whose employees/board already have some nonprofit board experience, but who want to learn new trends, current best practices and new tips for effective leadership.

Pricing*:

Private Training	Duration	Nonprofit Members	Nonprofit Non-Members & Businesses
Full-Day	4 - 6 hours	\$4,000	\$5,000
Half-Day	2.5 – 3 hours	\$2,000	\$2,500
Customized or Refresher	1.5 - 2 hours	\$1,000	\$1,500

*Organizations are responsible for providing any desired food and beverage. Full- and half-day trainings include pricing and materials for up to 25 attendees. Dependent upon location, there may be travel reimbursement requirements.

- **Full-Day Training:** Includes customized binders and materials for up to 25 participants. Additional attendees may be added with small per person fee to cover materials.
- **Half-Day Training:** Includes a basic overview handout and electronic links to all materials. If printed materials are desired, a small per person fee to cover materials can be added.
- **Customized or “Refresher” Training:** Printing of provided materials is the responsibility of the organization.
 - **For Nonprofit Boards:** Includes an overview of responsibilities, focus on nonprofit lifecycles and how this applies to board governance, as well as an interactive board game that creates meaningful discussion and enhances learning among participants.
 - **For Businesses:** Some organizations may desire a presentation on general board governance practices or one particular board responsibility such as legal or finance.
