

2023 TEAM CHALLENGE

The Monmouth Regional Chamber of Commerce (MRCC) is proud to partner with the Freehold Regional High School District and Upper Freehold Regional School District for the **2023 Team Challenge** competition. Since 2003, the theme has been “**An Ethics Initiative for Tomorrow’s Leaders**”. The **Team Challenge** gives nearly 100 students from 7 different high schools the opportunity to work in teams to create and present solutions for various ethical dilemmas facing businesses today. Once all presentations have been given, a panel of judges will choose a winning team from one of the participating schools. The 2023 Team Challenge Day will take place on Friday, December 8.

Sponsorships like yours make this program possible, allowing MRCC to bring this ethics initiative to students from over ten towns. With nearly 100 students competing, you are contributing to their educational development in problem-solving, team building, and ethical workplace issues.
